Mr. Seth Bemis of Watertown read the act alluded to, and offered the following motion:

Voted, That the company accept the act of the Legislature of Massachusetts, being Chapter 401 of the acts of 1874, entitled "An act to authorize the Fitchburg Railroad Company to construct additional tracks, re-locate portions of its own and the Vermont and Massachusetts Railroad, and for other purposes," and that the directors be and they are hereby authorized to do and perform any and all the acts, matters and things authorized by the first and second sections of said act.

Mr. Bemis stated that the managers desired the consent of the stockholders to operate only under those portions of the act which relate to the relocation, as they do not desire any increase of the capital stock. The motion was adopted without opposition, and after the report of the election the meeting adjourned.

☞ The Turkish Government has begun the construction of a railway, to be called the Steam Caravan, between Alexandretta and Alleppo, Syria, 94.2 miles. A single rail is employed, following the conformation of the land, but raised on a wall 28 inches high and 17.5 inches broad. The vehicles are mounted and straddle both rail and wall. The locomotives are provided with horizontal, leather covered wheels, which rest against the sides of the masonry and serve as brakes, and the last vehicle of each train has similar arrangements. Each side of each carriage will hold two persons, and the complete train will accommodate ninety-six.

☞ A special meeting of the stockholders of the California and Texas Railroad Construction Company was held in Philadelphia on the 29th ult. F. S. Bond, vice president submitted a report, in which it was announced that considerable progress had been made toward paying the debt of the company. Resolutions were adopted looking to the liquidation and adjustment of the obligations of the company. Officers were instructed to cancel and abrogate the contract between the Construction Company and the Texas and Pacific Railway Company on such terms as would be equitable to both companies.

☞ It is stated that the trustees of the Cincinnati Southern Railroad have given the contract for the bridge over the Ohio river to the Keystone Bridge Company of Pittsburg, Pa. The bid of this company was $663,570, nearly $100,000 more than the lowest bidder.

Canadian Pacific Railway.

Tenders for Grading—Fort William to Shebandowan.

SEALED TENDERS, addressed to the undersigned and endorsed "Tender Pacific Railway," will be received up to noon of SATURDAY, the 27th of February next, for the Bridging and Grading required on that Section of the Pacific Railway, extending from the Town plot of Fort William, near Thunder Bay, Lake Superior, to Lake Shebandowan, about 45 miles in length.

For plans, specification, approximate quantities, forms of tender and other information, apply at the office of the Engineer in Chief, Ottawa.

Plans and specifications for that part of the line between Lake of the Woods and Red River, will be ready in the course of two or three weeks.

By Order,
F. BRAUN,
Secretary.

Manufactory of the Spencerian Steel Pens, Birmingham, England.

SPENCERIAN

DOUBLE ELASTIC

STEEL PENS

The superiority and excellence of these justly celebrated Pens, are appreciated, as is shown in their constantly increasing sale. They are comprised in 15 numbers, of which *one number* alone has an annual sale of more than

5,000,000.

The *Spencerian Pens* are manufactured of the very best material by the most expert workmen in Europe, and are famous for their elasticity, durability, and evenness of point.

The Spencerian Pens are for Sale by all Dealers.

We make Fifteen Numbers of Pens, differing in flexibility and fineness of point, adapted to every style of writing, as follows:

No. 1. College Pen. *Point Fine; Action Perfect.* This is a great favorite with our leading penmen, is largely used in the Schools and Commercial Colleges throughout the country, and gives better satisfaction than any Pen before the American Public.

No. 2. Counting-House Pen. *Point Fine and Flexible,* well adapted to the use of Correspondents and Accountants.

No. 3. Commercial Pen. *Point Medium.* An Easy Writing Business Pen.

No. 4. Ladies' Extra Pen. *Point Extra Fine and Flexible.* For Delicate Fine Hand Writing this is a very superior Pen.

No. 5. School Pen. *Point Fine, Medium in Flexibility.* For a durable School Pen it has never been equaled.

No. 6. Flourishing Pen. *Point Long, Flexible and Medium in Fineness.* For Off-hand Flourishing.

No. 7. Quill Pen. *Point Medium, Quill Action.* A Smooth, Easy Writing Pen. Its name well represents its qualities.

No. 8. Congress Pen. (New.) *Medium Flexible Point.* A *very* superior Pen for all styles of writing. This Pen undergoes a process that renders it non-corrosive and *three times* more durable than any ordinary steel Pen.

No. 9. Bank Pen. *Point Long and Flexible.* A great favorite with Accountants, Tellers, &c.

No. 10. Custom-House Pen. *Point Medium.* Well adapted to all styles of Bold-hand Writing.

No. 11. University Pen. *Point Medium, very Smooth and Flexible.* The action of this celebrated Pen is very fine.

No. 12. Epistolaire Pen. *Point very Fine and very Flexible.* This is the Finest Pointed Pen made, and for very Delicate Writing, Map and Fine Pen Drawing, it has no equal.

No. 13. Engrossing Pen. *Point Blunt and Smooth.* Particularly adapted to Coarse-hand Writing and Engrossing.

No. 14. Artistic Pen. *Flexible, with extra fine Point.* This Exquisite and Truly Celebrated Pen is the Best Pen extant for Fine Ornamental Writing.

No. 15. The Queen. *Point extra fine.* Admirably adapted to all kinds of Fine Writing.

☞ *Sample Cards containing all the FIFTEEN Numbers, securely enclosed, will be sent by mail on receipt of 25 cents.*

The Westminster and Gardner Lines.

The survey of the new railroad line from Westminster to Gardner has been completed, and the engineers find the grades and curves to be even more favorable than had been anticipated. The longest line surveyed gives a saving in distance over the present line of 2¼ miles, with a maximum grade of 70 feet to the mile, an average of 62 feet, which is substantially the same as that of the present line to Ashburnham Junction. Beyond Ashburnham Junction, however, there is a grade, for some distance, of about 110 feet, upon the present route, which the new avoids, striking the old line at a point 80 feet lower than the present summit. A second and shorter route has been surveyed, which would save another mile in distance, with an increase in average grade of about 10 feet to the mile, and a third and almost direct line from Wachusett Station to the Narrows would shorten the whole distance about 4 miles on a grade of about 115 feet to the mile. This last route necessitates an increase of power from Fitchburg to Westminster, beyond which it would follow the line of the longer survey. These routes would be comparatively easy ones in respect to cutting and filling, and there seems but little doubt but one or the other will be chosen when the straightening of the Tunnel route becomes a necessity, as it soon must.—*Athol Chronicle.*

LANSDELL'S
Patent Portable Railway Syphon.

The Portable is invaluable on a freight or construction train, being used to take water at points where there are no water stations. With it water can be taken from any point within one hundred feet of the track where there is water six inches or more in depth. The valve C is tapped into the locomotive boiler; steam is let on through the hose B, water is drawn through the orifices D D, and forced through the hose E into the tender, filling any tender with warm water in from six to twelve minutes.

Lansdell's Patent Steam Syphons, Double Suction, adopted by the United States Board of Supervisors and approved by the Secretary of the Treasury for use on Steamboats.

For Price and particulars, apply to the General Agents of the Steam Water Station Company,

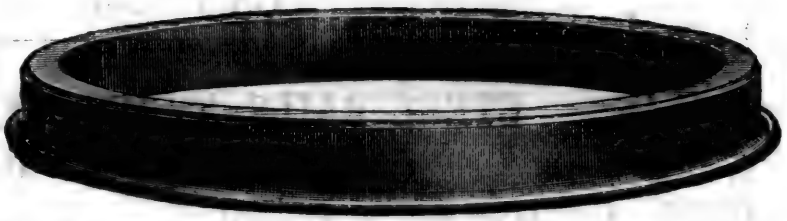
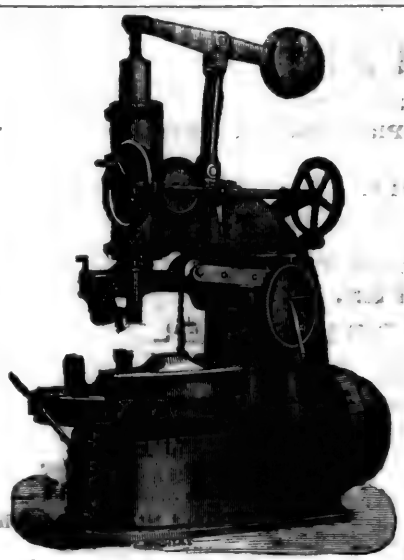
Bombay Hook Railroad.



A correspondent of the Wilmington (Del.) Commercial says that a meeting of those persons immediately interested in the Bombay Hook Railroad was recently held at Sunjoia for the purpose of electing a board of directors, and then adds:

The election was in accordance with a provision of the charter, and those directors elected may be regarded as merely nominal, as it is understood and so reported that Jay Gould is now sole owner of the road, he having bought out the American Dredging Company, who, it will be recollected, purchased the road to save their claim, at sheriff's sale, some time since. It is also stated that Gould's agent Colonel Bingham, who was here, has paid all the claims against the road, and early in the spring it will be put in good running order, and a through route established to New York, and a first class steamer to Philadelphia, to connect with the railroad, at Bombay Hook. This arrangement contemplates control, or co-operation, of the Maryland and Delaware, the Kent County and Queen Anne's County railroads. It is confidently anticipated the whole arrangements will be completed in time for shipment of the strawberry and other spring crops. Passengers are to be conveyed to New York and Philadelphia at a little more than one half the present charges. The steamer will, in addition to carrying passengers, be run as an excursion boat from and to Philadelphia.



☞ The contract for constructing the Corning and Sodus Bay railroad has been let to John E. Gowan & Co., of New York. The road will extend from Savona on the Erie road to a point on the Northern Central, at or near Penn Yan. The road is to be ready for use by the first of January, 1876. It will follow the Northern Central track from Staley, there connecting with the Sodus Point and Southern and Geneva and Southwestern roads.

☞ Comparing 1873 with 1872, the traffic of all the Russian lines combined exhibited an increase in the former over the latter year of 20½ per cent. In 1846 Russia possessed only 18 miles of line; now the Russians have about 10,000 miles in operation, while upwards of 3,000 miles more are in course of construction. Russia is, however, so vast an empire that she has still ample scope for the energies of the railway engineer.

American Railroad Journal.

New York, Saturday, February 13, 1875.

The Chesapeake and Ohio Railroad.

By reference to an announcement in another column it will be seen that the bondholders and creditors of the Chesapeake and Ohio Railroad who have not yet funded their interest or consented to the proposed settlement of their claims against the company, are reminded of the importance of having the matter closed up without delay, in order that the company may be enabled to provide additional equipment for the offered local business; and that capitalists may be induced to proceed with the construction of the proposed western connections, and facilities for handling a much larger through traffic; and that thus the road may be put in a position to earn the interest hereafter, and make good all its indebtedness. It would appear, from the documents published by Messrs. FISK & HATCH, that the road has passed the most critical period of its history, is now beyond all danger of serious trouble, provided the few bondholders and other creditors who have, from inattention or other causes, neglected to adjust their claims in the manner already accepted by a very large majority of the whole, will now come forward and do so at once. If this is not attended to promptly, valuable time will be lost, and the consummation of the plans devised for multiplying the earning power of the property delayed indefinitely—without the slightest benefit to any bondholder or creditor who withholds his assent. These gentlemen, in common with the majority of the bondholders, therefore urge upon all the duty of an early compliance. The coal, iron and timber business of the road shows symptoms of a steady increase; and some branches of its traffic are calling for equipment beyond the present supplies. No doubt is entertained of the ability of the line to earn enough to meet the new engagements of the company, if the funding process is carried out; and with the expected improvements in the western connections; the addition of through business will be sufficient to meet the interest on all its debt within a few years. It is estimated by a special committee, whose report is given in the document referred to, that with a reasonable demand for coal and iron, the operation of the mines and furnaces along the line of the road would, in a short time, yield business sufficient to meet the interest on its entire bonded debt, independently of its merchandise and passenger traffic. In this view of the matter bondholders and others will do well to confer with Messrs. FISK & HATCH and send in their coupons for a final settlement. The closing portion of their argument is as follows:

Through the strenuous exertions of the friends of the road, and the good sense and forbearance of the bondholders and creditors this great property has been held intact, and the enormous interests involved in its future have been protected from sacrifice, for over sixteen months from the time that the company was compelled to suspend payment upon its obligations.

During this time plans have been in progress for giving the Chesapeake and Ohio Railroad a rail connection west, and for the development of other enterprises calculated to add largely and rapidly to its business and revenues; but these plans could not be carried out until the settlement of the company's affairs should be completed; and they are now at a stand still on that account, while valuable time is being lost.

Several months ago the propositions for settlement had received the assent of a large majority of all classes of the bondholders and creditors, and in the meantime no effort to secure their acceptance by the remainder has been relaxed, and some progress has been constantly made; but owing to the failure of some to give their assent, it has been, to a large extent, a period of lost opportunities and of needless delay in the progress of those measures which are calculated to hasten the growth of the earning capacity of the road, and to advance their interests.

No one who is familiar with the situation can doubt that both bondholders and creditors, by delaying their assent to the settlement, are not only deliberately putting off with their own hands the day of payment, but, so far as those holding claims subordinate to the first mortgage are concerned, putting in imminent peril their chance of ever realizing payment at all.

We once more earnestly urge every bondholder and creditor who has not funded his interest, or accepted the company's propositions for settlement, to do so at once. The delay already experienced has been obstructive and injurious, but it is not yet too late, by prompt action to retrieve the time that has been lost, and save your interests from needless sacrifice.

Enable the company by your co operation to perfect the settlement of its affairs, when the following results may be expected:

I. An immediate and large advance in the market price of the First Mortgage Bonds, which, on account of the delay and uncertainty, are now selling much below what their real value must be in any event; while the condition of the road itself and the prospects of business are such that they ought to inspire confidence in the ultimate security of the First Mortgage Bonds, and invite investment in them at advancing prices.

II. New life and energy in perfecting the arrangements for establishing western rail connections, and for extending the eastern terminus to deep water on the Chesapeake Bay; and renewed activity in the development of the mineral resources along the line of the road.

A rail connection with Cincinnati and Louisville would, of itself, add enough to the net earnings of the road to pay the interest on the First Mortgage Bonds; while the development in coal and iron, and other interests along its line, which would follow the extrication of the company from its financial embarrassments, would, in a few years, add a revenue from these sources alone sufficient to enable the company to meet the interest on all its obligations, including the Income Bonds.

III. A rapid increase in the efficiency and earning power of the road, by means of liberal additions to the equipment, which are already greatly needed to meet the increase of business during the present year; which can be readily procured

as soon as the success of the settlement is assured; and in the absence of which the road cannot avail itself of the traffic which will be offered.

IV. A general revival of interest, vigor and confidence throughout every department of the business of the road, and in the various enterprises and industries along its line, which would in a short time so change and improve the aspect of its affairs as to afford satisfactory assurance to the most skeptical of its rapid success, and of the ultimate payment of all its liabilities.

In view of these considerations, which we do not believe are in the least degree overstated, the true policy for every one holding a bond of the company, or a claim of any kind against it, would seem to be clear and unmistakable.

Very respectfully,
FISK & HATCH.

Framingham and Lowell Railroad.

At the annual meeting of the stockholders of this company held at South Framingham, Mass., on the 4th inst., the following report of the directors was presented and read:

DIRECTORS' REPORT.

Earnings for the year		$32,447 54
State and local taxes	$1,027 56	
General expenses	2,174 06	
Interest paid during the year	61,601 80	
		64,803 42
Deficiency for the year		$32,355 88
Deficiency at commencement of year	17,606 21	
Total deficiency		$50,052 09

The total net earnings each year since 1871 have been as follows: 1872, $21,580 35; for 1873, $33,684 86; 1874, $32,447 54.

TRIAL BALANCE, Sept. 30, 1874.

Construction	$1,323,625 24
Telegraph line	3,296 11
Debts receivable	21,345 17
Profit and loss	50,052 09
Cash	6,833 05
	$1,405,151 66
Capital	$511,796 39
Mortgage bonds	500,000 00
Coupon notes	202,000 00
Bills and debts payable	191,355 27
	$1,405,151 66

For further particulars in regard to the business of the road, during the past year, the directors refer the stockholders to the annual report of the Boston, Clinton and Fitchburg Railroad Company, which will show the cause for the falling off in earnings, which makes the deficiency.

Voted, that the annual report of the directors be sent to each stockholder ten days prior to the annual meeting.

The meeting also voted to authorize the directors to appoint an Auditing Committee.

The Board of Directors for the ensuing year were then voted for with the following result: E. P. Carpenter, Harrison Bliss, H. A. Blood, George A. Torrey, S. H. Howe, Lyman Nichols, P. B. Brigham, Ralph Warner, Daniel Wetherbee, James W. Clark, William F. Ellis, Edward Hastings, S. B. Rogers. The meeting then adjourned.

☞ The earnings of the Indianapolis, Cincinnati and Lafayette Railroad for December 1874, were $154,999, the expenses $100,129, and the net earnings $54,870 08. In December, 1873, the earnings were $141,274, the expenses $103,636, and the net earnings $37,638—showing an increase in earnings of $13,735, a decrease in expenses of $3,507, and an increase in net earnings of $16,732 22. For the six months ending December 31, 1874, the earnings were $951,801, the expenses $551,303, and the net earnings $400,498, against $348,321 for the six months ending December 31, 1873—an increase of $52,177.

Philadelphia, Wilmington and Baltimore Railroad.

The earnings of this road for the years ending October 31, 1873 and 1874, were as follows:

	1873.	1874.
From passengers	$1,728,957 71	$1,747,053 16
" freight and exp.	1,225,801 15	1,111,108 67
" rents	7,733 22	10,660 48
" mails	39,891 24	46,947 85
" miscellaneous	72,499 49	60,378 33
	$3,074,882 81	$2,876,148 44
Add earnings of New Castle and Frenchtown Railroad	84,237 91	70,094 24
Total of both roads	$3,159,120 72	$2,946,242 68
Expenses:		
Repairs of road	$203,682 75	$349,065 24
" bridges	26,276 33	42,420 97
" locomotives	128,827 50	75,879 73

Net earnings		$1,043,831 06
Add balance to credit of revenue, November 1, 1873		518,052 24
Total		$1,561,883 30
From which deduct—		
Dividend Jan. 8, 1874, four per cent	$460,310 00	
Dividend July 8, 1874, four per cent	460,910 00	
		921,220 00
		$640,663 30
Deduct for amount taken to renewal fund		100,000 00
Leaving balance to credit of revenue October 31, 1874		$540,663 30

The gross receipts, compared with those of 1873, show a decrease of $217,627 37, or about 7 per cent, while the operating expenses were less than those of 1873 by the sum of $265,263 91, or about 13 per cent, including taxes in both cases; but the taxes for 1874 were heavier than those of 1873 by $4,146 50, or about 5 per cent. The report says:

The decrease of receipts was due solely to diminished freight, express and miscellaneous business, as the passenger receipts were in excess of those of 1873 by $16,208 73, or about 1 per cent, and we were paid for mail service $7,193 91 or about 17 per cent in excess of the mail pay of 1873.

The decrease in freight receipts was not so much due to diminished tonnage moved as to the low rates at which we moved it, and the whole diminution of tonnage was in those classes of freight which demand more than average speed and care, and consequently pay the higher rates. The movement of peaches was about one half as large only as it was in 1873, and less than one-fourth of that of 1872. And, as a consequence of the mildness of the winter of 1873-'74, uninterrupted water communication was maintained between Philadelphia, Wilmington and Baltimore, and we were not called upon to transport any freight on account of any inability of canal and river lines to take it.

Our annual reports for 1872 and 1873, show that unusual expenditures were foreseen for 1874, such as the rebuilding of portions of the Susquehanna bridge, and other work not fairly chargeable to the operating expenses of any one year, and that there was set aside from the net earnings of those two years a renewal fund of $225,000 00 to meet such outlay, and to pay for some obligations incurred during those years, but not susceptible of liquidation at the time. In accordance with this purpose, the following items were paid in 1874, and charged to the renewal fund:

Cost of rebuilding four spans, or 1000 feet, of Susquehanna Bridge, in iron	$112,500 00
Cost of rebuilding a portion of bridge at N. Branch of Christiana, in iron.	8,534 22
Cost of repairing in part the damage caused by freshet in 1873 at Canal Bridge	14,962 67
Paid in final settlement of damages done at Edgemoor in 1872	13,293 47
Paid in defence of Lynam suits of 1873, decided in this company's favor in 1874	5,612 80
Paid gratuities, damages and costs, incurred in 1872 and 1873	5,988 21
Paid on account of new bridge at S. Chester to separate R.R. grade from city grade	3,030 70
Total paid in 1874 and charged to renewal fund	$163,922 07

The nine remaining spans of wood of the Susquehanna Bridge will need renewal in iron before 1878, and, as the present is a favorable time to contract for iron work, we have caused to be made contracts for eight iron spans, to be erected at short notice, at option of this company, at any time before 1878. The bridges at Stanton and at Trainer's Station are now being rebuilt in iron, and the grade of the railroad is being separated from that of the town road at the Hornetown road. To meet the cost of such outlay, it was deemed expedient to set aside $100,000 from the net earnings of 1874 to the credit of the renewal fund, which therefore now amounts to $161,077 93.

During the year an unusual quantity of iron rails became unfit for use, and were replaced by steel rails, to the extent of 2100 tons, or over twenty-three miles of single track, upon the main stem and branches. The outlay for steel rails amounted to about $242,000, which amount, less proceeds of sale of old iron rails, was charged to repairs of road for 1874. There was expended also for additional equipment, and charged to operating expenses of 1874, the sum of $28,970 03. And in this way it is believed that full compensation has been made for such depreciation of portions of your property, as from its nature could not be compensated for at the time in kind.

In our last annual report we informed the stockholders in respect to the very insufficient pay for mail service received by this company. During the past year, persistent exertions were made by your executive officers to obtain reason-

able compensation from the Post Office Department. The probability of success in this direction seemed at one time so remote that it was decided to let to parties other than the Post Office Department all of our post office cars, to be used for the transportation of express matter and fast freight, for either of which uses we should have received for the car service at least double the amount paid us by Post Office Department. But at this juncture, changes took place in the administration of the Post Office Department, and it was deemed due to the Post Master General elect, to await his assumption of the duties of his office and his action in regard to our claims. The result, we think, thus far justifies this course. It has been already stated that our mail receipts in 1874 exceeded those of 1873 by about 17 per cent, and we may add that with the assent of the Post Master General, the weight of mails moved in November and December, 1874, and in January, 1875, is to be used as a basis of adjustment of our mail pay, to take effect from the first of July last. We are moreover encouraged to hope that our position in relation to mail service will, after so many years of faithful work performed for the Post Office Department at a large loss to this company, be improved by a revision of the postal laws during the present session of Congress—a measure recommended by the Post Master General in his recent annual report, which recommendation was approved by the president in his last message.

In conclusion, your directors are of opinion that your property is in a sound condition, and that even if the general depression of business should continue, and should cause a still further diminution of the gross receipts of the company, all such diminution to any extent now probable will be met by a corresponding reduction of the operating expenses of your road during the ensuing fiscal year.

The company have 72 locomotives. The number of miles run by engines over the Philadelphia, Wilmington and Baltimore Railroad, including service on Port Deposit Branch was 1,370,913. Miles run on Delaware Division, between Wilmington and Delmar, 338,458.

The car equipment consists of: 18 twelve wheel passenger, 1 twelve wheel baggage car, 1 twelve wheel postal car; and 4 twelve wheel smoking and baggage cars; 77 eight wheel passenger, 18 baggage, 4 chair, 11 smoking and baggage, 7 baggage and mail, 14 express, 1 postal, 3 milk, 1 pay, 17 house, 73 stock, 346 platform, 94 dump, 80 truck, 50 lime, and 13 tool, construction, etc., cars.

President.—ISAAC HINCKLEY.

Vice President.—ENOCH PRATT.

Directors.—Isaac Hinckley, Samuel M. Felton, William Sellers, Samuel Welsh, Jesse Lane, Joseph Bringhurst, Samuel Harlan, Jr., Thomas Kelso, Enoch Pratt, Thomas Donaldson, Thomas Whitridge, Samuel M. Shoemaker, Jacob Tome, Nathaniel Thayer, Charles P. Bowditch.

Secretary and Treasurer.—ALFRED HORNER.

Atchison, Topeka and Santa Fe Railroad.

The Treasurer of this company has issued the following circular to the stock and bondholders:

The Directors propose to publish a complete report of the condition of your property as soon as accounts for the fiscal year ending December 31, 1874, can be properly audited and reliable estimates be made of the probable earnings and expenses of the road for the present year.

In the meantime, in answer to many letters and personal inquiries from parties in interest, we take pleasure in informing you that the floating debt is paid, excepting the current liabilities in Kansas, to meet which we have ample cash assets in hand. Also, that the funding scheme has been already so far successful, that only about seven per cent of the coupons remain outstanding; and this amount is being daily reduced, as it becomes apparent to the holders that it is clearly for their interest to fund their coupons.

It is well known that the past year has been unfavorable to the agricultural interest in many parts of the West, including Kansas. Notwithstanding this fact, our net earnings and our cash receipts from the sales of land have equaled our estimates made at the commencement of the year.

The future prospects of the company are favorable; and from all the information in our possession, we are encouraged to believe that the company will hereafter meet its coupons at their maturity.

The directors are now engaged in negotiations, by which we hope to secure the building of a road from Granada to Pueblo, in Colorado.

Pueblo is situated on the Arkansas river, at the foot of the Rocky Mountains, and is destined at no distant day to become the most important city of Southern Colorado. It lies in the direct route to the San Juan district, which is now attracting so much attention in financial circles from the richness of its gold and silver mines.

The importance to our property of this extension of our line to the Rocky Mountains, where we can secure the increasing trade of Southern Colorado and New Mexico, can hardly be overestimated.

It will place us within easy reach of abundant supplies of coal and lumber; open a market in the mining districts for the agricultural products of the Arkansas valley; and place our line in a favorable position to secure the mountain travel, which is yearly increasing, as the climate and scenery are becoming known, and the facilities for travel are improved.

☞ The postal returns during the month of January show that the substitution of prepayment of newspaper postage is very far from increasing the revenue from that source, as had been supposed. The receipts during the month of January for stamps used in the large Northern cities are far below the estimates of those who advocated their use. The Post Office revenue would have been much greater had the postage on newspapers been paid by the subscribers who received them, instead of the publishers who sent them.

☞ An act has been introduced into the Legislature of New Jersey supplementary to the charter of the West Jersey Railroad Company, repealing that part of the charter requiring a majority of the stockholders to be residents of the State.

☞ The earnings of the Central Pacific Railroad in January, 1875, were $890,000, against $848,558 in January, 1874, and $895,642 in January, 1873.

☞ The earnings of the Delaware Railroad for the year 1874, were $435,968 79, and the expenditures, including dividends, were $430,351 56, leaving a surplus of earnings of $5,617 13.

☞ The building of a suspension bridge across the Ohio river at Liverpool, Columbiana county, Ohio, is proposed.

Established 25 years. Orders and inquiries by mail promptly answered.

Boston, Clinton and Fitchburg Railroad Co.

The gross earnings of this company for the fiscal year ending September 30, 1874, were $665,640 43; of this amount $26,861 12 was received from express, mails and rents; $395,149 88 from freights, and $243,629 93 from passengers. Total freight and passengers $638,779 31; of this amount $194,783 88 was earned on Mansfield and Framingham division, against $186,180 64 for 1873, and $93,006 46 on Framingham and Lowell, against $110,082 89 for 1873, leaving $350,988 97 as the earnings of the Boston, Clinton and Fitchburg Railroad proper. The report says:

The earnings of the Framingham and Lowell Railroad have decreased $17,076 43 during the past year, a loss larger than would be expected to occur on that portion of our line, when the earnings of our whole line decreased only $11,798 94. Some portion of this decrease on the Framingham and Lowell Railroad can be attributed to the general depression of business which has affected all railroads but more particularly it has been caused by the building of the Nashua, Acton and Boston Railroad which connects with the Framingham and Lowell Railroad at North Acton. When this road was completed in the summer of 1873, it was found to be expedient for this company to make its through line via that road on all business to and from Concord, Northern, and Boston, Concord and Montreal Railroads, although by so doing the Framingham and Lowell Railroad, as by the terms of the lease, the division is on a pro rata or mileage basis, would not receive so much for their proportion on said business as it would if it was done via Lowell, as in that case, it would pass over the whole length of its road, but when the line becomes fully established, the Nashua, Acton and Boston Railroad connection will be far more valuable than the route via Lowell, and will bring to the Framingham and Lowell railroad much additional business which will much more than compensate for the loss of the mileage of the Framingham and Lowell Railroad.

The Lowell and Andover Railroad has been completed and leased to the Boston and Maine Railroad, and was opened for business in December, 1874. This road makes direct connections with the Framingham and Lowell Railroad at Lowell, and by this route we are able to make more favorable arrangements than heretofore, for doing Lawrence and Eastern business, and via this line the distance between Portland and Providence and Southeastern Massachusetts is twenty-four miles shorter than any other route. This is a very important and valuable connection to the Framingham and Lowell Railroad and our other roads, and the new business which we shall receive will add largely to our income, although it is very clear that the lease of the Framingham and Lowell has not as yet proved to be remunerative to the Boston, Clinton and Fitchburg Railroad. We can fully assure you that with the new connections we have mentioned, the large amount of additional business which will come from those sources, the Framingham and Lowell Railroad revenue must increase very largely, and be profitable to both its stockholders and the lessors. It will be observed that whereas the gross earnings, owing to the general depression of business have decreased $11,798 94, we have been able to operate the road so as to reduce the running expenses $34,071 36. In making this reduction of expenses we have not neglected our rolling stock, road bed or track, all of which are in excellent condition, having been very much improved during the past year, and by an examination of the Treasurer's statement of earnings, and expenditures, it will be seen that our net earnings, after paying operating expenses, are $219,767 24, deducting amount paid for dividend on guaranteed stock, interest and rentals of Mansfield and Framingham and Framingham and Lowell roads, we place to surplus account the sum of $25,862 53.

There has been expended during the last year $142,823 75, which has been charged to the capital account, as follows:

Station Building at Camp Ground, South Framingham	$3,300 00
Passenger cars	8,717 27
New coal cars	103,785 53
Bond discount	27,020 95
	$142,823 75

Since the last report the steamships City of Fitchburg and City of New Bedford have been placed upon the line between New Bedford and New York, making daily trips since the first of last July, and our business in connection with this line has been quite satisfactory, and bids fair to increase during the coming season. On the second day of February, 1874, the Taunton Branch Railroad became consolidated with and a part of the New Bedford Railroad, and the Taunton Branch Railroad Corporation ceased to exist as a separate company, the road being operated under the lease hereto annexed. These combinations have been very valuable to this corporation, as under the terms of this lease the entire property comprising the Taunton Branch and New Bedford Railroad, since controlled by this corporation, has met all the requirements of the lease, besides leaving $28,083 17, which inures to the benefit of this company. In conclusion we are happy to state that the time has arrived when your company takes its place in the list of dividend paying corporations, and the Directors have accordingly declared a dividend of three dollars per share, payable the first day of January, 1875.

Mansfield and Framingham Railroad.

The annual meeting of the stockholders of this company was held at Framingham on the 3d inst., for the purpose of hearing the annual report of the Directors, to elect a Board of Directors for the ensuing year, and to transact any other business which may legally come before it.

The meeting was called to order by H. A. Blood, Esq., Vice President of the Company. The records of the last meeting were read by Hosea Hyde, Clerk, after which the Directors' report was read as follows:

REPORT OF THE DIRECTORS.

Earnings		$49,638 12
Taxes, State and Local	$739 35	
Interest due and paid	40 297 71	
Office rents, stamps, salaries, stationery and incidentals	1,013 80	42,050 86
Gain during the year		$7,587 26
Surplus at commencement of year		887 78
Surplus		$8,475 04

The total net earnings each year since 1870 have been as follows: 1870, $11,125 01; for 1871, $27,299; for 1872, $39,903 21; for 1873, $47,345,-62; for 1874, $49,688 12.

TRIAL BALANCE.

Showing the financial standing of the corporation on the 30th day of September, 1874:

Construction	$844,891 32
Telegraph Line	2,400 00
Tank at Mansfield	3,555 98
Office Furniture	127 50
Sinking Fund	10,000 00
Cash	474 84
	$861,449 64
Capital Stock	$301,580 00
Mortgage Bonds due 1889	300,000 00
Coupon Notes due 1881	170,000 00
Sundry Debts	81,394 60
Surplus	8,475 04
	$861,449 64

We think you have a very valuable railroad property, and made more so by the consolidation of the line to New Bedford, the extension of the New Bedford Railroad to tide water, the establishment of a line of steamboats daily between New Bedford and New York, the erection of the large coal receiving pockets at New Bedford, and the completion of the road from South Framingham to Lowell, and from West Concord to Nashua, and from Lowell to Lawrence, the opening of the Hoosac Tunnel, all of which has been accomplished since the opening of your road for business, in 1870. No road in the Commonwealth can show a record of increase of business which will equal or compare with your road in the first four years of its operation. We do not feel it will be necessary to further increase your debt for purposes of construction, until it shall become necessary to build a second or double track, at which time additional stock may be issued and sold at par or a premium, to meet such expenditure.

The report of the Directors was accepted and placed on file. The following gentlemen were then elected directors for the ensuing year: E. P. Carpenter, H. A. Blood, George A. Torrey, Otis Cary, Lyman Nichols, A. A. Folsom, H. N. Bigelow, Jonathan Holbrook, J. Henry Elliott, and Andrew G. Pierce.

Southern Pacific Railroad.

The San Francisco Real Estate Circular says that the vigorous prosecution of the Bay Shore Line of this work will soon be undertaken. The surveys, maps and estimates were completed last fall, the line of route determined upon, and but for the lack of funds the construction would have been well under way before this time. Arrangements are now about concluded for the sale of sufficient bonds of that road to connect the Townsend street depot with the San Bruno station, via the shore line, a distance of about ten miles, as well as to close the gap between the head of the Salinas valley and Visalia in the San Joaquin. Both these gaps are expected to be closed within eighteen months, when the line will be continuous from San Francisco to Tehatchepa, via Salinas, with but a single hill on the entire line, that at the head of the Salinas. After surveying every possible route along the shore, the following line has been adopted, and will be the one on which the road will be constructed: From the corner of Fourth and Townsend streets, along the 200 foot right of way granted by the State, and situated between Illinois and Kentucky streets, as far as First avenue, which is the north boundary of the Butchers' grant. There the route leaves the direct line, and, with a small curve, proceeds to the intersection of Fourteenth avenue and Railroad avenue. At this point a tunnel 2100 feet long extends in a direct line to the south side of Twenty first avenue, midway between L and M streets. Thence the road runs above the ground direct to Thirty-sixth avenue, midway between K and L streets, where it passes through another tunnel 2700 feet in length, having its southern outlet in Visitacion Valley, on the easterly side of the San Bruno road, at a point 900 feet north of the Silk Factory. From the mouth of this tunnel the line runs with a long curve across the shoal water of Visitacion and Guadalupe bays, cutting off about 300 feet of Visitacion and San Bruno points. From the latter it runs in an almost straight line to its place of intersection with the present S. P. line at a point about midway between San Bruno and Millbrae stations. This will be a very important movement for all the lands lying along its route, and will doubtless, when begun, turn the attention of real estate operators in that direction.

☞ The Western Union Telegraph Co. has effected, through Messrs. Morton, Bliss & Co., of this city, a loan of $5,000,000. This loan is for the purpose of paying of $4,500,000 of obligations which will become due in November next.

The Michigan Copper Production.

The approximate amount of ingot copper produced in Michigan for the year 1874, was 17,383 tons, of an estimated value of $7,996,180, the average price of ingot copper for the year being twenty five cents per pound. There have been produced, from 1845 to the present time, 206,761 tons copper (mineral), and 167,863 tons ingots, of the estimated value of $92,500,000, during which time there have been 116 copper mining companies started, which have levied assessments amounting to $19,729,700. Eleven of the above companies have declared dividends during the above time amounting to $15,660,000, of which sum the Calumet and Hecla have $7,850,000, or just one half the total amount returned in the shape of dividends. As the latter sum has been paid as dividends upon an invested capital of $800,000, the question as to whether copper mining pays is easily answered.

☞ The New York Elevated Railroad has issued its annual report. The trains run every thirty-five minutes, and the average daily receipts for the past year have been $265, or $82,945 for the 313 running days of the year. The expenditures have been $55,000, leaving $27,445 net earnings. The liabilities of the road are $950,000, and the proposed improvement will cost $500,000. The report estimates that the improvements would increase receipts to $386,900, and that with expenditures increased to $154,760, the net earnings would be $232,140.

☞ The Painesville, Canton and Bridgeport Narrow Gauge Railroad Company, with a capital stock of one million dollars, filed a certificate of incorporation with the Secretary of State of Ohio on the 12th inst. The route is from Painesville through Lake, Geauga, Portage, Stark, Carroll, Harrison and Belmont counties, to Bridgeport. The corporators are A. Waddell, H. Beidlar, Stanton Weaver, Daniel Eckley and E. R. Eckley.

☞ The Lancaster (Mass.) Railroad Company now in bankruptcy, has an indebtedness of nearly $70,000, it is reported, and about $20,000 will be needed to put the road in good running order. The directors chosen are: George A. Parker, Jacob Fisher, S. H. Howe, F. W. Warren, Charles H. Water, W. E. Faulkner, Amory Maynard, F. D. Brigham, Peter B. Brigham.

☞ The Eight per cent Bonds of the State of Louisiana, issued in aid of the branch from Vermillionville to Shreveport of the New Orleans, Mobile and Texas Railroad, under the act of April 20, 1871, have been declared invalid by a decision of the Superior Court in that State.

☞ A memorial has passed the Legislature of Arizona, asking Congress to aid in the construction of a railroad from a point west of Guaymas and Tucson, to intersect the boundary; thence northward, through Arizona, to connect with the Utah Central.

☞ S. J. Anderson has been re-elected President, W. H. Anderson Treasurer, and Charles H. Foye Clerk of the Portland and Ogdensburg Railroad Company.

☞ A. O. Tinstman has been elected President, and H. C. Frick Secretary and Treasurer of the Mt. Pleasant and Broadford (Penn.) R. R. Co.

The Bechtelsville Furnace.

Messrs. Lee and Wren, of Mahanoy City, the contractors for the building of the new blast furnace at Bechtelsville, Washington township, Berks county, which was commenced last September, are fast bringing the structure to completion. The cast house is under roof, and the stock house will be finished in a week. The furnance will be ready to go into blast about July next. It will have a sixteen feet bosh with a stack fifty-six feet high. The engine, which will be of 400 horse power, and all the machinery, castings, &c., necessary will be furnished by Messrs. Lee & Wren, they being sole contractors for the entire work. The cost of the furnace when ready to go into operation, will be about $150,000. Mr. Eli S. Bechtel is president, Wm. H. Berlin, secretary, and David Clemmer, treasurer of the company. The entire work is being done under the superintendence of Mr. Thomas Wren, of Pottsville, one of the oldest furnace builders in the country.—*Reading Eagle.*

The Value of the Franc.

The long pending case in the United States Supreme Court to decide the value of the French franc in the collection of customs has at length been decided, and decided in favor of the government and against the New York merchants. The latter, consequently, lose about two million francs in drawback to which they would have been entitled if the decision had been different. According to the new decision the French franc, compared with United States coin, is worth nineteen cents three mills, as ascertained by the Superintendent of the Mint and published by the Secretary of the Treasurer. This is the value originally contended for by the government.

☞ A company has been organized to build a narrow gauge road from St. Cloud, on the Upper Mississippi, to St. Peter, on the Minnesota River. The corporators are residents of St. Cloud, Litchfield, Hutchinson, Henderson and St. Peter, and promise to commence the construction in May next. The length of the proposed road is 96 miles, and the capital stock $800,000.

☞ The following named gentlemen have been elected directors of the Sixth Avenue Railroad Company for the ensuing year: Richard Mortimer, G. W. Burnham, Frederic De Peyster, Jonathan Thorne, T. R. Butler, Waldo Hutchins, William R. Stewart, Abram R. Van Nest, Edward Minturn. Robert T. Woodward, Henry Demarest, Josiah Jex, and Stephen Ray.

☞ San Francisco Chamber of Commerce has adopted resolutions favoring the extension of the Southern Pacific Railroad until it meets the Texas and Pacific from the East, as is now sought to be done by its managers through Congressional enactment.

☞ The gross receipts of the Athol and Enfield Railroad for the year 1874, were $86,837, while the expenses were $57,491, leaving $29,346 of net receipts; $70,714 is represented to have been paid for interest, or $41,368, more than the net receipts.

☞ The gross receipts of the Wilmington and Reading Railroad from every source for the year ending October 31, 1874, were $193,825, and the cost of operating alone amounted to $186,018, a difference of $7,807.

☞ J. K. Moorhead has been elected President, and W. Bakewell Secretary and Treasurer of the Monongahela Navigation Co.

A Foreign Financial Plan
AMERICANIZED.

Ten Dollar Bonds.

POPULAR LOAN.

The Great Southern Railway Co.

(CONSOLIDATED)

UNDER CONSTRUCTION IN

GEORGIA & FLORIDA,

OFFER FOR SALE ITS

First Mortgage Land Grant and Premium Bonds.

Payment Secured by First Lien on 600 Miles of Railway, Equipment, Franchises, Steamers,

and

6,400,000 Acres

of selected Yellow Pine, Cedar, Live Oak, Cotton, Sugar, and other valuable Agricultural Lands. Also a Sinking Fund from Earnings of the Road.

Bonds Redeemed, with Premium, Six times in each year, beginning January, 1875.

Every Bond, when Redeemed, must receive a Premium from $1.00 to $50,000, besides the Original cost of the Bond.

The Company will receive the Bonds at par in payment for Land and for transportation of passengers and freight over its line.

The Great Southern Railway Company is incorporated by the Legislatures of Georgia and Florida. It is designed to connect the Railway system of the United States with Cuba and the other West India Islands, Southern Mexico, and Central America, the Panama Railway and South America. It is a direct, immediate, *and the only possible railway line*, stretching four hundred miles South of any other railroad, *between the temperate zone and the tropics of America*, between 50,000,000 people in the United States and Canada, and 40,000,000 in the West Indies, Central and South America.

It will reduce the water transportation between the Railroad system of the United States and Cuba **to a run of only Five Hours by Steamship,** *and to Southern Mexico, Central America and South America it will shorten the line* **Sixteen Hundred Miles** *over the route now generally traversed.*

In a Political and Military point of view, the importance of this line to the United States can hardly be overestimated.

In the transportation of **U. S. Mails, Express and Fast Freights, Military Stores and Supplies, Sea Island Cotton, Tropical Fruits, Market Gardening,** &c., it will do a larger business for the length of its line than any railway in the United States.

It will be a Commercial and Political bond of peace and amity between the people of North and South America.

HON. THOMAS W. OSBORN, *President.*
JAMES W. JOHNSON, *Treasurer.*
WM. F. WHEELER, *Secretary.*

The National Banks.

STATEMENT OF RESOURCES AND LIABILITIES UP TO THE CLOSE OF THE YEAR.

The following abstract of reports to the Controller of the Currency, showing the condition of the National Banks in the United States at the close of business on the 31st of December, with the principal items therein, has just been completed:

RESOURCES.

Loans and discounts	$955,861,397
United States bonds	412,980,500
Due from Redeeming and Reserve Agents	80,488,831
Due from banks	59,735,303
Checks and other cash items	14,026,115
Fractional currency	2,293,182
Specie	22,436,761
Legal tender notes	83,751,791
United States certificates of deposit for legal tender notes	133,523,000
Five per cent. redemption fund with United States Treasurer	16,935,063
Due from United States Treasurer other than five per cent. redemption fund	4,108,020

LIABILITIES.

Capital	495 802,481
Surplus Fund	130,485,641
Undivided profits	51,477,629
Bank Notes outstanding	332,043,937
Dividends unpaid	6,088 845
Individual deposits	682,855,066
United States deposits	7,492,307
Deposits of U. S. disbursing officers	3 579,722
Due to National Banks	129,190,276
Due to State Banks and bankers	51,627,997
Notes and bills re discounted	6,865,652
Bills payable	5,898,900
Aggregate liabilities	1,902,408,455

Number of Banks, 2,027.

London Coal Statistics.

The Total Imports by Railway, Canal, and Sea for the past four years were thus:—

	Railway. Tons.	Sea. Tons.	Total. Tons.
1874	4,695,969	2,727.719	7,423,488
1873	5,158,609	2,665,680	7 824,289
1872	5,007,505	2,548,918	7,556.422
1871	4,455,756	2,762,712	7.218,468
1870	3,765,391	2,993,710	6,759,101

so that the Total Imports from all sources show for 1874 3, 400,801 tons, or 5 per cent. decrease; 1873-2, 267,867 tons increase; 1872-1, 837,954 tons increase; 1871-70, 459,367 tons increase; and 1874-70, 664,387 tons, or 9¼ per cent. increase, making the average increase for each of the four years about 2¼ per cent.

The Total Exports for the year were 1,736,960 tons; for 1873, 1,720,343 tons; 1872, 1,655,733 tons; 1871, 1,401,064 tons; and 1870, 1,179,430 tons. The respective increases were, 1874 3, 16,617 tons, 1873 2, 64,610 tons; 1872 1, 254,669 tons; 1871-70, 221,634 tons; and 1874 70, 557,530 tons. The percentage of increase was, for 1874 3, say 1 per cent.; and for 1874 70, 47¼ per cent. Average for the four years, about 12 per cent. increase.

	Tons.
The net Decrease in Imports is	400,801
The net Increase in Exports is	16,617
Showing a net Decrease in this year's trade within the London district of	417,418

The Coal taken up in London during the past year appears to have amounted to 5,686,528 tons.

In conclusion, we would observe that the moral "pointed" by the foregoing statistics appears to be that many causes are now working together to give the decrease in the consumption of Coal in London a permanent character. Greater economy, on all sides, would still further heighten this remarkable feature.—*Herapath.*

Patent Railroad Ticket.

The Baltimore *Sun* says that a patent Railroad ticket has been placed on sale by the Baltimore and Ohio Railroad Company between Baltimore and Washington, and vice versa, which is a perfect check on the trade of ticket scalping. The merit of the ticket is that it cannot be used twice. It is an ordinary coupon form, the contract portion merely showing the point of departure. The portion retained by the passenger is an auditor's check only, which shows destination from point of departure. Either coupon detached when presented is worthless. It affords to the conductor a much desired protection, and he only renders himself liable to suspicion when he fails to obey positive instructions to detach his portion on his first round, and takes up the auditor's check on final round. It is the invention of Mr. Wm. Thelin, auditor of the Baltimore and Ohio Railroad Company, and no doubt will come into general use, as the same principle can be applied to all coupon tickets of connecting lines, lay over checks, and round trip tickets.

☞ The Baldwin Locomotive Works, Philadelphia, are executing an order from Brazil for sixteen first-class locomotives, and Western South America has ordered six that are now under way.

IT WILL PAY

You to invest a few dollars in tickets in Public Library of Kentucky Concert and Drawing of

27th FEBRUARY.

POSITIVELY NO POSTPONEMENT.

A drawing on 27th, Or Money Refunded.

Whole Tickets $50. Halves $25. Tenth, or each Coupon $5. Eleven Whole Tickets, $500.

THOS. E. BRAMLETTE, Agent and Manager, Louisville, Ky., or THOS. H. HAYS & CO., 609 Broadway, New York.

PUBLIC LIBRARY OF KENTUCKY.

Death of Gov. Bramlette—Action of the Trustees—A Successor appointed—No More Postponements—Drawing Certain February 27th.

At a meeting of the Trustees of the Public Library of Kentucky, Jan. 16, 1875, it was resolved that C. M. Briggs, Esq., who under the late Hon. Thos. E. Bramlette was the real business manager of the gift concerts already given in aid of the Public Library of Kentucky, be and he is hereby authorized to take the place made vacant by the death of said Bramlette, in the management of the affairs of the fifth and last gift concert, and that the drawing announced for February 27, 1875, shall positively and unequivocally take place on that day without any further postponement or delay on any account whatever.

R. T. DURRETT, Pres.

JOHN S. CAIN, Secretary.

Hereafter all communications relating to the 5th Concert should be addressed to the undersigned, and I pledge myself that the drawing shall come off February 27th or that every dollar paid for tickets shall be returned.

C. M. BRIGGS, Agent and Manager, Room 4, Public Library Building, Louisville, Ky., or THOS. H. HAYS & CO., 609 Broadway, N.Y.

American Railroad Journal.

Saturday, February 13, 1875.

Financial and Commercial Affairs.

According to the last weekly statement of the City Banks, the bank reserves had been further materially reduced, during the week. More inquiry has been noted for accommodation, especially on mercantile account, which led to a very liberal expansion of the loan and discount line, yet without causing any material change in the current rates, which on the best commercial credits range from 4@6 per cent per annum. Some increase in the deposits was noted, but was more than offset by reductions in the specie and legal tender items. The speculative demand for aid was fairly active, but the leading borrowers experienced no serious difficulty in providing for their more urgent wants on the basis of 2@3 per cent on call. The loss of specie by the City Banks was in great part represented by the exports of treasure. The Banks are represented as now holding less Gold than at this time in any year since specie payments were formally suspended thirteen years ago. The Sub Treasury gained handsomely in both currency and specie, during the week, the latter through the marked increase in the customs, which exceeded half a million a day, for the first time, in the current year. The City banks last week reduced their reserve of legal tender notes $586,200, and enlarged their deposit item $1,932,000, while further diminishing their specie average $2,018,200. They report an increase of $4,744,900 in the loans and discounts and a decrease of $159,600 in their circulation. The U. S. Sub-Treasury in this city closed the week with a currency balance of $47,672,369, against $46,616,594, the preceding week; and a coin board of $45,646,603, against $45,178,652, on the previous return. The City bank exchanges in currency during the week, were $539,951,440, or a daily average of $89,991,907. The customs revenue of the port, during the week, was $3,016,000. The City banks reported their average of gold last week at $15,162,400, and their greenback average at $57,275,400. Their deposits stood at $238,123,200. The loan item was $291,197,700. The circulation was $23,642,200.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $12,907,000.

The aggregate of the outstanding U. S. currency, of all denominations, Feb. 1, was $427,109,222, The outstanding amount of legal tender notes is 382 millions. The National bank circulation is now $345,015,428.

The U. S. Treasury balances on Tuesday were as follows: Currency, $9,297,952; special deposit of legal tenders for redemption of certificates of deposit, $47,445,000; coin, (including $23,571,300 in coin certificates,) $69,448,519.

The income of the Government, from internal revenues, thus far, in the fiscal year, commencing with July 1, 1874, has been $66,827,904.

Gold has been quite active, again, this week, and the later dealings have indicated increasing firmness and buoyancy in the market, the speculative inquiry having been more animated, stimulated, in good part, by the heavier drain for customs and export, and, in part also, by the tenor of the financial advices from Europe. The extremes of the week have been 113⅞@114⅞, closing on Wednesday at 114⅞ as against 114¾ on Wednesday of the preceding week. The specie outflow last week was $1,867,994. The imports of specie at this port since Jan. 1, have been $146,463 against $178,539 same time last year. The customs demand for Gold last week averaged $502,667 a day. Foreign Exchange has been in moderate demand and quoted less firm, though closing stronger. Bankers' sixty day bills on London closed on Wednesday at $4 85½@$4 86½; sight bills on London at 4 88½@$4 89½ to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $4,382,576, against $6,219,718 same week in 1874.

The import entries of Foreign Merchandise at New York, including dry goods, amount for the past week to $5,926,495.

Government Securities have been in fairly active demand, but varying in price, with the fluctuations in Gold, closing more firmly.

U. S sixes of 1881 closed on Wednesday of this week at 120¼@120½; U. S. Five-Twenties of 1862, at 116⅜@116½; U. S. Five-Twenties of 1864 at 117¾@118; U. S. Five-Twenties of 1865 119⅞@120⅛; U. S. Five-Twenties of 1865 consolidated, 118⅞@119⅛; U. S. Five Twenties of 1867, 119¾@120; U. S. Five-Twenties of 1868, 119⅞@120⅛; U. S. Ten-forties at 117¼@117½; U. S. Fives of 1881, (Funding Loan) 115¼@115½; Six per cent. currency Sixes from 119¾@120.

Below will be found the business card of Messrs. Hatch & Foote, Bankers, No. 12 Wall street; also a statement, supplied by them, giving the prices offered and asked for all descriptions of United States Government securities, up to 3 P. m., Thursday, February 11th. Messrs. H. & F. buy and sell Governments and gold at market rates, execute orders at the Stock Exchange, and allow interest on deposits.

Business at the Stock Exchange on Railway and miscellaneous share list has been fairly active, but prices have been generally irregular, closing more firmly. State and Railway bonds have been in fair request, chiefly on investment account, at about steady rates.

Rather more inquiry has been noted for the leading kinds of domestic produce, especially for Cotton, which has been quoted higher; and Breadstuffs, which have been unsettled, and, at the close, depressed in price. Provisions, Petroleum, Tobacco, Wool and Naval Stores have been less sought after in the local market, and closed in favor of purchasers. The Metal trade has shown more animation, mainly in the line of American Iron, of which sales have been reported of 3,000 tons Lehigh Pig, and 12,500 tons Iron Rails at full previous quotations. Of American Steel Rails 11,000 tons have been disposed of, on p. t. Scotch Pig has been dull and weak. Eglinton Pig Iron quoted from yard at $33 50; Glengarnock, $36; No. 1 American Pig at $27@$28; No. 2 do. at $25@$26 50; Forge, $24@$27; English Rails at $47 50@$50, gold; American Rails at works, $50@$52 50; Old Rails, $30. Wrought Scrap, $28@$35. Ocean freights have been moderately active and quoted steady. Grain, Provisions, Cotton, Petroleum, and Naval Stores offering most freely.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New Bridge over the St. Lawrence.

The Toronto Monetary Times says that the scheme for building a new bridge over the River St. Lawrence via St. Helens Island is about to assume a tangible form. It is stated that the following gentlemen will apply to the Dominion and local legislatures for acts of incorporation, and they will also form a part of a company to carry out the work: Sir Hugh Allan, President of the Northern Colonization Railway Company; P. H. Moore, President of the Montreal and Vermont Junction Railway; A. B. Jewett, representing the Vermont Division of the Portland and Ogdensburg Railway; W. Brigham, President of the Lamoille Valley R. R.; S. J. Anderson, President of the Portland and Ogdensburg R. R.; S. C. Willet, President of the Montreal, Chambly and Sorel R. R.; J. H. Pangman, President of the Laurentian Railway; Hon. John Young, Mayor Bernard, Henry Mulholland, P. S. Murphy, J. B. Beaudry and E. L. De Bellefeuille. The bridge is to be hung between two towers of sufficient height to allow vessels to pass underneath. And will be large enough to afford accommodation for the traffic of all the new railways centering in Montreal, and likewise have carriage and footways.

☞ The Rome, Watertown and Ogdensburg Railroad Company has negotiated $1,000,000 of its first mortgage consolidated bonds through Messrs. J. S. Kennedy & Co., of this City. It is understood that they were taken in London. The sale of these bonds places the Rome, Watertown and Ogdensburg Railroad Company in funds to complete its lines to the Niagara River, where it will connect with the Great Western Railroad of Canada, and the Canada Southern Railroad. It is expected that the extension will be ready for business by October.

☞ Messrs. Kuhn, Loeb & Co., Bankers, No. 31 Nassau street, New York, are offering to careful investors and capitalists a limited amount of the Cincinnati Municipal 7 3-10 per cent bonds. Savings Banks, Insurance Companies and other cautious investors are reminded that the *faith* and *credit* of Cincinnati are pledged for the payment of principal and interest of these bonds.

☞ The American Newspaper Advertising Agency of Geo. P. Rowell & Co., New York, is the only establishment of the kind in the United States which keeps itself persistently before the people *by advertising in newspapers*. They evidently receive their reward, for we have it from a reliable source that advertising orders issued by them for their customers have exceeded three thousand dollars a day since the commencement of the year, *and this is not a very good year for advertising either.*

☞ R. J. Dobbins gives notice to bridge builders and others that he will receive proposals at his office Ledger Building, Philadelphia, (where plans and information will be given) until February 20th, for the "Iron Erection of the main Exhibition Building on Centennial grounds, containing eight million pounds of Iron."

☞ The Grant, Rogers, and Danforth Locomotive Works, in Paterson, New Jersey, have resumed work.

☞ The Taylor Iron Works, at High Bridge, New Jersey, are now running on full time.

The Postal Service.

An official statement, prepared at the Postoffice Department, shows that during the contract term ending June 30th, 1874, the Department paid $2,215,579 for 77,681 miles of postal service once a week each way, equivalent to 8,078,824 miles annual transportation, or a fraction over twenty seven cents per mile, while during the present contract term, commencing July 1st, 1874, the Department has paid only $1,515,628 40 for 82,022 miles once a week each way, equivalent to 8,530,288 miles annual transportation, or a fraction over seventeen cents per mile, showing an increase of 4,341 miles weekly service, equivalent to 456,146 miles annual transportation, and a decrease in annual cost of $699,801 58, a saving of about nine and a half cents per mile, or, in the aggregate, a saving of forty five and sixty four one-hundredths per cent. These reductions are made upon the basis of permanent service for the remainder of the contract term, the straw contractors having failed to carry out their obligations.

Port Dover and Lake Huron Railway.

The annual meeting of the shareholders of this company was held in Woodstock, Canada, on the 12th of January, Mr. Moore, the President, in the chair. The annual report showing the company's operations for the year was submitted and adopted. It appears that most of the contracts are nearly completed, rails will be delivered at Port Dover early in the spring. And the company expect to open the road for traffic about the 18th of September next. This company have purchased the Port Dover Harbor, and expect to make arrangements for doing an extensive coal trade with the cities on the opposite side of the Lake. The President has shown great energy and perseverance in promoting the interests of the company.

☞ From the Annual Report of the Commissioners of Patents it appears that after paying all the expenses of the Patent Office there was a balance on hand on the 1st of January of $865,000. The number of patents granted to citizens of the United States last year was 13,072; to subjects of Great Britain, 352; subjects of France, 74; subjects of other foreign governments, 101. There were 2785 patents granted to New Yorkers; 1644 to Pennsylvanians; 1506 to citizens of Massachusetts; 944 to Illinoisans; 928 to Ohioans; 668 to citizens of Connecticut, and 301 to Californians.

☞ A circular has been issued by the Receiver of the Lake Shore and Tuscarawas Valley Railroad announcing that on and after February 1 the road will be operated under the name of Cleveland, Tuscarawas Valley and Wheeling Railway Company, with its general offices at Cleveland.

☞ Mr. F. H. Kinnicutt has been re-elected President, Mr. T. W. Hammond Clerk and Treasurer, and Mr. Benjamin T. Hammond Assistant Treasurer of the Worcester and Nashua Railroad Company.

☞ The semi-annual dividend of 3½ per cent upon the preferred stock in the Rutland Railroad Company will be paid in scrip at the National Bank of Redemption, Boston.

☞ The distance from Chillicothe, Ohio, to Parkersburg, W. Va., by the new rail route is 97 miles.

Chesapeake and Ohio Railroad.

Some months ago the propositions for funding and settlement had received the assent of a large majority of all classes of Bondholders and Creditors. Valuable time has been lost in waiting for the remainder.

We earnestly recommend all who have not yet funded their coupons, or accepted the propositions for settlement, to come forward and do so at once. *It is clearly for their own interest.*

With the settlement perfected, the following results may be expected:

A large advance in the price of the First Mortgage Bonds; the completion of Western rail connections; the extension to deep water on the Chesapeake Bay; enlarged equipment; renewed activity in the development of the mineral resources along the line; and a rapid increase in the business and efficiency of the road, which would, in a short time, greatly change and improve the whole aspect of its affairs and afford assurance of its ability to ultimately earn the interest on all its debt.

FISK & HATCH.

The Coal Trade.

The Philadelphia *Ledger* says that the entire tonnage reported for the week ending on the 30th ultimo was 134,175, against 224,807 in corresponding week last year, and 1,205,894 for the new year against 1,384,870 to same date in 1874. The bituminous tonnage for the week is 36,766 tons, and for the year 124,687 tons, against 134,882 tons to corresponding date last year. The total of both kinds of coal for the week is 170,941 tons, and for the year 1,330,581 tons, against 1,519,702 tons to same time in 1874, being a decrease of 189,131 tons. The quantity of coal and coke transported over the Pennsylvania Railroad for two weeks was 113,106 tons, and for the year 212,594 tons. Of this aggregate 170,299 tons were coal and 42,295 tons coke. This table embraces all the coal carried over the road, both anthracite and bituminous, east and west. At Port Richmond for the week ending the 6th instant the receipts of coal were none and the shipments 4000 tons, leaving 109,500 tons on hand.

☞ The Lehigh Coal and Navigation Company has, through the agency of E. W. Clarke & Co., of Philadelphia, sold one million of dollars of its 7 per cent consolidated bonds, with the proceeds of which and other means of the company, it is able to pay off its entire floating debt.

☞ The syndicate for refunding the 5-20 six per cent loans of the Government has been enlarged by the addition of J. S. Morgan & Co., of London. It formerly included Messrs. Belmont & Co., Rothschild & Sons and Seligman & Co.

☞ At Salt Lake City there has been incorporated a company to build a narrow gauge railroad from Salt Lake to Ogden, intending to connect with the Utah Western there and the Utah Northern at Ogden—both narrow gauge railroads.

☞ The gross income of the Boston, Barre and Gardner Railroad for the past year was $111,505, the expenses $84,556, and the net income $26,949.

☞ The Utah Southern Railroad is completed to Santaquin.

The Washington and New York Limited Express.

The Washington and New York limited express, which was started last spring with three cars, at present is made up of five palace cars, the full number, and averages ninety passengers daily. Seats are sold one day in advance by diagram, as at places of amusement, and luxurious travelers frequently engage one of the five seat drawing room apartments, for which they pay $50. Passengers by this train pay a considerable advance over the regular rates for the luxuriousness it affords, the fare between Washington and Baltimore being $1 95, or 75 cents additional. This the railroad companies are seeking to have reduced to $1 45, or 25 cents additional, the regular Pullman car tariff. The train from Union depot sometimes makes the trip of forty two miles to Washington in fifty eight minutes, and the time between Washington and New York, two hundred and twenty seven miles, in six hours and forty minutes.

Miramichi Valley Railway.

There can be no doubt but that sooner or later the valley of the Miramichi will have its line of railway connecting with the Intercolonial Railroad at one extremity, and with the New Brunswick Railway at the other. Such a line will be demanded presently to aid in meeting the requirements of summer travel to and from Europe. For the mouth of the Miramichi is well situated to become during a large portion of the year a terminus for an Atlantic Passenger steamship line; and the valley of this river offers a fine route for a short line to connect an advanced port on the seaboard facing Europe with the North American Railway system. Besides a Miramichi Valley line would meet the requirements and develop the resources of a noble tract of country. It is, therefore, sure to be built at no distant day. We are glad to learn that parties deeply interested in the construction of the work are moving in its behalf. We heartily wish them all desirable success in their efforts. They have probably some hard work before them; but then right minded men do not begrudge toil in behalf of sound projects and good causes.—*St. John News.*

United States Rolling Stock Co.

At the annual meeting of the United States Rolling Stock Company held in this city on the 4th inst., Wm. H. Guion presided, and A. Hegewisch acted as Secretary. After the usual introductory proceedings, Mr. Hodgskin, President of the Company, said that he understood that his name was on the ticket for re-election as director and President, and he wished to give his reasons why he would not be enabled to accept re election. When he was elected before it was by the aid of the proxies of Bischoffsheim & Goldschmidt, who are in arrears to the Company for $133,908. Ever since that time he had exerted himself to make an equitable settlement of the matter in dispute on terms favorable to the Rolling Stock Company, but as he had been unsuccessful thus far, a certain number of the stockholders had implied that because he was elected by Bischoffsheim & Goldschmidt, he was caring for their interests and not for those of the Company. He did not care to incur a renewal of these suspicions, and, under the circumstances, preferred not to resume the position of President.

A stockholder offered a resolution that in order to meet the objections raised by Mr. Hodgskin a committee of two be appointed to examine into the circumstances relating to the claim of Messrs. Bischoffsheim & Goldschmidt and to report to the Board with such recommendations as they may deem expedient. Mr. Hodgskin was then induced to withdraw his objections. The balloting for trustees was held and 19,396 shares of stock having been voted upon, Messrs. James B. Hodgskin, Adrian Iselin, William H. Guion, Lawrence Wells, and Parker Handy were unanimously elected trustees for the ensuing year.

The annual report of the Company shows the following points:

INCOME ACCOUNT, 1874.

The income for the year has been as follows:

From rentals	$1,006 474 83
From mileage	18,394 61
From interest	25,210 86
Making a total income for the year of	$1,050,080 30
To which should be added balance of income account, Dec. 31, 1873.	179,543 97
Making a total income of	$1,229,624 27
The charges against income for the year have been	96,887 84
And leaving an apparent credit balance of	$1,132,736 43
Out of the latter there must be provided the usual reserve of five per cent on the capital	250,000 00
Leaving a final balance to credit of income of	$882,736 43

The great difference between the rental earned and the rental collected is shown as follows:

The rentals accrued Dec. 31, 1873 were	$282,026 72
The rentals earned during the year are	1,024,869 44
Total nominal earnings	$1,306,916 16
Total rental collected (including mileage)	204,292 66
To be accounted for	$1,102,623 50
Due by Atlantic and Erie Companies	1,109,589 41

The whole of which amount is involved in litigation.

CAPITAL ACCOUNT.

Assets:	
Construction, total cost of stock	$5,013,475 71
Buildings and materials on hand	12,480 25
Rentals due from lessees	1,165,672 35
Balance due from Bischoffsheim & Goldschmidt	133,908 20
Insurance prepaid	8,211 81
Cash and cash assets	67,056 57
Total assets	$6,400,804 89
Liabilities:	
Share issue	$5,000,000 00
Balance to credit of income	882,736 43
Reserve account	500,000 00
Bills payable	6,000 00
Construction fund	9,958 95
Due lessees (unadjusted)	2,109 51
Total liabilities	$6,400,804 89

The report says: "Among assets, the item of $1,165,672 35, rentals due from lessees, calls for remark. The advisability of transferring a portion of this amount to doubtful debtors or losses and profits will readily suggest itself. But while the result of the pending litigation is doubtful, it has been deemed preferable to allow the account to stand unchanged. The relations of this Company to the Atlantic and Erie Companies, which have led to this litigation, have been fully explained in previous reports. For the same reason no further reference is made to the litigation itself, which is being pushed with vigor. No further progress has been made in the adjustment of the Company's account with Messrs. Bischoffsheim & Goldschmidt. Negotiations looking to a compromise were interrupted by a formal protest from a committee of stockholders, formed in London, advising a representation of over 10,000 shares."

☞ It is announced that a company has been organized for the purpose of constructing a narrow gauge railroad between Washington and Waynesburg, in Pennsylvania, and the people of Washington and Greene counties are said to be much elated at the prospect. The proposed road will open up one of the richest mineral and agricultural sections of Western Pennsylvania.

☞ The gross earnings of the Union Pacific Railroad for December, 1874, were $897,159 13, against $758,882 29 for December, 1873, an increase of $138,626 84. For the year ending December 31, 1874, the gross earnings were $10,559,880 15, against $10,266,103 66 for the year ending December 31, 1873, an increase of $293,776 49.

☞ The Central Railroad Company of New Jersey have purchased the Long Wood Valley Railroad with all its appurtenances, and will push it rapidly to completion.

☞ Petaluma, Cal., having swelled her subscriptions to the Petaluma and San Rafael Railroad to $190,000, engineers have entered upon the preliminary survey of the line.

☞ The sale of the Alabama and Chattanooga Railroad has been postponed by the Special Commissioners until the 8th of March.

OFFICE PENNSYLVANIA RAILROAD CO.,
PHILADELPHIA, January 11, 1875.

NOTICE IS HEREBY GIVEN THAT THE Pennsylvania Railroad Company will pay, upon presentation, before March 6, 1875, their Scrip issued for the dividend December 6, 1873, at par, and accrued interest thereon to date of presentation.

On the 6th of March, 1875, this Scrip will cease to bear interest, and the Company will pay all that may then be outstanding.

Manufactory of the Spencerian Steel Pens, Birmingham, England.

SPENCERIAN

DOUBLE ELASTIC

STEEL PENS

The superiority and excellence of these justly celebrated Pens, are appreciated, as is shown in their constantly increasing sale. They are comprised in 15 numbers, of which *one number* alone has an annual sale of more than

5,000,000.

The *Spencerian Pens* are manufactured of the very best material by the most expert workmen in Europe, and are famous for their elasticity, durability, and evenness of point.

The Spencerian Pens are for Sale by all Dealers.

We make Fifteen Numbers of Pens, differing in flexibility and fineness of point, adapted to every style of writing, as follows:

No. 1. College Pen. *Point Fine; Action Perfect.* This is a great favorite with our leading penmen, is largely used in the Schools and Commercial Colleges throughout the country, and gives better satisfaction than any Pen before the American Public.

No. 2. Counting-House Pen. *Point Fine and Flexible,* well adapted to the use of Correspondents and Accountants.

No. 3. Commercial Pen. *Point Medium.* An Easy Writing Business Pen.

No. 4. Ladies' Extra Pen. *Point Extra Fine and Flexible.* For Delicate Fine Hand Writing this is a very superior Pen.

No. 5. School Pen. *Point Fine, Medium in Flexibility.* For a durable School Pen it has never been equaled.

No. 6. Flourishing Pen. *Point Long, Flexible and Medium in Fineness.* For Off-hand Flourishing.

No. 7. Quill Pen. *Point Medium, Quill Action.* A Smooth, Easy Writing Pen. Its name well represents its qualities.

No. 8. Congress Pen. (New.) *Medium Flexible Point.* A *very* superior Pen for all styles of writing. This Pen undergoes a process that renders it non-corrosive and *three times* more durable than any ordinary steel Pen.

No. 9. Bank Pen. *Point Long and Flexible.* A great favorite with Accountants, Tellers, &c.

No. 10. Custom-House Pen. *Point Medium.* Well adapted to all styles of Bold-hand Writing.

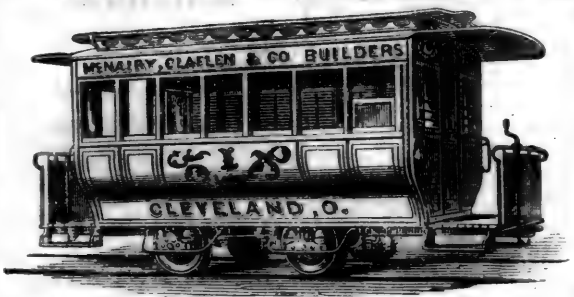
No. 11. University Pen. *Point Medium, very Smooth and Flexible.* The action of this celebrated Pen is very fine.

No. 12. Epistolaire Pen. *Point very Fine and very Flexible.* This is the Finest Pointed Pen made, and for very Delicate Writing, Map and Fine Pen Drawing, it has no equal.

No. 13. Engrossing Pen. *Point Blunt and Smooth.* Particularly adapted to Coarse-hand Writing and Engrossing.

No. 14. Artistic Pen. *Flexible, with extra fine Point.* This Exquisite and Truly Celebrated Pen is the Best Pen extant for Fine Ornamental Writing.

No. 15. The Queen. *Point extra fine.* Admirably adapted to all kinds of Fine Writing.



☞ *Sample Cards containing all the FIFTEEN Numbers, securely enclosed, will be sent by mail on receipt of 25 cents.*

Iron for the Cincinnati Southern Railway.

The Trustees of the Cincinnati Southern Railway have awarded the contract for the iron and steel rails for that road to the Cleveland Rolling Mill Co., A. B. Stone President. It calls for 12,500 tons of iron rails at $52 75 per ton, and 11,000 tons of Bessemer steel rails at $76 75 per ton, delivered at Ludlow, Ky. This will furnish enough iron for the road from Cincinnati to Emory Gap. In referring to the above the Cincinnati Gazette says:

"Steel rails can now be had for less than iron rails would have cost when the surveys were begun. At the present rates the saving in the cost of iron rails for the main track alone will be as much as three quarters of a million. And if steel rails shall be decided upon, the cost will be considerably less than the cost of iron rails would have been, had the trustees plunged in before settling all the conditions, and making thorough surveys. We are having an example of the economy with which a railroad can be built for cash and by square contracting, without any of the outside partnerships with contractors which have so greatly increased the nominal cost of railroads constructed in the usual way."

LANSDELL'S

Patent Portable Railway Syphon.

The Portable is invaluable on a freight or construction train, being used to take water at points where there are no water stations. With it water can be taken from any point within one hundred feet of the track where there is water six inches or more in depth. The valve C is tapped into the locomotive boiler; steam is let on through the hose B, water is drawn through the orifices D D, and forced through the hose E into the tender, filling any tender with warm water in from six to twelve minutes.

Lansdell's Patent Steam Syphons, Double Suction, adopted by the United States Board of Supervisors and approved by the Secretary of the Treasury for use on Steamboats.

For Price and particulars, apply to the General Agents of the **Steam Water Station Company,**

THE WHARTON
Safety Railroad Switch.

BOTH RAILS of the main track absolutely immovable, continuous and unmutilated.

This Switch provides perfect safety for both the main track and the side track, besides removing all switches from the main track as effectually as if there were no sidings on the whole line.

They have been in use on various important Railroads for over two years, and have repeatedly saved passenger trains from destruction, when running at high speed, (from 30 to 45 miles per hour,) at places where by accident the Switch had been left set for the siding.

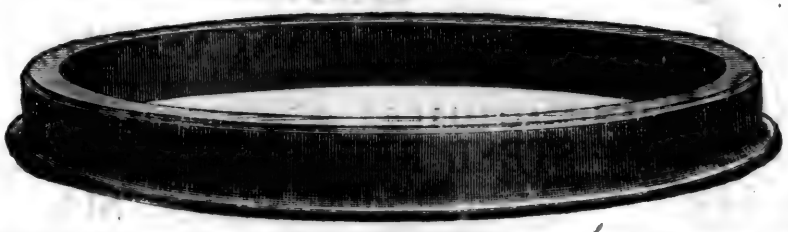
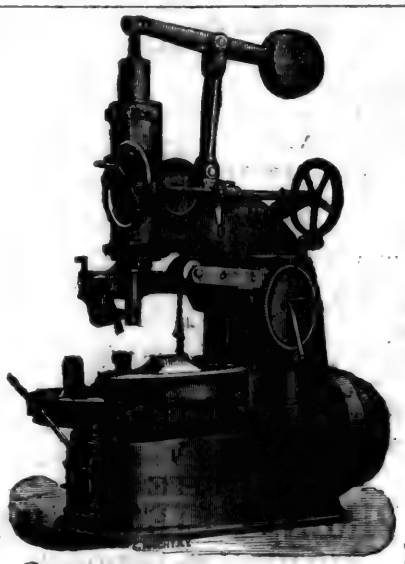
Continental Railway Rolling Stock.

At the late Vienna Exhibition, a variety of railway carriages and wagons were exhibited, all of continental manufacture. One of the reports contained in a bluebook lately opened, states that a large proportion of these vehicles were of the sleeping carriage class, and generally built with iron panels, which makes them in many respects objectionable. Austria was the largest exhibitor of rolling stock, and next to her came Germany. The passenger carriages on the Austrian lines are commodious and lofty, the tires and axles being generally of Bessemer steel. The 3rd class carriages are inferior to some of our newer 3rd class, and the second class, as well as the first, are uncomfortably cushioned and upholstered, and the fittings of the carriages by far too ornate. There is a fourth class on the Austrian lines, covered and with windows, but without seats. It appears that when the principal Austrian lines passed into the hands of the French Company, the four wheeled and four compartmented carriages were substituted for the large six wheeled carriage on the American system, which are now used only for slow trains; but the prejudice against the American bogie carriages on the Austrian and German lines is hardly well grounded. Some novelties in the way of railway wheels were exhibited, such as wheels of solid wrought iron, and chilled cast iron with wrought iron spokes, also wooden disc wheels. Some very excellent improvements in the heating of railway carriages on the Austrian lines were also shown. The use of mineral oil for the lucubration of axles is in general use on the Austrian lines. A novel two storey carriage, such as are in use on some French railways, was exhibited. A German maker exhibited a carriage with an arrangement causing the axle to radiate while traversing curves. A very fine saloon sleeping carriage was exhibited by Belgium, and Italy showed some of the very comfortable carriages used for the Mont Cenis tunnel, lighted by high pressure gas. A mode of lighting carriages by gas prepared from heat was also exhibited in the German department.—*Herepath.*



☞ The U. S. Supreme Court has reaffirmed the principle in the Union Pacific R. R. Co. vs. McShane, that the public lands granted to railways or others are not liable to taxation by the States until the costs of surveying, &c., are paid and a patent has been issued. Otherwise the States would be able to sell for taxes the security which the Government holds for those arrears; also that the costs of selecting and conveying are not within the meaning of the act.

HUDSON RIVER
CEMENT WORKS,
Manufactory at Kingston, N. Y.
(LATELY IN JERSEY CITY, N. J.,)



MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic [Diamond A] Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from our lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, tight, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."

National and Private Forethought.---A Contrast.

It is estimated that fully one-half of the five hundred blast furnaces in the United States are idle, and the last advices show that the British iron masters are disturbed by the prospects of trade. Greater steadiness in the demands for manufactures is much to be desired. Our textile fabric mills are most of them working on reduced time. So of the various foundries, machine shops, car works, builders and contractors. So dull a period is not remembered since 1838. The prostration is, as then, universal. Even our oldest and strongest railroad and mining corporations find it necessary to practice a most rigid economy, and in many cases to reduce the wages of their employees to the very verge of meagre subsistence. It has been the fashion for schoolmen and doctrinaires to say that the hard times were the punishment of over-speculation; and to convey the idea that none were suffering from the depression but the newer and more venturesome operators. It must be admitted that the course of the panic has gone far beyond that stage, and that unless something be done, by some power superior to those now brought to bear, the suffering and distress will reach even the most sheltered classes.

Among the few gleams of hopeful prospect may be mentioned some instances of a wise and timely forethought by municipalities and corporations, altogether surpassing the wisdom which now assumes to care for the national wants. The City of Cincinnati, mindful of the insufficiency of her railroad communication with the South, has consented to tax herself to the extent of $10,000,000 for the building of a railroad across the territory of neighboring States, to enlarge her future commerce. This she does at a time of extreme depression, trusting to her credit and future prosperity to more than make good the outlay. The result is, she is getting the labor and the materials entering into the work at from 50 to 100 per cent. less than they could have been had two years ago—a manifest stroke of economy on her part. In like manner the Philadelphia and Reading Railroad Company is using its credit to have built several thousand coal cars, which at present the traffic does not need; but which can now be had much cheaper than when the coal trade is driven to its full capacity, as it is sure to be sooner or later. The Baltimore and Ohio Railroad Company likewise drawing upon that great reservoir of capital, the London market, has built 230 miles of new line since the panic, all of which will one day prove a lucrative investment; and is now undertaking, by additional outlays, to straighten, lighten, and otherwise perfect her connection with Cincinnati, so as to have a line equal to the Pittsburg, Cincinnati and St. Louis. There can be no doubt that for all such companies as have the funds, or who can find market for their long bonds at moderate rates, the present is an exceptionably favorable time for engaging in works which will be shortly needed. Money borrowed at seven per cent. now, may be made to produce 15 or even 20 per cent. income hereafter.

This brings us to the notice of certain enterprises now asking the attention of Congress, on the ground that they are of too great magnitudes for private means to carry out, at this time, without the assistance of the general government. The Pacific Railroads, North and South, stand in the position of being, to a certain extent, partners with the government in the development of the western half of the Continent, and in adding fresh values to the public lands, which must form the basis of the wealth of a great mining or pastoral region.

What the local government of Cincinnati has done on a much smaller scale, for her own sake, the general government might do on the larger scale for the sake not alone of the territory beyond the Missouri, but also for the sake of all the toiling millions East as well as West. The returns of the nation at large in the latter case would be far greater than those to the single city in the former case, large as these will undoubtedly be. That way, (if Mr. Dawes pleases,) is the readiest way to bring up the revenues; it would start the idle at work; work means wages, and wages consumption, and all lead rapidly to the circulation of money.

We see also that certain parties are seeking for national charters, with subsidies attached, ostensibly on the ground of the need of freight roads. We heartily wish, for the sake of the experiment, that the Continental, the Lake Erie and Omaha, or the Washington, Cincinnati and St. Louis Railroads (the two latter narrow gauge) were built; and we would almost consent to have government extend aid to the amount of half their cost, in order to set the wheels of industry again in motion; and especially to demonstrate, once and forever, that the present competition has carried down rates of freight or produce of the soil,

quite as low as the elements will admit. At the same time we feel that, in assuming to grant charters for railroads within the States, Congress would be assuming a very doubtful constitutional authority; and to do so, in order to provide a competition at the public expense, as against carriers whose roads have been constructed out of private capital, would be taxing one class for the benefit of another class, and also taxing all in order to oppress and ruin vested interests derived from sovereign authority. If the contracts of private persons made with states are liable to be destroyed, or their enjoyment diminished, by action of the federal authorities, without due process of law, and compensation, there is an end to the sanctity and binding force of agreements. In the territories, and through the public domain, however, the right and justice of Congress is clearer. Gentlemen can make no mistake in extending the helping hand to either of the Pacific railroads. It matters not whether the present so called "proposition" of the Union Pacific Company to change the bargain in regard to the repayment of its subsidy bonds and interest, be made in good faith, or whether, as some think, it is a mere stock-jobbing move, the prospects of repayment of both old and new roads to the last dollar is not doubtful. The Treasury will lose nothing by the aid in either case; indirectly it will be a great gainer.

Boston and Maine Railroad.

The following is a comparative statement of the earnings and expenses of this road for the years ending September 30, 1873 and 1874:

Earnings:	1872-'3.	1873-'4.
From passengers	$1,302,190 55	$1,410,530 85

Interest	108,297 05	236,786 95
Telegraph	5,678 93	5,310 86
	$1,727,825 00	$1,794,444 84
Net earnings	$572,268 68	$627,354 43

Compared with the previous year the gross earnings show an increase of $121,705 59; and the operating expenses, including taxes, an increase of $66,619 84—showing an increase in the net income of the present over the previous year of $55,085 75. The president in his report says:

The financial crisis, beginning in September, 1873, and extending over a large portion of the first six months of the present year, has had its influence upon the business of your road, even to the end of the year. It has reduced the amount of business done considerably below our expectations, and of course correspondingly diminished the income of the company, while the expenses have by no means been correspondingly reduced, but in some unexpected quarters increased.

The Legislature of the State of Maine, at the last session thereof, passed an act levying upon certain railroad corporations within that State a tax of one and one half per cent per annum upon the amount of capital invested. The amount thus levied upon this corporation was $26,000, a sum equal to double the whole amount of taxes paid by this company prior to the year 1861. This new demand, with $25,000 claimed by the City of Boston under the Betterment Act, on account of the extension of Washington Street, is, to say the least, an item of expense wholly beyond our estimate for 1874.

If railroad corporations are taxed to such an extent to pay the expenses of the people, the people certainly should not complain if they are made to pay more remunerative rates to the railroads; neither can do without the other, but each is in a measure dependent upon the other.

Notwithstanding the crisis, a calamity which affected injuriously the whole railroad business of the country, your road has maintained its position and made a small gain in both gross receipts and net earnings over the previous year.

As our facilities for doing business have considerably increased during the last year, there is every reason to expect that the business of the coming year will much exceed that of the past.

The passenger and freight business of the past year as compared with that of the year previous, stands as follows:

1873.

Passengers carried	5,008,074
Passengers carried one mile	61,760,456
Tons of freight carried	542,004
Tons of freight carried one mile	20,927,664

1874.

Passengers carried	4,749,785
Passengers carried one mile	75,061,175
Tons of freight carried	552,922
Tons of freight carried one mile	22,880,690

showing a net loss of 258,289 passengers; and for one mile a net gain of 13,300,719; and in freight a gain of 10,918 tons; and for one mile of 1,953,026 tons.

On the fifteenth day of March, 1833, was approved an act, incorporating the Boston and Maine Railroad, and on the fourteenth day of April, 1836, an act incorporating the Eastern Railroad Company. Each corporation at that early day had its eye on the same objective point, namely, the present City of Portland. On the fourteenth day of March, 1837, the Portland, Saco and Portsmouth Railroad Company was incorporated; soon after the construction of this last named road, a contract was entered into between it and the Boston and Maine and Eastern Railroad Companies, whereby the whole business east of Portsmouth, N. H., was to be equally divided between the two last named roads.

Under this contract the business of the respective roads increased and prospered for twenty-three years, when the contract was terminated by the action of the Portland, Saco and Portsmouth Railroad Company. From that moment, the building of the extension of this road to Portland became a necessity; and, as a natural consequence, competition for the business east of the line of the State of New Hampshire, and at the various competing points touched by our respective roads, became active. So active that the managers of these two corporations (the Maine and the Eastern) came together for the purpose of consultation in reference to business at competing points.

After several months' negotiation, a contract was agreed upon, and on the fourth day of April, 1874, was executed by the respective parties thereto, to commence on the first day of May then next ensuing. This contract provides that all the business at competing points, to and from other competing points, named and designated, shall be divided, after paying to the party doing the work a certain per cent of the gross receipts. All competition it was agreed should cease from that date; and the reform of many abuses, the natural offspring of competition, entered largely into the full and perfect consummation of the agreement. Since the first day of May last, the business of the two roads between points of competition has been done with very little cause of complaint from either party. In the division of the business this road, as was anticipated, has been obliged to make monthly payments to the Eastern Railroad Company, varying in amount with the amount of business done.

Your directors believed it for your interest to make this contract, and still believe that so long as the same shall be fairly and honestly carried out by the parties in interest, that a large sum of money can thereby annually be saved to the stockholders of each of those corporations.

On the first day of March, 1864, a contract was entered into between this corporation, the Essex Railroad Company, a corporation then in existence but since defunct, and the Eastern Railroad Company, granting to said Essex and Eastern Railroad Companies permission for ten years to run their locomotives and cars over this road, from the junction in North Andover to North Lawrence, upon the payment of a sum of money per month, which was altogether inadequate for the facilities furnished.

This contract terminated by limitation during the past year. The Eastern Railroad Company were duly notified that after the thirty first day of August, 1874, no locomotive engine of the Eastern Railroad Company would be allowed to enter upon or pass over any of the track of this corporation between those points; but that arrangements for hauling their cars between said points could be made with this company.

The Eastern Railroad Company having signified a desire that their cars should be so hauled, on the first day of September last we commenced this service. We have been unable to agree upon the amount of compensation that should be paid to us for these services, and the railroad commissioners have been called upon under the law to fix and determine the same. On the twenty-fourth day of May last, the rails of this company were joined with those of the Grand Trunk Railway, on Commercial Street, in the City of Portland, and on the next day our passenger trains commenced running to and from the Grand Trunk passenger station. A full and perfect connection, however, was not made with this important system of railways until the twenty-seventh day of September, 1874. On that day the change of the gauge for the whole distance between Detroit and Portland was fully consummated, and our cars, both passenger and freight, were enabled to run from Boston to San Francisco. This connection secured to this corporation much better facilities in the transportation of passengers and freight from points on this road to points on the Grand Trunk, and beyond, than we have enjoyed heretofore. The construction of the Lewiston and Auburn Railroad, five miles in length, connecting with the Grand Trunk Railway, opens to this road the Cities of Lewiston and Auburn, and to the enterprising people of those two cities another route to Boston. Since the twenty-seventh day of September last, our passenger cars have run between Boston and Lewiston without change. Thus are the people of the State of Maine gradually ridding themselves of the monopoly referred to in our last annual report.

A contract has been entered into with the Grand Trunk Road for the use of a portion of their passenger station in Portland by which it is hoped

that this road will be saved the expense of constructing a passenger house at that point for many years to come.

The work of dredging at Mystic River in front of our wharf was fully completed in August last, giving us a depth of nine feet below mean low water. To complete the same we have only to put on two feet of ballast, when we shall have about eight acres of wharf accommodation within one mile of the city limits of Boston on the trunk line of our road. This property has been procured at a comparatively moderate cost, and it is believed will be sufficient for the requirements of this road for many years to come.

The belt or pile structure on the east side of our wharf in Portland was found to be unsafe for the passage of locomotives. Accordingly, large and expensive repairs and improvements have been made thereon. Nearly the whole of the east side has been reconstructed with the best of oak piles, and the same has been thoroughly replanked. Two substantial drops have been built at the end of the wharf for the accommodation of the eastern steamers in the reception and delivery of passengers and freight. Nearly three hundred feet of sheds have been built over the same, for the purpose of covering our passenger trains running to and from the eastern steamers, and also for the accommodation of the new semi-weekly line of steamers between Portland and New York, who lease a portion of the wharf.

The dock on both sides for a distance of some three hundred feet in length has been dredged to a depth of sixteen feet on the east side and nine feet on the west below mean low water. This increases considerably the facilities for business at this point.

In the annual report of last year it was stated that by means of this wharf purchase and the rail connection secured thereby, we were enabled to place our cars within the yards of the largest lumber dealers in Portland, and within the means of close connection with steamers for Halifax, St. John, Bangor, Mt. Desert, etc. This has been done during the past summer, and passengers have found our cars in close proximity to the steamer's landing. The business from this connection with the steamers in the winter season is of little account; but during the summer, we anticipate in the future a large and increasing business, especially after the opening of the Lowell and Andover Railroad.

At the close of business on the thirtieth day of September last, there had been expended, on account of the extension in Maine, including the wharf purchase, $4,163,344 74, as follows:

Graduation and masonry	$1,619,260 32
Land	1,191,823 19
Engineering and other expenses	161,152 06
Superstructure, including iron	655,256 95
Bridges	315,369 57
Stations and buildings	178,174 36
Fences	42,308 29
	$4,163,344 74

With the exception of some few claims for land damages yet remaining unsettled on account of legal proceedings connected therewith, and two or three bridge structures for highways or streets that may have to be built, it is hoped and believed that the whole expenditures hereafter on the extension may properly be all charged to expenses.

The number of locomotives in the service of the company remain as at date of last report, 69. One new locomotive has been added during the year, but it takes the place of one worn out and broken up.

During the year we have added 2 new passenger cars, 2 long baggage cars, 6 freight cars, and one snow plow. We have now 122 passenger cars, including 3 parlor cars, and 1,406 freight cars.

As a true measure of economy the track and road beds have been kept in good condition. 16 miles have been relaid with new iron and 10¾ miles with steel rails during the year. We have now on the whole line of road 60¾ miles of steel rails. In this connection it is gratifying to be able to state that the steel rails first laid down on this road in the year 1867, at a point where an iron rail had to be renewed every year, are as yet but little worn, and will serve us for three or four years longer; at other points of less severe service they show no appreciable sign of damage or wear, and very few of them have ever broken.

We cannot but believe that the expense of our road repairs must be greatly reduced in the future by the use of steel.

Our new brick passenger house, at Dover, has been finished. It is an ornament to the place, and supplies a long felt want at this important point. New passenger houses have been commenced and are nearly completed at Bradford, and at Ryfield on the Newburyport Branch. We have also erected a new, wooden, engine house, at Exeter, called for by running the road in two divisions instead of three, as at first contemplated.

The large number of bridges on the line of our road calls for constant care and watchfulness. The most of those on the extension are of iron, and we are substituting iron for wood on the other portion of the road, so fast as renewals become necessary.

Notwithstanding all our important wooden bridges are carefully watched and every possible means used to secure and protect them from fire, yet they are a constant source of anxiety to the officers of the road.

Additional safeguards have been provided for the wooden structure over the Merrimack River, at Haverhill. A contract has been made with the Water Company at that place for a constant supply of water with sufficient head to drench the bridge in case of need. Some 1 000 feet of iron pipe has been laid from the street mains to the north end of the bridge; from thence an iron pipe is carried through its entire length, and so arranged in sections as to command, by means of hose fitted to the same, a water supply, almost instantly, in any part of the bridge in case of fire.

A new, three track, iron, fifty feet span bridge has been constructed over Little River, in Haverhill.

We have also contracted for a new iron through bridge of one hundred and fifty feet span, to take the place of the present wooden structure over Lamprey River in Newmarket.

The Lowell and Andover Railroad is approaching completion. When finished, this corporation will take a lease of the same for ninety-nine years, in accordance with your vote passed June 4, 1873. By it this road secures another important through connection with the West, as well as a new and direct line for New York.

Treasurer—A. BLANCHARD.

Superintendent.—JAMES T. FURBER.

Meeting of Railroad Bondholders.

A meeting of the first mortgage bondholders of the Great Western Railroad Company of 1859, and the Illinois and Southern Iowa Railroad Company, was held in this city on the 13th inst. Over $800,000 worth of bonds were represented, and Daniel D. Lord presided. After a brief discussion, the following was agreed upon as the line of action of the bondholders:

"The undersigned, first mortgage bondholders of the Great Western Railroad of 1859, and the Illinois and Southern Iowa Railroad Company, both of the State of Illinois, holders of the number of bonds respectively set opposite their names, being desirous of protecting their interests by seeing that the earnings of these roads are applied according to priority of liens and not devoted to the payment of the floating debt in preference to mortgage liens, hereby appoint Messrs. Brown, Griswold and Baldwin a committee to apply, if necessary, by judicial proceedings, for the appointment of a receiver to carry out the above object."

Mr. Ashley moved that the Committee should not have the power, but should only confer with the directors and report back at a future meeting. This was put a vote and lost, the former action being determined upon, with the proviso that the committee might first consult the directors of the road. The committee was instructed to report at a future meeting, of which the bondholders of the eastern portion of the road will be duly notified.

☞ The production of the Lake Superior Iron Mines in 1874 aggregated 935,488 gross tons, against 1,167,379 tons in 1873, and 952,055 tons in 1872. For the 19 years, beginning with 1856 and ending with 1874, the production was 7,684,290 gross tons, an average of 402,541 tons a year.

Railroads of Massachusetts.

The Board of Railroad Commissioners have submitted to the Legislature their sixth annual report, which avoids the discussion of general topics, and deals concisely with those which are considered necessary. The report says:

The construction of new roads has suffered a check owing to the depression in business interests, and during 1874 only 41 miles, of which 11.5 miles were narrow gauge, were opened, as compared with 180 miles the year previous, and 50 miles the general average for the past forty years. On the Massachusetts Central, Lee and New Haven and Lee and Hudson roads construction has entirely stopped. The total length of railroads in the State is 2,418.46 miles of main line and branches, with 657 miles of siding and 626 miles of double tracks, equivalent in all to 3,701 miles of single track. Returns have been received from 60 corporations, three of which operate narrow gauge roads. The average cost of roads has been $56,883 62 per mile, with an additional cost for equipment of $7,701. The entire system is represented by $165,624,136 72 of securities, of which $117,066,798 07 is stock and $48,557,338 65 is debt. The increase of debt during the year has been upward of $11,000 000, of which $9,000,000 was included in the returns of the eight Boston roads.

The total earnings for the year amount to $34,632,483 54, a falling off of eight-tenths of one per cent from those of the previous year, the falling off was in the earnings from freights, which decreased $1,155,900, while those from passengers increased $527,381. Of the decrease in freight receipts $937,584 took place on the Boston and Albany. The Boston and Lowell, Boston and Maine, Boston and Providence and Old Colony also lost, while the Eastern gained $374,504, and the Boston, Hartford and Erie also made a small gain. The gain from passengers was chiefly on the Eastern road, which shows an increase from this source of $380,000. Of the entire gross earnings 49 per cent were received from passengers and 46 per cent from freight, being almost exactly a reverse of the proportions of the previous year. The passenger earnings show a continued growth, year by year, out of proportion to the freight, having this year increased 3 1-10 per cent, while the freight earnings have diminished 6 8-10 per cent. The average sum earned on each mile of road operated was $14,897.

The cost of operation has amounted to $9,947 90 on each mile of road operated. It has consumed 69 per cent of the gross earnings, leaving a margin of only 31 per cent as profit on the business.

The total net income reported is $10,703,801 70, or 6.4 per cent on the permanent investment—that is upon the value of the property as it stands upon the books of the corporations distinct from stock and indebtedness, which may represent fictitious or temporary values.

Of the sixty corporations making returns, twenty nine paid dividends, varying from 1 to 10 per cent, and averaging on the entire stock of all the dividend paying roads, 9 per cent. As interest, $2,791,572 was paid.

The average cost of running a train one mile has been $1.156 on the passenger service, and $1.144 on the freight service. The average rate on all trains has been $1.182 per mile, or 8 cents less than last year. The average number of passengers to each train during the last year was 69, and the average number of tons of freight was 58. The passenger trains, including locomotives and baggage cars, averaged 124 tons of dead weight, and the freight trains 209 tons. Consequently the returns would seem to indicate that the railroad corporations of the State haul 1.69 tons of rolling stock for each passenger they carry, and 3.17 tons for each ton of freight.

The total mileage of passenger trains run during the last railroad year was 9,887,001 trains run one mile, or an increase of 674,744 miles over the previous year, being an increase of 7 per cent in service, which apparently resulted in 3 1-10 per cent of increased earnings. As regards freight, 9,298,817 trains were run one mile, a decrease of 385,795, or 4.3 per cent from the previous year, representing a corresponding decrease of 6.8 per cent in the earnings from that source.

The average fare charged per mile on all the roads was 2.55 cents per mile, ranging from 7.4 mills per mile for season ticket passengers for long distances, to 10 cents per mile for single ticket passengers for very short distances. As respects freights, no average can be named which would not be very deceptive, without excluding the cost of terminal handling.

As regards equipment, it appears that 384 miles out of 3044, or about 29 per cent of the entire main lines of the corporations are laid in steel—an increase of 253 miles over the amount reported last year.

A very encouraging increase is reported in the number of telegraph stations—they have gone up from 325 at the close of the previous railroad year, to 449 at the close of the last, an increase of about 38 per cent.

The increase in rolling stock during the past year has not been so decided as during the previous years. The number of locomotives is 61 more than were reported in the last returns, an increase of nearly 7 per cent. The passenger cars increased from 1243 to 1294, or 4 per cent, to meet an increase of 8 per cent in the number of passengers carried one mile.

There has been no apparent increase in the number of freight cars, but this is probably owing to the deceptive character of the returns from certain of the corporations. There is reason to suppose that the actual increase has been in the neighborhood of 3.3 per cent, or about 550 cars.

The increased use of the train brake is most noticeable. At the close of the last year it had been applied to 313 locomotives and to 997 passenger cars, out of a total of 1294.

The number of stations returned is 1074—an increase of 72 over the number reported for the previous year, being a station to every 2¼ miles of road operated.

The number of grade crossings, notwithstanding every effort to oppose them, has a tendency toward a steady increase, being 2660 for the present year as compared with 2436 for the previous one—an increase of 224, or 9 per cent in a single year; 256 of these, or 20 per cent, are protected by gates or flagmen.

There are 43 grade crossings of one railroad by another, an increase of three over the number heretofore reported, and in only 11 instances are roads which intersect carried over or under each other.

HORSE RAILROADS.

Returns were received from 30 street railway corporations, the Lynn City having been added to the number making full reports. The aggregate capital stock of the street railway corporations was increased during the year $26,775, amounting on September 30 to $5,538,125, and their total indebtedness at the same time was $2,573,745 91 (an increase of $428,649 31 over the previous year), representing altogether an aggregate of $8,111,870 91 in stock and debt. Two corporations made dividends of 10 per cent, two 9 per cent, one 8.5 per cent, one 6.81 per cent, two 6 per cent, one 4 per cent, one 3 per cent, and twenty made no dividends.

The average rate of dividend on the whole capital stock of the corporations was 6.11 per cent, while their net earnings represented a return of 6 per cent on their entire stock and indebtedness. The aggregate length of track returned, inclusive of branches and sidings, was 210.359 miles, or an average of 7.01 miles to each corporation. The average cost per mile was $18,908 58 on account of permanent way, $13,793 18 on account of equipment, representing a total cost of $32,701 76 per mile of road operated. During the year an aggregate of 1,294,416 round trips were made amounting to a total mileage of 7,938,360 miles, and 50,058,979 persons were carried, being 7,578,485 more than were carried, by the steam roads during the same time, and an increase of 6,501,843 over the number carried during the previous year. The amount received for the carriage of each person was 5 78 cents, and the cost for the carriage of each person was 4.85 cents, leaving an average profit to the company of .93 cent on each passenger.

From Herapath's Railway Journal.

Atlantic and Great Western Railway.

The following are lengthy extracts from a letter, dated New York, January 4th, 1875, to Mr. J. C. Conybeare, the chairman of the Committee of 1st bondholders, addressed to that gentleman by the Receiver (Mr. W. Devereux), which Mr. Conybeare has requested us to publish:—

1. The lease of May, 1874, is not at this time recognized by the Erie Company, and it is difficult to explain the action of that Company in the matter. The lease was ratified by the boards and stockholders of the Atlantic and Erie Company respectively, and following such action, I was requested by the executive of the Erie to operate the Atlantic road under the lease, until arrangements could be made for its more immediate control and management. The lease required payment by the Erie of the value of all supplies; and, as also required by the statute law of Ohio, the Erie was bound in entering upon the properties to make deposit of adequate security for the faithful performance of the stipulations of the lease. This security was designated by Board resolution as one million of the second mortgage bonds of the Erie Company. Whilst still recognizing the lease, the Erie failed to comply with the conditions as stated; and the situation continued unchanged throughout the summer, the understanding being that with the perfecting of financial arrangements in London, the lease and law would be fully complied with by the Erie Company. Throughout the Atlantic Company has held that the lease was operative, legal, and binding upon the Erie Company, and which position had not been formally dissented from by the latter, although three months ago, for the first time, there were raised serious points of difference between us by the Erie management as to the status of the lease. And about that time also the Attorney General of New York was moving to put the Erie into the hands of a Receiver, on the ground that its Directors were violating the law in making an unauthorized lease of the Atlantic and Great Western R. R. However incredible such a proceeding might seem, and the attack being inspired from whatever motives, or originating from whatever source, it must be confessed that nothing seemed left the Erie executive but to await the consummation of this very serious matter, pressing it to the speediest possible conclusion, whilst necessarily, from the peculiar circumstances, deferring final action upon the lease. Meanwhile, the Atlantic, failing at all points in financial strength, and strangled by the large sums taken from its current earnings to pay bonded interest, passes into the receiver's hands itself.

2. The leased lines rental trust bonds of 1872 do not, nor cannot, take priority of the 1st mortgage bonds of the Atlantic and Great Western R. R.

3. The coupons of these first leased lines rental trust bonds of 1872 should be paid regularly, in part at least, and perhaps fully, depending upon circumstances, with the exception now explained. The first leased lines are composed of the Cleveland and Mahoning, Niles and New Lisbon, and Liberty and Vienna R. Roads, each with a specific rental due from the Atlantic Company. But the Ohio first mortgage bonds under a decree of Court are made a first lien upon ⅓ of the lease of the Cleveland and Mahoning railroad to the Atlantic Company. And I assume that you are fully cognizant of the peculiar nature and position of the 1st Ohio mortgage. Hence in the appointment of a receiver for the Atlantic the Court authorized that officer to borrow money to pay the rental of the Cleveland and Mahoning due for

the six months ending with the 31st ult., but omitting the Niles and New Lisbon and Liberty and Vienna rentals for the same period. The Atlantic is competent to earn its rentals, but at this moment is straightened by reason of the diversion of its earnings, heretofore spoken of, and it requires a little time to fully meet its first leased lines rentals. And whilst as receiver I had borrowed the money to pay that portion of the rentals ordered by the Court, to wit, the Cleveland and Mahoning, and on Saturday (day before yesterday) offered the payment, it was refused by order of Sir John Swinburne, one of the trustees now in New York, on the ground that he must have all the rent or none at all.

4. The value of the coupons of the 1st mortgage bonds of the Atlantic and Great Western R. R. must depend upon the action of their holders in the plan of reorganization.

5. The charges which take precedence of the two "above mentioned securities" are first the amounts due for current labor and supplies since August 9th, 1874, the balance due connecting roads and freight lines subsequent to same date; and, secondly, the principal and interest of the 1st Ohio mortgage bonds which mature during 1876. This would be the same if the Erie lease was operative in respect of the Ohio mortgage. The Erie lease was a just one, but the situation is such now that I need give no further time to its explanation, whilst I am gratified at the opportunity of thus advising with you as a representative of the bondholders of the Atlantic Company. I venture to suggest that a committee of bondholders sufficiently strong to control, and with full power to decide upon the details of a new organization, come here as early as convenient to satisfy themselves of the real worth and circumstances affecting the property, and to avoid the mistakes of the past in its reconstruction. If too much time be lost in this work, under the operation of the approaching maturity of the 1st Ohio mortgage bonds, you may hazard everything that might be saved.

Central Vermont Railroad.

The Boston *Journal* understands that an arrangement is proposed, and in fact in progress, for reorganizing and funding the different securities of the Vermont Central, Vermont and Canada, and Rutland Railroads. The proposition is to issue $11,000,000 of bonds. Of these $3,000 000 at 6 per cent. to be apportioned to the Vermont and Canada stock, $4000,000 at 7 per cent. for exchange of the Equipment bonds of the Vermont Central and Vermont and Canada, $3,000,000 of the Rutland bonds and floating debt, and $1,000,000 to be reserved for Vermont Central floating debt and other contingencies of the consolidated roads, $1,000 000 of 8 per cent. guaranteed stock to be issued to the holders of Central Vermont stock who have recently contributed that amount to the new corporation. The Vermont Central first mortgage bonds and Rutland preferred stock to be consolidated into a 6 per cent. preferred stock of $5,000,000, the Vermont Central second mortgage and Rutland common stock into $3,000,000 of common stock; each in the proportion of 13-23 to the Vermont Central and 10 23 to the Rutland securities. The interest required will be for the $11,000,000 bonds $740,000; for the guaranteed stock $80,000; for the Missisquoi bonded interest $35,000; total $855,000. The gross earnings of the combined roads are now about $3,500,000: allowing 70 per cent. for expenses gives a net income of $1,050,000, which is nearly enough to pay the interest on the bonds, guaranteed stock, and $300,000 for the 6 per cent. preferred stock. The *Journal* adds:

We are glad to see that the managers of these properties are making an attempt to rescue them from the imminent danger in which they now stand. That there is value in them there is no doubt. The business over the roads has increased from 6 to 8 per cent. per annum on the average. With good management, on this ratio, a few years will put the whole property into paying condition.

Michigan Central Equipment Bonds.

Application has been made to the Committee on Stock List to have the Michigan Central Railroad Equipment Bonds placed on the list of the New York Stock Exchange. The communication reads as follows:

COMMITTEE ON STOCK LIST,
NEW YORK STOCK EXCHANGE,
NEW YORK, Jan. 30, 1875.

Official statement of the Michigan Central Railroad Company. I hereby make application to have $800,000 of the Equipment Bonds of this company, Nos. 1 to 800, inclusive, each for $1,000, dated Oct. 1, 1874, payable April 1, 1883, interest, eight per cent., coupons April 1 and Oct. 1, placed on the list of the Stock Exchange, and in addition to other matter accompanying this, give the following condensed balance sheet of Nov. 30, 1874:

DR.

Construction account	$27,210,167 07
Cash on hand and loaned on call	842,421 86
Land account	192,204 98
Sundry accounts, stocks, securities &c	731,654 19
Assets in Detroit, including materials on hand	861,135 64
Branch roads	4,583,979 49
Total	$33,921,562 78

CR.

Capital stock	$18,738,204 00
Bonded debt, main line	10,735,000 00
Bonded debt, air line	1,900,000 00
Unpaid coupons and dividends	58,428 80
J., L. and S. equipment bonds	72,065 00
Bills payable	472,409 53
Income account, balance	1,945,455 40
Total	$33,921,562 78

Trustees.—H. H. Hunnewell, Nathaniel Thayer.

Officers.—President, James F. Joy; Vice President, H. H. Hunnewell; Treasurer, Isaac Livermore; Vice Treasurer and Clerk, Joshua Crane; General Superintendent, William B. Strong; Auditor, William Boott.

Directors.—James F. Joy, Detroit, Mich.; J. W. Brooks, Boston; Nathaniel Thayer, Boston; H. H. Hunnewell, Boston; George F. Talman, New York; Moses Taylor, New York; Sidney O. Bartlett, Boston; John Jacob Astor, New York; Erastus Corning, Albany.

Principal Eastern office, Boston, Mass.

Yours truly ISAAC LIVERMORE, Treasurer.

The committee recommend that these bonds be placed on the regular list and called Michigan Central Equipment Bonds.

JOHN T. DENNY, Chairman.

☞ The Massachusetts Railroad commissioners state that there has been an unusually small number of petitions or complaints preferred against railroad corporations before the Board during the year. The only one of general interest has related to the unnecessary use of the steam whistle in Boston, and the practice has been abandoned or modified on the roads against which complaint was directed.

☞ The directors of the Pittsfield and North Adams Railroad company, elected on the 10th inst., are: Chester W. Chapin, M. W. Tucker, W. S. Bullard, F. H. Bradlee and Edward Jackson. The road is operated by the Boston and Albany Railroad Company.

$2,000,000

FUNDED DEBT LOAN

OF THE

EASTERN RAILROAD CO.

OF MASS.,

Issued in engraved amounts of $1,000 each, coupon or registered.

Payable in Ten Years from Nov. 1, 1874.

at the Agency of the Company in New York City, with interest payments each May and November at the rate of

SEVEN PER CENT.

Holders of Coupons in New England may receive payment in Boston by giving notice to the Company five days before maturity.

The SINKING FUND provides

That the amount of one per cent. of this issue for the first year, increasing by one-half of one per cent. each succeeding year, being an average annual amount of

$60,000,

will be redeemable at par prior to maturity, by an annual public drawing in Boston, notice by publication being given of the numbers so designated for payment.

Application will be made to have this issue placed on the Regular List of the New York Stock Exchange.

This road is now in the highest state of efficiency, with largely increased earnings over last year.

It is one of the oldest roads in New England, and has paid to its shareholders over two hundred per cent. since it was finished.

The corporation has given no mortgage upon its road, and by the laws of the Commonwealth all its issues have the same lien on the entire property, there being no priority whatever.

The statute also expressly provides that in case mortages are created hereafter, all existing issues shall be equally protected by a First Lien on the entire property, both real and personal, franchise, equipment, &c.

The EASTERN RAILROAD COMPANY, for the funding of its entire floating debt, have authorized MESSRS. RICHARDSON, HILL & CO., of BOSTON, to offer the above described loan for sale to the highest bidders, with the reservation of a minimum price of ninety per cent. and accrued interest, below which price no offers will be accepted. Bids will be received under seal at the office of either of the undersigned, until Monday, the 1st of March, at noon, at which time they will be publicly opened.

Bids to be endorsed "Proposals for Eastern Railroad Loan."

The awards will first be made to the highest bidders, and in case of applications exceeding the amount offered, the remainder after such first sales will be distributed pro rata to the next highest and equal bids.

Bids will be received, and full information, with forms of proposal, furnished by

RICHARDSON, HILL & CO., Boston.
WINSLOW, LANIER & CO., New York.
MORTON, BLISS & CO., New York.

Boston, Feb. 17, 1875.

By authority of the Board of Directors,

JOHN WOOLDREDGE, President.

The Coal Trade.

The Philadelphia *Ledger* reports the entire anthracite tonnage for the week ending on the 6th inst., at 122,371, against 187,939 in corresponding week last year, and 1,317,137 for the new year against 1,456,680 to same date in 1874. The bituminous tonnage for the week is 38,011 tons, and for the year 167,709 tons, against 173,659 tons to corresponding date last year. The total of both kinds of coal for the week is 160,382 tons, and for the year 1,484,846 tons, against 1,630,339 tons to same time in 1874, being a decrease of 145,493 tons. The quantity of coal and coke transported over the Pennsylvania Railroad for two weeks was 19,225 tons, and for the year 231,819 tons. Of this aggregate 186,056 tons were coal and 45,673 tons coke. This table embraces all the coal carried over the road, both anthracite and bituminous, east and west. At Port Richmond for the week ending the 13th instant there were no receipts of coal and the shipments but 1500 tons, leaving 95,500 tons on hand.

☞ At Memphis, Tennessee, on the 11th inst. R. M. Joiner & Co. filed a petition in the second circuit court to compel the city to pay past due coupons held by plaintiffs. On the same day, in the first circuit court at Memphis, a mandamus was applied for in the case of Thomas Branch & Co. vs. the City of Memphis and sinking fund commissioners, to compel that city to pay petitioners out of the sinking fund $3,500, in liquidation of past due coupons held by complainants. Several days ago Branch & Co. filed an injunction to restrain the sinking fund commissioners from purchasing Memphis City bonds not yet due

☞ We learn by the memorial of the Chicago and Northwestern Railroad Company, presented to the Legislature of Wisconsin, that the interest payable in 1873 on the mortgages appertaining to the 565 miles of road which the company operate within the limits of that State was $1,350,135, and that the net income from that part of the road for the year was only $1,026,945, or a deficiency of $323,190. This shows the inequitable working of the Potter law in that State.

☞ A bill has been introduced into the Wisconsin Assembly, requiring the Wisconsin Central Railway Company to relay, maintain and operate road between Appleton and Menasha, and to authorize its lease or sale to the Milwaukee, Lake Shore and Western Railroad.

☞ The Central Pacific Railroad Company has commenced the survey of a railroad from Corne to the coal region about Evanston, Wyoming Territory. The road will be pushed to completion as speedily as possible.

☞ The name of the Quincy, Beardstown and Northeast Railroad has been changed to "Chicago, Quincy and Western." The northeastern objective point was fixed at Chicago. The office of e company is at Beardstown, Ills.

☞ The Toledo and Louisville Railroad will oon be finished to Bushville from the south, and Anderson from the north. Spiceland, Greensboro nd Cadiz are on this route.

☞ Work has been commenced on a railroad which is to connect old Granby (Mo.) with Granby ty and the Atlantic and Pacific Railroad.

☞ The stockholders of the Kiukora, Columbus and Springfield Railroad, at their annual meeting, held in Columbus, Burlington Co., N. J., last week, elected the old Board of Directors and officers.

☞ Fourteen thousand dollars capital stock has been subscribed to the West Broad Street (Columbus O.) Railway enterprise.

☞ The Oakland Street Railroad company of Dayton, Ohio, has been incorporated with a capital stock of $15,000.

PUBLIC LIBRARY OF KENTUCKY.

Death of Gov. Bramlette—Action of the Trustees—A Successor appointed—No More Postponements—Drawing Certain February 27th.

At a meeting of the Trustees of the Public Library of Kentucky, Jan. 16, 1875, it was resolved that C. M. Briggs, Esq., who under the late Hon. Thos. E. Bramlette was the real business manager of the gift concerts already given in aid of the Public Library of Kentucky, be and he is hereby authorized to take the place made vacant by the death of said Bramlette, in the management of the affairs of the fifth and last gift concert, and that the drawing announced for February 27, 1875, shall positively and unequivocally take place on that day without any further postponement or delay on any account whatever.

R. T. DURRETT, Pres.

JOHN S. CAIN, Secretary.

Hereafter all communications relating to the 5th Concert should be addressed to the undersigned, and I pledge myself that the drawing shall come off February 27th or that every dollar paid for tickets shall be returned.

C. M. BRIGGS, Agent and Manager

Room 4, Public Library Building, Louisville, Ky., or THOS. H. HAYS & CO., 609 Broadway, N. Y.

A Foreign Financial Plan AMERICANIZED.

Ten Dollar Bonds.

POPULAR LOAN.

The Great Southern Railway Co.

(CONSOLIDATED)

UNDER CONSTRUCTION IN

GEORGIA & FLORIDA,

OFFER FOR SALE ITS

First Mortgage Land Grant and Premium Bonds.

Payment Secured by First Lien on 500 Miles of Railway, Equipment, Franchises, Steamers, and

6,400,000 Acres

of selected Yellow Pine, Cedar, Live Oak, Cotton, Sugar, and other valuable Agricultural Lands. Also a Sinking Fund from Earnings of the Road.

Bonds Redeemed, with Premium, Six times in each year, beginning January, 1875.

Every Bond, when Redeemed, must receive a Premium from $1.00 to $50,000, besides the Original cost of the Bond.

The Company will receive the Bonds at par in payment for Land and for transportation of passengers and freight over its line.

The Great Southern Railway Company is incorporated by the Legislatures of Georgia and Florida. It is designed to connect the Railway system of the United States with Cuba and the other West India Islands, Southern Mexico, and Central America, the Panama Railway and South America. It is a direct, immediate, *and the only possible railway line*, stretching four hundred miles South of any other railroad, *between the temperate zone and the tropics of America*, between 50,000,000 people in the United States and Canada, and 40,000,000 in the West Indies, Central and South America.

It will reduce the water transportation between the Railroad system of the United States and Cuba **to a run of only Five Hours by Steamship,** *and to Southern Mexico, Central America and South America it will shorten the line* **Sixteen Hundred Miles** *over the route now generally traversed.*

In a Political and Military point of view, the importance of this line to the United States can hardly be overestimated.

In the transportation of **U. S. Mails, Express and Fast Freights, Military Stores and Supplies, Sea Island Cotton, Tropical Fruits, Market Gardening,** &c., it will do a larger business for the length of its line than any railway in the United States.

It will be a Commercial and Political bond of peace and amity between the people of North and South America.

HON. THOMAS W. OSBORN, *President.*

JAMES W. JOHNSON, *Treasurer.*

WM. F. WHEELER, *Secretary.*

☞Orders for Bonds, and for Circulars, Maps, etc., apply to

EMIL HAAS & CO., FINANCIAL AGENTS,

71 Broadway, New York.

American Railroad Journal.

Saturday, February 20, 1875.

Financial and Commercial Affairs.

Money continues quite easy. The supply is in excess of the requirements of responsible borrowers, whether for speculative, or mercantile use. Call loans have been ruling steady at 2@4, generally at 2½@3; and best discounts at 4@6 per cent per annum. The demand for accommodation has not been urgent. The revival of trade, in the commercial line, has been seriously impeded by the ice blockade in the harbor, which made prompt deliveries of produce and merchandise very difficult. The City Bank changes, on the general averages, have not been important. The specie and deposit items indicated a moderate increase, and the legal tender line, a further reduction. The loan and discount average was augmented about two millions. The Sub Treasury currency balance was enlarged to the amount of 1½ millions, while the coin reserve was reduced about ⅛ths of a million. The City banks last week reduced their reserve of legal tender notes $628,000, and enlarged their deposit item $709,100, while increasing their specie average $731,900. They report an increase of $1,913,500 in the loans and discounts and a further decrease of $129,300 in their circulation. The U. S. Sub-Treasury in this city closed the week with a currency balance of $49,813,683, against $47,672,369, the preceding week; and a coin board of $44,873,189, against $45,646,603, on the previous return. The City bank exchanges in currency during the week, were $430,409,122, or a daily average of $71,734,854. The customs revenue of the port, during the week, was $2,628,717. The City banks reported their average of gold last week at $15,894,300, and their greenback average at $56,647,400. Their deposits stood at $288,832,800. The loan item was $293,111,200. The circulation was $28,512,900.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $12,833,625.

The aggregate of the outstanding U. S. currency, of all denominations, Feb. 1, was $427,109,222, The outstanding amount of legal tender notes is 382 millions. The National bank circulation is now $344,310,452.

The U. S. Treasury balances on Wednesday were as follows: Currency, $8,524,246; special deposit of legal tenders for redemption of certificates of deposit, $49,720,000; coin, (including $22,102,300 in coin certificates,) $68,785,136.

Gold has been more freely dealt in. The speculative movement has been more animated. The demand for Custom House purposes, to pay duties, on goods withdrawn to meet the Spring call for goods, has been up to a fair average. The export drain has been much less extensive. The extremes of the week have been 114⅜@115⅜ closing on Wednesday at 115 as against 114⅞ on Wednesday of the preceding week. The specie outflow last week was $581,015. The imports of specie at this port since Jan. 1, have been $158,191 against $928,666 same time last year. The customs demand for Gold last week averaged $438,121 a day. Foreign Exchange has been unusually depressed and unsettled, chiefly by the scarcity of gold for prompt delivery and the high rates claimed on Gold loans. Bankers' sixty day bills on London closed on Wednesday at $4 80@$4 81; sight bills on London at 4 83 @$4 84 to the £ sterling on a very limited inquiry. The week's exports of Domestic Produce have been to the currency value of $3,952,584.

The import entries of Foreign Merchandise at New York, including dry goods, amount for the past week to $6,601,928.

The income of the Government, from internal revenues, thus far, in the fiscal year, commencing with July 1, 1874, has been 68 millions.

Government Securities have been quoted easier in price, on moderate offerings of the several issues, and a less confident demand from investment buyers. The later dealings indicated rather more steadiness.

U. S sixes of 1881 closed on Wednesday of this week at 119¾@120; U. S. Five-Twenties of 1862, at 116⅜@116½; U. S. Five-Twenties of 1864 at 117⅛@117¾; U. S. Five-Twenties of 1865 119⅛@119¾; U. S. Five-Twenties of 1865 consolidated, 118⅛@118¾; U. S. Five Twenties of 1867, 119⅛@119¾; U. S. Five-Twenties of 1868, 119⅛@119¾; U. S. Ten-forties at 117@117¼; U. S. Fives of 1881, (Funding Loan) 114⅞@115⅛; Six per cent. currency Sixes from 119¼@119½.

There has been less activity noted at the Stock Exchange on Railway and miscellaneous share list on a depressed and irregular market, closing rather more steadily. State and Railway bonds have been in very limited request at about late quotations for the more substantial loans.

General business has been comparatively dull, owing mainly to the difficulties in the way of deliveries of produce and merchandise, because of the ice blockade in the harbor, and the condition of most of the streets, near the water front. Breadstuffs and Provisions have been quoted lower, on a very moderate inquiry. Cotton, firmer, but less active. Tobacco, Wool, and Naval Stores, quiet. Petroleum higher. Metals generally inactive. Eglinton Pig Iron quoted from yard at $33 50@$34; Glengarnock, $36; No. 1 American Pig at $27@$28; No. 2 do. at $25@$26 50; Forge, $23@$27; English Rails at $47 50@$50, gold; American Rails at works, $50@$52 50; Old Rails, $30. Wrought Scrap, $28@$35. Ocean freights have been less active and quoted much lower on Grain.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—Great Western 1st mort. 1888, 77; Am. Dock and Imp. 7s, 100½; Galena and Chicago 1st mort., 104; Morris and Essex 7s, 1871, 105; Long Dock bonds, 102; Detroit, Monroe and Toledo 1st mort., 98¼; Pacific R. ☞ The municipal bonds of the city of Cincinnati, paying seven and three-tenths per cent interest per annum, are now selling at 102 and accrued interest from January 1, 1875, with a prospect of a speedy advance in price, as the bonds are being rapidly absorbed by careful investors. The faith and credit of the city of Cincinnati are pledged for the payment of the interest and the redemption of these bonds at maturity A tax is also required to be levied annually for this purpose. The whole debt of the city, including the present loan is but $16,000,000, while the property owned by the city is valued at $20,000,000. The property assessed for taxation in 1853 was $180,926,390. These bonds are for sale by Messrs. Kuhn, Loeb & Co., Bankers, No. 31 Nassau Street, New York.

☞ We invite attention to the advertisement of the Eastern Railroad Company in another column, also to the Report of the Railroad Commissioners of Massachusetts, published herewith, in which favorable mention is made of the operations of the road during the past year.

☞ The surveys on the line of the Missouri Central Railroad are progressing between Baxter Springs and Cathage, via Joplin. This road is intended to run from Jefferson City, Mo., to Ft. Smith. S. Woodward is President, W. P. Davis Vice President, H. W. Comstock Secretary, and Ezra Miller Treasurer.

U. S. Supreme Court.

Among the decisions rendered on the 15th inst. by the U. S. Supreme Court are the following:

No. 54. The Erie Railway Company vs. The Commonwealth of Pennsylvania—Error to the Supreme Court of Pennsylvania.—In this case the Court reaffirm the decision in Reading Railway Company vs. Pennsylvania (15 Wallace) that a tax upon the gross receipts of a railroad company is within the power of a State to impose; that the Erie Road was intended to be taxed by the act of the Legislature as doing business within the State, and that the tax is justly apportioned to the length of the road in the State and not therefore to be complained of by the company, and further that the property of the road is not exempted from the tax by former legislation. Affirmed. Mr. Justice Hunt delivered the opinion.

No. 151. Fox vs. Leal and the Wheeling, Pittsburg and Baltimore Railroad Company—Error to the Circuit Court for the Western district of Pennsylvania.—In this case the court held that under the resolution of the Pennsylvania Legislature of 1843 a railroad company could not mortgage or otherwise convey their property while debts were due for construction so as to deprive contractors of their right to recover claims for work done. Reversed. Mr. Justice Strong delivered the opinion.

No. 174. Hepburn vs. The School Directors of the Borough of Carlisle, Pa.—Error to the Supreme Court of Pennsylvania.—The Court decide in this case that where bank shares are worth 150 per cent they may be rated at that amount for taxation; that it is not the amount of money invested which is wanted for taxation, but the amount of moneyed capital which the investment represents for the time being. Affirmed. The Chief Justice delivered the opinion.

Railroads in Minnesota.

The whole length of railroads in Minnesota on the 30th of June, 1874, was 1,893 miles. The aggregate capital stock of the roads was $31,740,000, being an average of $16,767 per mile; the total funded debt is $86,344,154, which is increased by the addition of $6,255,025 unfunded to $92,599,179, of which $68,410,963 is on lines actually within the State—being an average of $36,139 per mile. This makes the total capital stock and funded debt, $52,906 per mile.

The entire earnings for the year amounted to $6,194,669 18, of which $1,524,927 03 were from passenger and $4,332,735 08 from freight traffic, and $337,007 07 from miscellaneous sources—being an increase over the previous year of $658,564 45, equal to about 12 per cent. The operating expenses were $4,622,335 77, being 75 per cent of gross earnings; net earnings, $1,542,333 41. The gross earnings averaged $3,272 40 per mile; the operating expenses $2,457 12 per mile; the net earnings $814 76 per mile. There was paid in taxes $140,640 29; on interest $1,969,331 01; other expenditures (construction, equipment, rents, etc.,) $561,049 18. Only two companies paid dividends, amounting to $301,455 85.

Since June 30, 1874, the Wells and Mankato Railroad has been completed, adding 40 miles to the above, and making the total length of track 1,933 miles.

☞ The earnings of the St. Louis and Southeastern Railway for the year ending December 31, 1874, were $1,258,754, against $1,294,498 for the year 1873, a decrease of $35,744.

☞ The earnings of the Houston and Texas Central Railroad for the year 1874 were $3,166,368 27, the expenses $1,897,614 01, and the net earnings $1,268,754 26.

Missouri, Iowa and Nebraska Railroad.

The officers of this company, recently elected, are: F. M. Drake, President; Henry Hill, Vice Pres. and Gen. Supt.; James Fitzhenry, Secretary and Treasurer. The report of the Superintendent shows that the road and equipment is in first class condition, that not a train has failed to make its regular trips in two years, that during the first half year the road did not pay cost of operation, but the entire line, including every class of expenses, is now operated for less than $5,000 per month, leaving a monthly balance exceeding $7,000 to apply on interest, that all debts have been fully paid, except that of the company that ironed and equipped the road, that the facilities it offers are rapidly developing the country, resulting in a steady increase of business, that the asperity growing out of conflicting interests and misconceptions has been overcome by a just and liberal policy, and those who were most hostile are now among the warmest friends, and that negotiations pending will, within 90 days, open the way for trains to run through to Keokuk.

Narrow Gauge Railroads in Utah.

There are six narrow gauge railroads already in operation in Utah, viz: The Utah Northern extending from Ogden, 86 miles, to Franklin, in the Northwestern corner of the Territory, and looking to an early extension to Montana. The Bingham Canon and Camp Floyd, 22 miles, extending from the Utah Southern Railway to the mining district west; this road is paying 20 per cent upon its cost—$360,000, with equipment. The American Fork, 16 miles, has grades as high as 297 feet to the mile, and curves only 229 feet radius; it is operated with a Fairlie engine. The Wasatch and Jordan Valley, up the Little Cottonwood Canon, 11¼ miles; average grades 150 feet, highest 287 feet to the mile, proposed extension 10 miles, of which 2 were built in 1874. The Summit County, from the Union Pacific at Echo, south to Coalville, 9 miles, is delivering 200 tons of coal per day; an extension of 20 miles southward is contemplated, also another 3 foot road from these mines direct to Salt Lake City, thus saving an immense distance in the transportation of coal. The Utah Western, the successor of the Salt Lake, Sevier Valley and Pioche Company, was organized last June, and has already 12 miles in operation, which will be increased to 25 during the winter. It runs directly west from St. Lake City to the lake shore, where it will bend southward through Toole County. The line immediately proposed is only 45 miles, but an eventual extension of 300 miles or more is contemplated into Southeastern Nevada and Southern California.

☞ A bill has been introduced in the Senate of New Jersey chartering a company to build a horse passenger railway in Cape May city, to run along the strand from the Seabreeze House to Schellenger's Landing, Sewell's Point and other places of general resort. It is intended to build the road by the time the next season opens.

☞ Arrangements are being made to secure the building of a narrow gauge road from Washington, through the valleys of Chartiers and Ten Mile creeks to Sparta, a distance of sixteen miles.

☞ Mr. M. R. Woodward has been appointed General Superintendent of the Ohio and Mississippi Railroad.

FISK & HATCH,

Bankers,

5 Nassau St., N. Y.

U. S. Government Bonds of all issues and denominations bought and sold direct at current market rates, in large or small amounts to suit all classes of investors and Institutions, and for immediate delivery; and all business connected with investments in Government Bonds, transfers of Registered Certificates, Exchange of Coupon Bonds for Registered, Collection of interest, &c., attended to on favorable terms.

All other marketable Stocks and Bonds bought and sold on Commission; Gold Coupons and American and foreign Coin bought and sold; approved deposit accounts received.

FISK & HATCH.

☞ Articles of association have been filed with the Secretary of State, at Trenton, New Jersey, in accordance with the General Railroad Law, having in view the formation of two new railroad companies. One is the Yardleyville Connecting Railroad, designed to connect Yardleyville with the Delaware and Bound Brook Railroad. The other is the Ewing and Trenton Railroad, which is to connect the Trenton City Bridge with the township of Ewing, in Mercer County. Both roads are in the interest of the Delaware and Bound Brook Railroad Company.

☞ George H. French has been elected President, J. H. Berryhill Vice President, and S. H. Conner Secretary and Treasurer of the Davenport and St. Paul Railroad company. Negotiations are now pending for a new loan to straighten the company financially, and enable them to make a satisfactory arrangement with the representatives of the German bondholders.

☞ The contract for the rails for the Cincinnati Southern Railroad, which has been awarded to the Cleveland Rolling Mill Company, will amount, even at the present low price of iron, to $1,500,000. This is said to be the largest contract in amount ever awarded a Cleveland company.

☞ The extension of the Southern Pacific Railroad from Spadra is about to be entered upon at once. Contracts for grading the road to San Gorgonio Pass are being given out in sections. The bids of a gentlemen named Hall have been accepted, and he will grade nearly the entire road.

☞ Col. R. N. Andrews has been appointed General Superintendent of the Toledo, Wabash and Western Railway. Charles H. Bradley is made Superintendent of the Western division, and N. H. Wade Superintendent of the Eastern division.

☞ Frederick Ayer has been elected President, D. B. Bartlett Clerk, and Benj. Walker Treasurer of the Lowell and Andover Railroad company. The business of the new road is said to be large and satisfactory.

☞ Mr. S. H. Potter has been appointed Superintendent of the Iowa Division of the Chicago, Burlington and Quincy Railroad.

☞ It is stated that the Harlan & Hollingsworth Company, of Wilmington, Del., have contracted with Charles Morgan to build two large iron steam ships of about 2,500 tons each.

Railroad Law.

RAILROAD COMPANIES—RESIDENCE OF CONSIGNEE.

The opinion of Justice Gray in the late case of Pelton *vs.* Rensselaer and Saratoga R. R. Co., (54 N. Y., 214), is as follows:

The plaintiff to whom the goods consumed by fire were consigned, had, within about sixteen days of their arrival at Saratoga Springs, the place of their destination, removed to a place four miles distant therefrom, up to which time she had resided in Michigan. When the goods arrived, no one was present to receive them, or to whom to give notice of their arrival, and her residence was unknown to the defendant; the goods were removed from the car to the defendant's warehouse, and there kept three days, when, without the defendant's fault, they were consumed by fire. During each of these days, the defendant's agent having charge of the warehouse, inquired of persons as likely as any other to know the defendant's residence or whereabouts, and gained no information on the subject. This, within the case of Northrop *vs.* The Syr., Bing. & N. Y. R. R. Co. (2 Trans. App, 183), was an abundant excuse for not giving notice, and within that case, in other respects, and the rule as stated in Fenner *vs.* The Buffalo and State Line R. R. Co., (44 N. Y. R., 505, 511.) The defendant's character had, before the fire, changed to that of a warehouseman, and the goods having been destroyed, without the defendant's fault, the plaintiff cannot recover, where the residence of the consignee claiming the right to notice is not known at the freight depot.

The consignee ought, before the arrival of the goods, to give such information as will enable the carrier to give requisite notice, but whether if such notice had been given it would have become their duty to have notified the plaintiff, whose post office address was beyond the municipality of the depot, is not involved.

Extension of the Chesapeake and Ohio Canal.

The Secretary of War has transmitted and the Vice President laid before the Senate a preliminary report of Major Wm. E. Merrill, United States corps of engineers, submitted in compliance with the act of June 23, 1874, directing a survey and estimate to be made for the extension of the Chesapeake and Ohio canal from Cumberland, Md., to Pittsburg, Pa. It appears from this report that the line of the proposed canal has been definitely located from Cumberland to a point two miles north of Ohio Pyle falls. The sum allotted for the survey was insufficient to carry the work beyond this point. The total distance surveyed was seventy eight miles, leaving seventeen miles yet to be surveyed in order to reach Connellsville, at which place it is expected that the canal will terminate, and that the remainder of the line to the month of the Youghiogheny may be completed by slack water navigation in the river itself. The lower portion of the river (from West Newton to its mouth, a distance of nineteen miles,) was surveyed under Major Merrill's direction in 1873. The distance between Connellsville and West Newton is twenty four miles. There is, therefore, yet to be surveyed seventeen miles of canal and twenty four miles of river. The reason why the survey did not reach Connellsville was on account of the extraordinarily difficult nature of the line, made yet more complicated by the occupancy of the narrow valley by a railroad built on the exact site originally chosen for the canal. The railroad fully doubles the difficulties in traversing the valley of Will's creek. The conclusion thus far reached is that it is simply impossible to construct a canal of the usual type between Cumberland and the summit level. This conclusion, Major Merrill says, substantially holds for the route surveyed in 1873 by way of the North branch of the Potomac and Savage rivers. Whichever route be chosen for the canal, this portion of it must of necessity be wholly or partly built after the style so long in successful use on the Morris and Essex canal, that is by the ascent of the heavier grades by inclined planes. On this canal, at places where the lift is so great that it would otherwise require many locks and short pools, the boats are taken on carriages, whose platforms are horizontal, but whose wheels are at different heights, conforming to the slope of the planes. These carriages are drawn up by water power obtained from a turbine wheel placed at the lowest attainable position, and supplied with water from the lower level.

Major Merrill says no canal has ever been built on a line presenting such formidable obstacles to be overcome as this Will's creek division, but he considers it due to the important interests which desire it that a full report should be made as to its practicability. He therefore earnestly recommends that an appropriation of twenty thousand dollars be granted to complete the survey.

West Jersey Railroad.

The annual meeting of the stockholders of this company was held in Camden, N. J., on the 9th inst. There was a much larger attendance than usual, owing, perhaps, to the fact of the company having passed their usual dividends for the year.

The gross earnings of the road for the past year amounted to $628,391 46, and the disbursements were $608,360 89, leaving a balance of only $15,030 57, a very small margin of profit. But the condition of the road, the supplies for the coming year, and the reduction in all expenses made so late in 1874, as to hardly show any improvement, will enable the company, it is claimed, to start in the new year under favorable auspices. According to the report the total number of passengers carried one mile during the year was 17,537,005; the total number of tons of freight carried one mile was 8,643,544. There is no material difference in the rolling stock or other capital investment.

The stockholders elected the following directors to serve for the ensuing year: Thos. Jones Yorke, Samuel A. Whitney, Albert W. Markley, Charles E. Elmer, Colemen F. Leaming, Lewis Mulford, John H. Moore, Strickland Kneass, Josiah Bacon, George E. Roberts, Samuel M. Felton, George Wood, Thomas H. Dudley. Subsequently the Board met, and, on the reception of a communication from Judge Yorke, declining to be a candidate for President, the following resolutions were unanimously adopted:

Whereas, T. Jones Yorke announces to this Board that, owing to the natural infirmities of age, he cannot consent to a re-election to the office of President, should the same be tendered him; therefore, be it

Resolved, That we owe it to one who has been connected with this road from its inception, at a public meeting held in Salem, April 10, 1852—one who, since then, has devoted the whole of his time and best business energies in procuring a charter, organizing a company and constructing the road—one who has held the office of President since the death of Commodore Stockton, in October, 1866—that we should place on record our appreciation of his long continued services and earnest efforts, and of the high estimation in which we hold him as a genial man, always courteous to his assistants in the Board, always kind and considerate to all in the employ of the Company.

Resolved, That we greatly regret the necessity which compels him to decline further active direction of the affairs of this Company, but yield to his request, trusting that he will aid the incoming Board, so far as he may be able, from his experience in railroad management, gathered from his long connection with the Camden and Amboy Company and its child, the West Jersey Railroad.

The Board of Directors then organized by electing George B. Roberts, Esq., President, and George J. Robbins, who has held the position nine years, Secretary and Treasurer.

☞ It is announced from Washington that the Secretary of the Treasury has determined to use the Treasury money in his control—first, to the payment of the interest on the public debt; second, to the requirements of the law concerning the sinking fund, and, third, to meet the appropriations for annual expenditures, reserving of these the public improvements for the last, and if the money runs short work upon them will have to stop.

☞ The contract for enlarging the little tunnel, west of North Adams, Mass., has been awarded to B. N. Farren, and N. C. Munson will build the road therefrom to the Vermont line. This road is 6.84 miles long.

☞ The work of connecting the new tracks of the Boston and Albany Railroad at Russell was completed on the 12th inst.

OFFICE PENNSYLVANIA RAILROAD CO.,
PHILADELPHIA, January 11, 1875.

NOTICE IS HEREBY GIVEN THAT THE Pennsylvania Railroad Company will pay, upon presentation, before March 6, 1875, their Scrip issued for the dividend December 6, 1873, at par, and accrued interest thereon to date of presentation.

On the 6th of March, 1875, this Scrip will cease to bear interest, and the Company will pay all that may then be outstanding.

SPENCERIAN

DOUBLE ELASTIC

STEEL PENS

The superiority and excellence of these justly celebrated Pens, are appreciated, as is shown in their constantly increasing sale. They are comprised in 15 numbers, of which *one number* alone has an annual sale of more than

5,000,000.

The *Spencerian Pens* are manufactured of the very best material by the most expert workmen in Europe, and are famous for their elasticity, durability, and evenness of point.

The Spencerian Pens are for Sale by all Dealers.

We make Fifteen Numbers of Pens, differing in flexibility and fineness of point, adapted to every style of writing, as follows:

No. 1. College Pen. *Point Fine; Action Perfect.* This is a great favorite with our leading penmen, is largely used in the Schools and Commercial Colleges throughout the country, and gives better satisfaction than any Pen before the American Public.

No. 2. Counting-House Pen. *Point Fine and Flexible,* well adapted to the use of Correspondents and Accountants.

No. 3. Commercial Pen. *Point Medium.* An Easy Writing Business Pen.

No 4. Ladies' Extra Pen. *Point Extra Fine and Flexible.* For Delicate Fine Hand Writing this is a very superior Pen.

No. 5. School Pen. *Point Fine, Medium in Flexibility.* For a durable School Pen it has never been equaled.

No. 6. Flourishing Pen. *Point Long, Flexible and Medium in Fineness.* For Off-hand Flourishing.

No. 7. Quill Pen. *Point Medium, Quill Action.* A Smooth, Easy Writing Pen. Its name well represents its qualities.

No. 8. Congress Pen. (New.) *Medium Flexible Point.* A *very* superior Pen for all styles of writing. This Pen undergoes a process that renders it non-corrosive and *three times* more durable than any ordinary steel Pen.

No. 9. Bank Pen. *Point Long and Flexible.* A great favorite with Accountants, Tellers, &c.

No. 10. Custom-House Pen. *Point Medium.* Well adapted to all styles of Bold-hand Writing.

No. 11. University Pen. *Point Medium, very Smooth and Flexible.* The action of this celebrated Pen is very fine.

No. 12. Epistolaire Pen. *Point very Fine and very Flexible.* This is the Finest Pointed Pen made, and for very Delicate Writing, Map and Fine Pen Drawing, it has no equal.

No. 13. Engrossing Pen. *Point Blunt and Smooth.* Particularly adapted to Coarse-hand Writing and Engrossing.

No. 14. Artistic Pen. *Flexible, with extra fine Point.* This Exquisite and Truly Celebrated Pen is the Best Pen extant for Fine Ornamental Writing.

No. 15. The Queen. *Point extra fine.* Admirably adapted to all kinds of Fine Writing.

☞ *Sample Cards containing all the FIFTEEN Numbers, securely enclosed, will be sent by mail on receipt of 25 cents.*

Patent Steam Railroad Water Station.

DISPENSES WITH Tanks, Tank Houses, Stationary Power, AND Attendance.

CAN NOT FREEZE IN ANY CLIMATE, UNDER ANY CIRCUMSTANCES.

COSTS LESS Than One Half the Price of a FROST PROOF TANK.

The Engineer in charge of the Locomotive attaches the Hose A to a steam valve in the boiler. Steam passed through the pipe D and slip joint F into the globe H, producing a vacuum; the water is then lifted through the pipes I I and forced through the column E and hose C into the tender, filling any ordinary tender in about three minutes. When steam is shut off all the water in the pipes returns into the well, and any condensed steam passes off through the drip valve G, leaving nothing to freeze. The handle B serves to turn the discharge pipe and hose in any direction. The water delivered into the tender is warm, thus utilizing the steam used. The discharge tubes, represented above made of hose, can be made of iron if preferred.

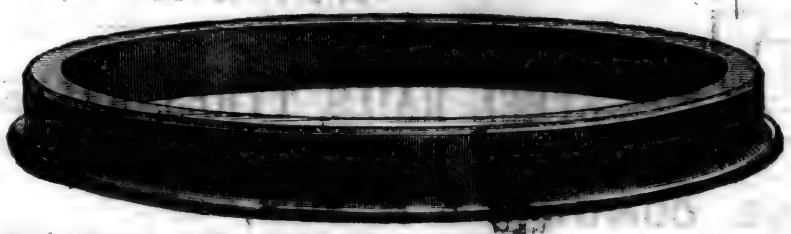
Boston and Albany Railroad.

The annual meeting of the stockholders of this company was held in Boston on the 10th inst. The seventh annual report of the directors, being for the year ending September 30, 1874, was presented, and on motion accepted and ordered to be placed on file. A full abstract of this report was given in the *Journal* of January 30. The following gentlemen were then elected directors for the ensuing year: Chester W. Chapin, Springfield; D. Waldo Lincoln, Worcester; Ignatius Sargent, Brookline; George O Crocker, New Bedford; Gurney Twichell, Brookline; Henry Colt, Pittsfield; Edward B. Gillett, Westfield; and Moses Kimball, Boston.

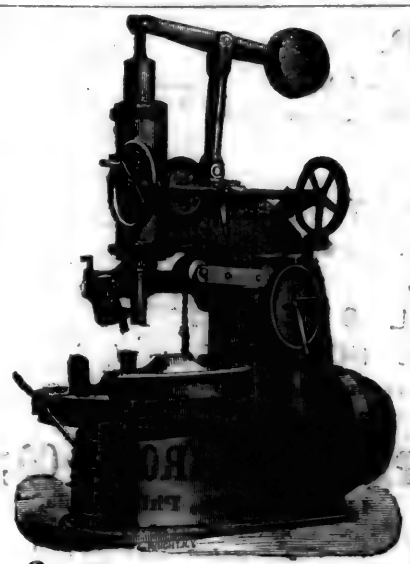
The President announced that the authority given the Directors to issue bonds had been exhausted, and that while they did not anticipated the necessity of expending any large additional sum, it was deemed expedient that they should have authority to issue $5,000,000 additional bonds, which would make the limit of the debt $10,000,000.

Mr. Geo. Gregg inquired to what extent the company had authority to issue bonds.



The President—To the extent of the capital stock, which is $20,000,000. The directors have fully considered this subject and recommend the adoption of the following vote which was offered by Mr. Gregg:

Voted, That the Directors be authorized to issue bonds of the company to an amount not exceeding five millions of dollars, at such times and in such manner as they may deem for the best interests of the company.



Mr. Chapin stated that the present indebtedness of the company was not far from $1,300,000. The principal expenditures to be made in the future will be for the completion of the depot in Worcester and the elevator in East Boston. The iron bridges and the steel rails will be the principal extraordinary expenditures for the coming year, and it would not require more than $2,000,000 to pay off the indebtedness of the coming year.

The resolution offered by Mr. Gregg was adopted, after which the meeting adjourned.

American Railroad Journal.

New York, Saturday, February 27, 1875.

The Pacific Railroads and the Government.

On the first of January last the amount of interest paid by the United States on the Bonds issued to the Pacific Railroad Companies was $26,264,102, of which $11,067,229 was to the Union Pacific Company, and $10,914,995 was to the Central Pacific, including the Western Pacific which is merged into it by consolidation. The repayments of all the Companies by transportation of mails, troops, supplies, &c., at the same date amounted to $5,602,165; of which $3,060,155 were by the Union Pacific, and $1,174,181 by the Central and Western. It was at one time claimed by the Secretary of the Treasury, and has frequently been asserted by newspapers, that the difference between the amount paid by the United States and the amounts repaid by the Companies in services, was a debt due by the latter and left unpaid by default. An attempt was made under Mr. Boutwell's charge of the Treasury to withhold the whole of the sums earned by the transportation of public material, instead of the one-half prescribed by law, on the ground of this neglected liability for interest.

The matter was referred to Congress, and the appropriate Committee, after referring to the law, found that the only authority therein was for withholding half, and so directed the payments to be made accordingly. The railroad companies contend that according to the terms and intent of the act, the bonds issued to the road are a loan to be repaid as specified in the act, and that there is no default or past-due liability existing on their part. The act of July 1, 1862, prescribes a repayment by the amount of transportation service rendered (which by an amendment of July 2, 1864, was limited to one-half,) and by five per cent. of the net earnings annually applied after the completion of the road, until said bonds and interest are paid. According to their construction, therefore, the amounts paid out by the United States as interest, over and above the repayments above described, are not of the nature of a matured debt, or a liability for which the creditor can have recourse to its mortgage security, until after the maturity of the principal.

The other item of five per cent. of net earnings has not yet begun to operate, as it is applicable only after the completion of the roads. After the connection had been made across the Continent, the Government Commissioners reported that the roads were not up to the first class standard required by law, and designated points where expenditure of more than a million dollars were to be added by each Company. Six months ago another set of commissioners reported that the conditions of the law had been complied with; that date may be taken as the official certification of the fact of completion in the eye of the law. The first annual application of net earnings has yet to become due.

By a decision of the Supreme Court, given elsewhere, it will be seen that the term "net earnings" is authoritatively given in its popular and lexical sense as the equivalent of net profit available for dividends; that is, after paying interest claims. By this construction the claim of net earnings against the Union Pacific would be about $56,000 for the coming year; while the average of government transportation has yielded about $382,000 per annum for the past five years. The offer of that Company to pay into the Treasury $500,000 per annum cannot therefore be regarded as illiberal or unfair.

In view of the fact that by the present plan the Central Pacific are only called upon to pay in services, an average of something like $205,000 per annum, and that the net earnings, though larger than those of the Union, cannot yield a very large sum, the proposition of this Company to pay over $400,000 yearly, to establish a sinking fund, which, with its accumulations, shall ultimately cancel and liquidate the whole claim, is exceedingly liberal and even favorable to the government; in so far as it secures a certain payment for an uncertain and indefinite one, and puts an end to the unseemly squabbles between the government officials and these great corporations, it is a desirable compromise.

☞ The annual report of the directors of the Dorchester and Delaware Railroad for the fiscal year ending October 31, 1874, being the ninth since the organization of the company, has just been given to the public. It appears that the receipts for the past year did not quite come up to the running expenses, and but for a surplus on hand for 1873, and some subscriptions to the capital stock paid in, there would have been a slight deficit. As it is there remains a slight overplus for the current year. The receipts amounted to $21,117 79, and the expenditures to $22,249 09. Passengers to the number of 12,033 passed over the road during the year, and freight to the amount of 18,975,163 pounds.

Buffalo and Lake Huron Railway.

The report of this company for the year ending December 31, 1874, states that the balance of revenue, including the balance from the previous half year, after providing for the payment of interest on the bonded debt, is £11,191, which will allow of a dividend of 4s. per share, free of income tax, carrying to the next half year £601. The Proprietors will observe on reference to the balance sheet, that the securities held by the company have been reduced by the sale of £1,400 Grand Trunk second equipment bonds. Bonds to the amount of £750,700 have been presented at the office of the company, and exchanged for the new series; leaving £13,058 yet to come in. The market value of the company's mortgage bonds gives strong hope that at an early date the directors will be able to redeem the 6 per cent series of bonds, as provided by the recent Act of Parliament. A reduction in the rate of interest to 5½ per cent would increase the dividends on the ordinary shares about 6d. per share per annum.

Fitchburg Railroad.

The receipts and expenditures of this road for the years ending September 30, 1873 and 1874, have been as follows:

Receipts:	1873.	1874.

The company have 54 locomotives, 69 passenger, 20 mail and baggage, 845 eight-wheel and 242 four-wheel merchandise, and 90 gravel and coal cars, and 10 snow plows. Number of miles run by passenger trains, 481,179, by freight trains, 423,596; by other trains, 18,104—total, 922,879. Length of main road operated, 136 miles. Length of double track road, belonging to the company 50.68 miles; length of Watertown Branch Railroad, belonging to the company, 6.60 miles; length of Lancaster and Sterling Branch Railroad, belonging to the company, 12.42 miles; length of Peterboro' and Shirley Railroad, belonging to the company, 23.62 miles; length of side and other tracks, belonging to the company, 40.53 miles—total length of tracks belonging to the company, 184.53. Length of Vermont and Massachusetts Railroad, leased, 80.11 miles; length of Troy and Greenfield Railroad, leased, 30 miles; length of side tracks on Vermont and Massachusetts Railroad, 11 miles. Total length of tracks operated, 305.64 miles. The report says:

The condition of the road and equipment has as usual improved during the past year, and the whole property of the corporation is generally in good working order.

In April last, agreeably with the vote of the stockholders, we issued and sold bonds payable in twenty years from date, and bearing seven per cent interest, to the amount of five hundred thousand dollars, and have paid all the unfunded debts of both our own corporation and of the Vermont and Massachusetts Railroad Company.

By a vote passed at the annual meeting of the stockholders on the twenty-eighth day of January, 1873, the directors were authorized to enter into negotiation with the Vermont and Massachusetts Railroad Company, for consolidation, lease, or purchase, and were also requested at any time during the proposed negotiation, to appoint from the stockholders a committee of an equal number with the directors, to act with them as a Committee of Conference.

After several interviews with the directors of the Vermont and Massachusetts Railroad Company, Messrs. C. A. Welch of Waltham, E. Murdock, jr., of Winchendon, Robert Codman of Boston, Daniel French of Waltham and George W. Gill of Worcester, were appointed from the stockholders, to act with the directors.

This joint committee had many meetings, and after full and careful consideration of the whole subject, unanimously agreed to recommend the stockholders to take a lease of the Vermont and Massachusetts Railroad, its branches, and all its property, for the term of nine hundred and ninety-nine years, from and after January 1st 1874.

A special meeting of the stockholders was called, December 31, 1873, to see if they would authorize the directors to take the proposed lease.

At this meeting the lease was read and approved, and the directors authorized to execute the same, by a stock vote of 24,741 in favor of the adoption of the lease, and of 52 against its adoption.

The lease is for 999 years at a rent of four per cent a year for the first two years, five per cent a year for the third and fourth years, and six per cent a year for the residue of the term.

The road thus leased extends from Fitchburg to Greenfield, a distance of fifty six miles, and has two branches, the Brattleboro' Branch, 21.31 miles, and the Turner's Falls Branch, 2.80 miles in length, together with 11 miles of side tracks, making in all 91.11 miles of single track; its equipment consists of 13 locomotives, 19 passenger cars, 7 mail and baggage cars, 155 8-wheel box freight cars, 120 8-wheel platform freight cars, and 2 snow-ploughs.

The general depression of business has materially reduced our gross income. Comparing this year with last year, the gross receipts from passenger business have decreased $40,496 87, and in freight business the same receipts have decreased $56,495 55, making a total decrease in passenger and freight receipts of $96,992 42.

Our expenditures have likewise diminished, and the results of the year's business show that the net earnings have decreased only $14,423 48.

In our last report, we stated that the Hoosac Tunnel would be completed during the coming summer. Unforeseen defects however have since been found in its roof, rendering necessary the construction of substantial brick arches for a considerable portion of its length; and this unexpected work will, according to present appearances, delay for many months the opening of this new avenue to the West.

The Legislature of last year left the tunnel problem unsolved, but we may well hope that they will decide, early in the coming season, all questions as to its management, operation, and connections. For a series of years, this company has been gradually providing for the extension of its business on the completion of the tunnel, by the purchase of land and wharves, as favorable opportunities afforded, by the erection of new wharves, stations, extensive cattle yards, &c., all of which have involved a large expenditure; and it has thus, for some years, carried a considerable amount of dead capital to meet the wants of the future, and also contributed to the tunnel by running for the last eight years the State railway extending to its portals, which has not thus far met its rent and expenses.

Several surveys have been made to ascertain what improvement can be made in our road; but as we depend entirely upon our present earnings to pay our dividends and the interest upon all expenditures, we cannot safely or intelligently make expensive changes, or add materially to our facilities for business, until after the State shall have determined its action respecting the Hoosac Tunnel and Troy and Greenfield Railroad.

We are prepared to recommend, for your sanction and adoption, any measure emanating from the State tending to promote the public welfare without jeopardizing your interests; and think that the expenditure and loss you have already incurred, in the promotion of a great public enterprise, should entitle you to the favorable consideration of the State.

President.—Wm. B. Stearns.

Directors.—Wm. B. Stearns, Charlestown; Alvah Crocker, Fitchburg; P. B. Brigham, Boston; Seth Bemis, Newton; Robert Codman, Boston.

Treasurer—M. D. Benson.

Superintendent.—C. L. Heywood.

☞ The Somerset and Mineral Point Railroad, a short branch of the Philadelphia, Wilmington and Baltimore Railway, from the latter place to the former, was purchased last fall at sheriff's sale by General A. H. Coffroth, of Somerset, for a company, which has elected the following officers: President General A. H. Coffroth, directors, M. A. Sanner, John H. Uhl, Wm. H. Koontz, H. L. Baer, Peter Heffley, and Isaac Kauffman; treasurer M. A. Sanner, secretary John H. Uhl. The amount of the capital stock of said company has been fixed at $300,000. The road cost the purchasers only $42,000.

☞ Articles of incorporation of the Bergen County Railroad Company, of New Jersey, were filed on the 19th inst. at Trenton. The proposed road is to extend from Rutherford Park Station to Ridgewood Station, in Bergen county, a distance of about 11 miles. The capital stock is $150,000, in shares of $100 each.

Central Pacific Railroad.

The following letter was received by the Secretary of the Treasury, at Washington, on the 18th inst.:

NEW YORK, Feb. 17, 1875.

Sir: The Directors of the Central Pacific Railroad Company have made a proposition to the United States Government to pay a certain sum annually, to be placed at interest as a sinking fund, to pay the amount that company received from the Government of the United States to aid in building its road under the acts of July 1, 1862, and July 2, 1864.

Now, while the managers of the Central Pacific Railroad Company would prefer to pay as required by the acts above named, rather than to advance any considerable amount of money more than is called for by said acts, if they could be allowed to do so without being annoyed by unfriendly legislation, or menaced by threats of such legislation, as has been the case since the completion of the road, still they would rather pay a fixed amount larger than has been earned and gone to the credit of the company up to this time, or is likely to in a year to come, than to suffer such annoyances as they have heretofore.

The Central Pacific Railroad Company will therefore, for the sake of having all parties satisfied, agree to pay, in lieu of the payment as now required by the acts of Congress before mentioned, $200,000 on the first day of October, 1875, and on the first day of April and October in each year thereafter until the amount compounded each six months shall liquidate the claim that the United States Government now has against the Central and Western Pacific Railroads (both roads being now consolidated under the name of the Central Pacific), the payment as above mentioned to be in full satisfaction of all unsettled questions between the United States Government and the Central Pacific Railroad Company.

I have the honor to be,
Very respectfully,
Your obedient servant,
(Signed) C. P. HUNTINGTON,
Vice President.

HON. B. H. BRISTOW, Secretary of the Treasury.

Union Pacific Railroad.

The following is the letter of Sidney Dillon, Esq., President of the Union Pacific Railroad Company, proposing a peaceful settlement of all outstanding differences between his company and the Treasury:

OFFICE OF THE U. P. R. R. Co.,
NEW YORK, Feb. 9, 1875.

HON. B. H. BRISTOW,
Secretary of the Treasury:

Sir: The existing relations between the Government and the Union Pacific Railroad Company are such as benefit neither party, and tend continually to the injury of both. The Government, in the prosecution of what it deems to be its just rights, has instituted legal proceedings against the Company for claims of different origin and widely divergent character, and those claims are about to undergo or have already undergone judicial determination. Nothing can be more distasteful to this Company than to have even the appearance of resisting a just demand of the Government. The directors, speaking for the stockholders, recognize and fully appreciate the great and generous aid extended by the Government to this magnificent enterprise, and it is their wish to do everything in their power to reimburse to the Government, so far as they can, and as speedily as may be, every dollar advanced from the National Treasury. The Company also feel very keenly the disadvantage they incur, both in popular esteem and in pecuniary resources, by being in seeming conflict with their great benefactor, the Government, and it is their most earnest desire to do everything they can to establish such relations of mutual trust and confidence as will best secure the demand of the Government, and at the same time, promote the prosperity of the Company; and by promoting the prosperity of the Company, I do not mean simply the enhancement of the value of the property, but such extension of its uses, resources, and facilities, as will most rapidly develop the great National domain which it traverses for a thousand miles. I would respectfully call your attention to the important fact that this great domain cannot be developed without increasing in value immensely the Government lands along the line of the road, and, in addition, increase the area of taxable property—a matter of vital importance to the whole country.

The mortgage held by the Government, in its terms and by judicial decision of the United States Circuit Court, cannot be enforced until the maturity of the bonds, which is near the close of the present century. The bonds are accumulating an interest account, also uncollectable until the principal is due. Principal and interest, when due, will amount to the very large aggregate of over $77,000,000, though the actual amount advanced by the Government was only $27,236,512. For this very large amount the Government has only a second mortgage, and if it be allowed to accumulate without any provision being make to meet it, the Company will probably be utterly unable to pay it. At the same time it is equally manifest that the Government will be unable to collect it, except upon the assumption that it will advance the money to discharge prior mortgages and run the road on Government account—a policy which wise statesmanship could not advise. By standing still, therefore, the Company has a load of debt accumulating for which no provision is made, and the Government is drifting further and further from the opportunity to secure a just return for its advances. To do nothing is to injure both the Government and the Company—perhaps irretrievably to both. In this dilemma I venture to make a propositton which offers on the part of the Company all it can possibly do, and secures to the Government a substantial return for its advances. It is as follows:

The Union Pacific Railroad Company proposes to pay into the Treasury of the United States $500,000 per annum on each first day of July, beginning with 1875, and to continue this payment for twenty years, and thereafter on each first day of July the payment shall be $750,000. And the money so paid in shall be held by the Secretary of the Treasury as a sinking fund to the credit of the Union Pacific Railroad Company, specially devoted to the extinction of the Government mortgage interest thereon so reckoned at six per cent per annum, lawful money, payable semi-annually and the accruing interest each half year to be carried to the account of the sinking fund to the credit of the Union Pacific Railroad Company. And this annual payment by the Union Pacific Railroad Company shall be continued without delay or default, until the amount to the credit of the Company in the hands of the Secretary of the Treasury shall be equal to the full amount of the Government mortgage, reckoned at simple interest to same date. The Government lien now existing to remain as security for the discharge of this obligation, and to be canceled when the sinking fund thus created shall equal the mortgage of the Government reckoned at simple interest; at which time said sinking fund shall be transferred to and shall vest in the United States. And this payment shall be in full discharge of all obligations due from the Company to the Government.

Should this suggestion meet with your approval, I would respectfully request, on behalf of the Company, that you lay the matter before Congress, with such favorable recommendation as you may deem expedient. The proposition is made with the sincerest desire on the part of the Company to respond most honorably to all obligations, and with the confident hope that the Government will accept it as the very largest annual amount which the Company can safely agree to pay. In addition to the substantial, complete and final reimbursement thus proposed by the Company, you will permit me to remind you of the vast saving to the national treasury which has been effected by the construction of the Union Pacific Railroad. The former cost to the Government for transportation of troops, and of quartermaster, commissary, and ordnance stores, and the carrying of the United States mails and Indian supplies across those vast plains and over the mountain ranges, was very great, involving an outlay of many millions annually. The same service at the railroad company's current rate of charges is now done with a saving to the Treasury, according to the official statements of the Executive Departments, of well nigh $2,000,000 annually, to say nothing of the superior safety, promptitude, celerity and certainty with which it is accomplished. Indeed, it is no exaggeration to say that if the Government should forfeit all it advanced toward the construction of the road, it would still realize large annual gain from the economy it has been enabled to effect in the different branches of the public service to which I have referred. I adduce these facts, fortified as they are by the report of the Government directors, to show that the Government, after it receives reimbursements of its direct pecuniary advances, will still have left an enduring source of profit to the Treasury and consequent relief to the tax payer in the very large amount that will be annually saved by the transportation facilities which this great line of railway will always afford. With great respect, &c.,

SIDNEY DILLON, President U. P. R. R.

Coal Fields of Great Britain.

The London Times says that the coal raised from the mines of the United Kingdom in 1873, amounting to 128,680,131 tons in all, and constituting the largest quantity ever produced in a year, came from the following districts:—62,102,866 tons, approaching half the entire quantity, was raised in the north of England, viz, in the Yorkshire district, Lancashire, and the four English counties north of these; 28,890,875 tons or between a fifth and a fourth of the whole, came from midland counties—Stafford, Derby, Nottingham, Worcester, Salop, Chester, Leicester, Warwick; 18,943,623 tons, nearly a ninth of the whole, from Wales, South Wales supplying not far from five-sixths of the Welsh coal; 6,749,264 tons, not quite a nineteenth of the whole, came from the southwestern district—Somerset, Devon, Gloucester, Monmouth; 16,857,772 tons, considerably over an eighth of the whole, from Scotland; 135,731 tons from Ireland.

Steel Rails.

The Chicago Railway Review is informed by the leading iron manufacturers and dealers in that city that there is a very large amount of inquiry for steel rails, and that the prospect of a good Spring business is excellent. A large number of companies will, it says, according to present appearances, take advantage of the low prices to relay tracks with steel rails.

Large quantities of steel rails are being gathered at Deposit, New York, by the Erie Railway to be used in laying their new track, the coming year.

Such is the demand upon the Schofield rolling mills, of Atlanta, Ga., for steel rails that the company will be obliged to enlarge their manufacturing facilities.

☞ Hon. J. D. Cox has been appointed receiver of the Toledo, Wabash and Western Railroad. The Court instructed that claims for labor, material and supplies furnished prior to date to order, shall be paid. This will give great satisfaction to employes and parties to whom the company is indebted for supplies.

Railroad Law.

HORSE RAILROAD COMPANIES—WHEN EXEMPLARY DAMAGES ALLOWED.

The interesting case of Hamilton *vs.* The Third Avenue R. R. Co., (53 N. Y., 25), is reviewed as follows by Judge GROVER of the Court of Appeals :

Questions of Law only can be reviewed by this Court in the present case. Other questions are not reviewable here upon the appeal from the order denying a new trial. The Special Term upon the motion, and the General Term upon the appeal from its order, had the power, and it was the duty of each, to examine and determine whether the verdict was against the weight of evidence and the justice of the case, and if of opinion that it was to set it aside and order a new trial. The further duty was incumbent upon them to examine whether upon the trial the defendant sustained any injury from the jury having been misled by any improper remarks of the Judge during the trial which were not excepted to or not the proper subject of an exception. But this Court has no such power. We can only examine the questions of law arising upon the exceptions taken during the trial.

The injury complained of by the plaintiff was his forcible ejection from a car of the defendant by the conductor for his refusal to pay fare demanded from him, to pay which he claimed he was not liable for the reason that he had taken passage upon another car of the defendant and paid the entire fare required to entitle him to a through passage to the City Hall, from which at an intermediate point he was transferred to the one in question by its conductor for the reason that that one for some cause stopped at some point and was not going through. It was not claimed by the plaintiff that any unnecessary force was used in putting him off the car, or that he sustained any material injury therefrom. The liability of the defendant for the act of the conductor is conceded by the counsel for the appellant. It was an act done within the scope of his authority from the defendant in the prosecution of its business intrusted to him, and if unlawful the defendant was liable therefor, although the conductor acted in good faith, believing that the plaintiff had no right to a passage unless he paid the fare demanded from him. A master is civilly liable for all acts done by his servant in the prosecution of the business of the master intrusted to him (Higgins *vs.* The Watervliet Turnpike, &c., Co., 46 N. Y., 23). It follows that if the plaintiff was entitled to a passage on the car in question without the payment of any additional fare his ejection therefrom was unlawful, and gave him the right to recover from the defendant the damages thereby sustained, irrespective of the motives of the conductor in putting him off. This right would not be impaired by showing that the conductor acted in good faith in the honest belief that the plaintiff had no such right, and that he was acting in the strict performance of his duties to the defendant. The act, nevertheless, was unlawful, and being so the plaintiff had a right to compensatory damages therefor. These included not only compensation for the loss of time and the amount the plaintiff was obliged to pay for passage upon another car, but in addition thereto, the injury done to his feelings might be taken into consideration by the jury and a suitable recompense given therefor. But the judge charged the jury that they might go further, and in addition to this give exemplary damages. To this an exception was taken by the defendant. From the charge it was clear what was intended by exemplary damages. That it was something beyond actual compensation to the plaintiff to be awarded upon public considerations as a punishment of the defendant for the wrong in the particular case, and for the protection of the public against the repetition of similar acts. Damages so given are termed exemplary, punitory, and vindictive, each meaning the same thing ; that is, something not given as his due but for the protection of the public. In this State the law may be regarded as settled, that for the prevention of fraud, malace or oppression the jury may give such damages in actions *ex delicto* as a punishment of the defendant and admonition to others, (Sedgwick on damages 5th ed., 517-534.)

The charge that such damages might be given in the present case presents two questions: First. Was the evidence such as to warrant such damages? If so, Second. Is a master liable to such damages for the wanton, malicious or outrageous conduct of his servant in which he has had no participation, of which at the time he had no knowledge or reason to apprehend, and to which he has given no sanction? It is obvious that no distinction can be made in respect to this liability, whether the master be a natural or artificial person. It will be proper to consider and determine, first, whether this was a case warranting exemplary damages; because, if not, the question as to the liability of the defendant therefor will not arise. The first inquiry is as to the facts of the case. For this purpose we need only look to the statement found in the charge upon which the jury were instructed that they were at liberty to give punitory damages. The judge says : "You have got to assume from the nature of the case that this conductor deemed himself in the line of the performance of his duty, and because it was not his duty, although it was in the line of his duty, because he was not justified from the fact that the man had paid his fare, is the whole point on which the plaintiff can recover exemplary damages ;" and then proceeds to state in substance that under these facts the amount of such damages should not be excessive. The meaning of the judge and the impression given to the jury is clear. It was, that although the conductor was ignorant that the plaintiff had paid his fare upon the other car, thereby entitling him to a passage upon the one in his charge without any further payment, and honestly believing that it was his duty to collect the usual fare, and upon the refusal of the plaintiff to pay it to put him off the car, using no unnecessary force, inflicting no particular injury, in as quiet a manner as possible, still it was a case in which the jury were at liberty to give exemplary damages. It has been seen that such damages are not given as compensation to the plaintiff. He is otherwise fully compensated. He has had complete justice done him already. The object of such damages is to punish the defendant and to restrain him and others from doing the like acts in future. But when there has been no intentional offence committed, when a party has only done what he honestly believed to be his duty, punishment is not deserved. There is no occasion for an example, for none is necessary. It is only to cases of moral wrong, recklessness or malice that this public consideration applies. In such cases the law uses the suit of a private party as an instrument of public protection, not for the sake of the suitor but for that of the public. It is not the form of the action that gives the right to the jury to give punitory damages, but the moral capability of the defendant. True, when a party unintentionally violates the legal rights of another he is civilly liable for all the damages resulting from the injury, but nothing more. It was upon this principle that it was provided by the Revised Statutes that a tender might be made where a trespass was casual and involuntary. This view is sustained by authority (See Sedgwick on damages, *supra*, and cases cited.)

I have carefully examined the testimony to see whether this error of the judge could be obviated. If the evidence proved that the conductor knew at the time he ejected the plaintiff from the car that he was entitled to passage from having paid therefor upon the other, and that consequently he had no right to eject him, a case for exemplary damages against him would have been established. But it does not, and therefore no case for exemplary damages, had the action been against the conductor, was established, and if not against him clearly not against the master. This renders it unnecessary to determine whether in case the conductor had done the act arbitrarily or maliciously, his master would have been liable to punitory damages therefor, as the judgment must be reversed irrespective of that question. That question will be determined seasonably when necessary to a disposition of the case.

Marietta and Cincinnati Railroad.

The annual meeting of the stockholders of this company was held in Cincinnati on the 17th of February, at which the following directors for 1875 were chosen : John King, Jr., Thos. Whitridge, John Donnell Smith, Allen A. Chapman and Robert Garrett, Baltimore, Md.; W. W. Scarborough, R. M. Bishop, James D. Lehmer and Nathaniel Wright, Cincinnati, Ohio ; W. T. McClintock and Wm. Waddle, Chillcothe, Ohio ; Wylie H. Oldham, Marietta, Ohio, and J. N. Camden, Parkersburg, West Va. The directors immediately organized as follows : President, John King, Jr. ; secretary and auditor, Charles Low ; cashier and registrar, W. E. Jones ; treasurer, W. B. Oldham.

The annual report of the president and directors was then read, showing the earnings of the road for 1874 to have been $2,094,510 61, against $2,126,874 73 for 1873, and $2,029,164 65 for 1872 whilst the expenses for 1874 were $1,571,359 89, against $1,694,335 71 for 1873, and $1,618,713 06 for 1872, showing the net earnings for 1874 to have been $523,150 75, against $432,589 02 for 1873, and $410,451 59 for 1872. The working expenses for the three years were as follows : For 1872, 79¾ per cent ; 1873, 79⅗ per cent ; 1874, 75 per cent.

The net earnings for 1874 show an increase of 17½ per cent as compared with 1873, and 21½ per cent as compared with 1872.

The revenue from passengers was $514,098 50. There was an increase in the number of through passengers of 5,257, and an increase in revenue of

$4,457 23. The increase in the number of local passengers was 37,121, and in revenue $6,718 95. The total number of passengers through and local was 607,503, an increase in the number of 43,046, and in revenue of $10,281 59 as compared with 1874.

The revenue from freight was $1,389,887 88. There was an increase of 13,275 tons of through freight transported, and a decrease in revenue of $121,990 39.

The depression in almost every description of trade, the natural result of the panic of 1873, the diminished European demand for the products of this country, and the consequent severe competition by all railways for the limited amount of trade offering, obliged this company to transport through freights at rates much lower than any previous year. That increased tonnage should be secured in a period of general dullness is remarkable.

If the rates of 1873, which were much lower than previous years, had been obtained, the revenues for 1874 from the transportation of through freights would have exceeded $132,746 79, the amount earned from this source. The increase of local freights transported was 22,852 tons, and the increase in revenue $4,260 82. The reduction in rates for transportation of iron, oil, and some other articles of heavy freight, made necessary because of the depression in those particular branches of trade, explains the slight increase of revenue as compared with the largely increased tonnage.

In July, 1873, the Postoffice Department decided to forward by this most direct route the principal Western and Southwestern mails, and required for this service daily two postal cars in each direction. The revenue for 1874 for the transportation of mails is stated at $115,060 13. Of this amount $27,673 was earned in six months ending December 31, 1873, but not included in the revenue of that year, as the additional compensation was not adjusted until the close of 1874. The receipts from express, telegraph and miscellaneous sources were $75,464 18.

The Baltimore Short Line Railway, which commences near Athens, Ohio, and terminates at Belpre, Ohio, opposite Parkersburg, West Virginia, is thirty miles in length, being a reduction of ten miles as compared with the old route via Scott's Landing. The completion of the Baltimore Short Line furnishes the last link in forming a perfect route between Baltimore, Washington and Cincinnati. To Washington the distance from Cincinnati via Parkersburg is 185 miles, and to Baltimore 67 miles shorter than the competing route by the Pennsylvania road via Pittsburg. From Cincinnati to New York via New York Central the distance is 882 miles, via Erie Railway 861 miles, via Pennsylvania Railroad 744 miles. To Baltimore via Baltimore Short Line the distance is 579 miles, being 250 miles less to the seaboard than the average distance to New York. From St. Louis the difference in favor of the Baltimore, as compared with the average distance to New York, is 220 miles, and from Louisville 256 miles. The superior location and excellent shipping facilities of Baltimore are attracting to that port a very large foreign trade, the benefits of which are shared by the Marietta and Cincinnati Company.

☞ The receipts of the Chesapeake and Ohio Railroad for the month of January were $87,676, about $10,000 more than for the same month last year, as follows: For passengers $22,628, freights $59,874, express $2,015, mails $3,129. The express train on this road has been discontinued, and will not run again before next summer.

☞ The President has approved the Act granting the right of way through the public lands from Winnemucca to the Columbia river to the Oregon Central Railroad.

New Railway in the Isle of Wight.

The railway between Newport and Sandown, in the Isle of Wight, was opened for traffic on the 1st of February. This line is a short one, being only eight miles and ten chains in length, but it supplies the required link between the Cowes and Newport line and the Ryde and Ventnor line, and will greatly facilitate the traffic between the west of England and the southern side of the Isle of Wight, for which the shortest route will now be via Southampton and Cowes. The line will also be useful for local traffic, giving access to Newport by rail from Ventnor, Ryde, and other towns on the existing line, which runs between Ryde and Ventnor. The traffic will be advantageously worked, as the Isle of Wight Railway Company have undertaken to work it for a fixed weekly sum, under the superintendence of Mr. Joseph Bourne, the resident engineer and general manager. The convenience of the public seems to have been very fairly considered, the service of trains, five in each direction, being a good one for the winter months. In the spring the number of trains will probably be increased to eight or ten.

Steam on the Canals.

The Baxter steam canal boats, according to the report of State Engineer Sweet, of New York have successfully solved the problem of rapid transit on canals. During the year 1874 the boats of the Baxter company made thirty nine round trips on the Erie canal from Buffalo to New York and back. The up freights amounted to 5,530,858 pounds of which the freight bills were $7,219 73 The down freights amounted to 15,740 236 pounds, freight bills $25,732 47. Total freights 21,271.094 pounds, total bills $33,052 20, tolls paid to the State $10,104 10, average time of round trip 15 days, coal consumed for each round trip 12 tons, cost of running per round trip $230 50. It is the intention of the company to increase its fleet on the Erie canal to one hundred boats during the coming year.

Finances of Virginia.

From a communication sent to the House of Delegates by the Second Auditor of the State of Virginia, in response to a resolution of that body, we learn that the aggregate amount of the accrued interest on all classes of the State debt from July 1, 1871, to and including January 1, 1875, at full interest of 5 and 6 per centum was $6,876,150 81. The amount of interest paid thereon or received in coupons for taxes to January 1, 1875, $3,643,920 69. The amount of accrued and unpaid interest on January 1, 1875, $2,732,230 12. The amount of interest due and unpaid to the literary fund January 1, 1875, $96,311 42. The amount of interest due and unpaid to the sinking fund on January 1, 1875, exclusive of interest on stocks held by the old sinking fund acquired previous to and during the war and awaiting the order of the General Assembly, $304,847 49.

☞ The earnings of the Chicago, Danville and Vincennes Railroad for the year ending December 31, 1874, were $745,063 94, the operating expenses $414,548 18, and the net earnings $330,515 76.

☞ Messrs. Turton & Knox, the contractors, broke ground on the Nevada Narrow Gauge Railroad at Colfax on the 11th inst.

A Foreign Financial Plan AMERICANIZED.

Ten Dollar Bonds.

POPULAR LOAN.

The Great Southern Railway Co.

(CONSOLIDATED)

UNDER CONSTRUCTION IN

GEORGIA & FLORIDA,

OFFER FOR SALE ITS

First Mortgage Land Grant and Premium Bonds.

Payment Secured by First Lien on 500 Miles of Railway, Equipment, Franchises, Steamers,

and

6,400,000 Acres

of selected Yellow Pine, Cedar, Live Oak, Cotton, Sugar, and other valuable Agricultural Lands. Also a Sinking Fund from Earnings of the Road.

Bonds Redeemed, with Premium, Six times in each year, beginning January, 1875.

Every Bond, when Redeemed, must receive a Premium from $1.00 to $50,000, besides the Original cost of the Bond.

The Company will receive the Bonds at par in payment for Land and for transportation of passengers and freight over its line.

The Great Southern Railway Company is incorporated by the Legislatures of Georgia and Florida. It is designed to connect the Railway system of the United States with Cuba and the other West India Islands, Southern Mexico, and Central America, the Panama Railway and South America. It is a direct, immediate, *and the only possible railway line*, stretching four hundred miles South of any other railroad, *between the temperate zone and the tropics of America*, between **50,000,000** people in the United States and Canada, and **40,000,000** in the West Indies, Central and South America.

It will reduce the water transportation between the Railroad system of the United States and Cuba **to a run of only Five Hours by Steamship,** *and to Southern Mexico, Central America and South America it will shorten the line* **Sixteen Hundred Miles** *over the route now generally traversed.*

In a Political and Military point of view, the importance of this line to the United States can hardly be overestimated.

In the transportation of **U. S. Mails, Express and Fast Freights, Military Stores and Supplies, Sea Island Cotton, Tropical Fruits, Market Gardening,** &c., it will do a larger business for the length of its line than any railway in the United States.

It will be a Commercial and Political bond of peace and amity between the people of North and South America.

HON. THOMAS W. OSBORN, *President.*
JAMES W. JOHNSON, *Treasurer.*
WM. F. WHEELER, *Secretary.*

From Herapath's Railway Journal.

Atlantic and Great Western Railway.

In our Journal of last week we extracted the principal parts of an official letter by Mr. Devereux, the Receiver of the line, addressed to Mr. Conybeare, conveying important information as to the position and prospects of the Company, together with Mr. Devereux's suggestion to the bondholders. Mr. Conybeare now sends us for publication a letter written by him to Mr. Devereux, and we comply by producing the following lengthy extracts from it. Mr. Conybeare deprecates, and so do we, any foreclosure, which would "wipe out" the 2nd and 3rd bondholders and the stockholders. He suggests that the line should for the present be carried on under a compromise resembling that which we advocated and which was adopted by the Grand Trunk of Canada Company in 1861—

To W. Devereux, Esq., Receiver of A. and G. W. Ry., Cleveland Ohio, U. S.

Dry Hill, Tonbridge, Jan. 25, 1875.

Dear Sir,—I and all other bondholders of the Atlantic and Great Western Railway are much indebted to you for the important information which you, as Receiver under the U. S. Courts, give us in your letter of the 4th instant, as to the present position of the Company. * *

The protective organization, which you and your former colleague in the Directorship of the Atlantic and Great Western, Mr. McFarlane, recommend the bondholders to institute without delay might have been organized before this time but for the intervention of the Council of Foreign Bondholders. Those gentlemen having stated that they were prepared to take the matter up, Atlantic and Great Western bondholders awaited their action. However, on the day before yesterday the Council of Foreign Bondholders decided to do nothing in the matter, consequently it is doubly incumbent on you, the Receiver of the road, and on the trustees of the property mortgaged, to secure the bondholders, to see that their interests are not sacrificed, if you can prevent it. I feel that the interests of bondholders would have been in greater jeopardy than they are in now, had it not been for your appointment as Receiver, and for the manner in which you and your former coadjutor, Mr. MacFarlane, have exerted yourselves to warn us of our danger, and to advise us to adopt protective measures. Until such measures can be duly organized, I must on behalf of myself and the mortgage bondholders of all classes (for whom the trustees and the Receiver hold and work the road) beg you to do everything which our interests require, so far as the rules of American law applicable to insolvent railroads enable you to do so.

I should point out that there is a strong feeling here against any foreclosure by the first mortgage bondholders, which would "wipe out" the holders of the subsequent bonds and the stockholders. There is also a great dread of the expense of reorganization. * * Would it not be possible (subject to the prior claim of the old bondholders of the Ohio section) for you, as Receiver, to work the line, say for the next three years, on the basis of the existing reorganization? I am not myself so sanguine as to suppose that the Company will ever be able to pay the interest on all its bonds. But the road has never yet had a fair chance. * * Moreover America has for the last twelve months been staggering under the consequences of a financial crisis, from which its trade is only just recovering. Three years of honest working under an able receiver would do much to prove the real revenue earning capacities of the road; and, during that period, litigation by bondholders (other than those of the Ohio section) might be restrained, as was done for ten years in the case of the Grand Trunk of Canada Railway; and the bondholders should during such three years be paid in cash, so far as revenue will permit, the balance due on the first and second mortgage coupons being paid in paper, as was done in the case of the Grand Trunk of Canada.

Such a plan would preserve all existing rights and priorities, would avoid the difficulty arising from the proper objections of the American Courts to reorganize on a nominal amount of capital known to be far beyond the actual cost of the road, and beyond its capacities of paying interest or dividend, and would also prevent the further discredit, in which any immediate and disastrous reorganization, following so close on the discredited reorganization of 1871, would involve American railroad securities generally, in the eyes of the large class of imperfectly informed English and other European investors.

Will you inform us bondholders if anything of this kind would be feasible? and believe me, with best thanks, yours very faithfully,

JOHN C. CONYBEARE,
(Chairman of the July Committee of First Mortgage Bondholders)

Dominion Telegraph Co.

At the annual meeting of the stockholders of this company, held in Toronto on the 10th of February, the annual report of the directors was presented, from which we make the following extract:

The lines built during the past year consist of: From Peterboro' to Prescott, Lindsay to Bobcaygeon, Aylmer to Portage du Fort, Seaforth to Listowel, Listowel to Harriston, St. Thomas and Tilsonburg to Fort Burwell, Hamilton to Port Dover, Harriston to Wingham, Toronto to Whitby, Toronto to Weston, and St. Catharines to Niagara. These with the extra wires that have been strung from Prescott to Ottawa and Montreal, not only greatly increase our capacity, but also gives us an entire new route to these important points, in all exceeding 517 miles of pole line and 1,239 miles of wire. These additions bring up the total pole mileage to 3,102 miles, with 5,807 miles of wire, and 305 offices.

The further extension of the Company's lines recommended by the General Manager to be made in the Provinces of Ontario and Quebec during the present year, will absorb about $100,000.

The operations of the Company in the Dominion of Canada have hitherto been confined to these two Provinces. Should the Company succeed in forming a through cable connection with England and Europe via the Maritime Provinces, a very valuable new field for the Company's operations will have been secured, and special provisions will have to be made to carry on the work.

We are happy to be able to announce that we have secured, at a very reasonable figure, the use of D'Infreoille's Duplex, which has been in successful operation on our lines between Montreal and Toronto and Toronto and Buffalo for some time past. The adoption of this will enable us to double the capacity of our trunk lines at every little extra expense.

☞ The first invoice of iron rails—300 tons—for the Stockton and Ione Narrow Gauge Railroad, arrived at Stockton, Cal., on the 12th inst.

☞ The Guaymas and Tucson Railroad is now regarded as assured of success. Surveys will commence soon after the first of April.

American Railroad Journal.

Saturday, February 27, 1875.

Financial and Commercial Affairs.

The Money market has been well supplied with funds throughout the week, so that responsible borrowers have found no difficulty in obtaining all necessary aid at the previously current quotations of 2@4, generally at 2½@3 per cent on call; and 4@6 per cent per annum, in the line of the best discount applications. The demand from all sources has been fair, but not, in any prominent instance, urgent. Lenders have been unusually liberal in their offerings of prompt accommodation at the ruling figures. The City Bank line of loans and discounts was augmented considerably, while the averages of other leading items were reduced. The Sub Treasury cash balances—coin and currency—were handsomely enlarged, the coin reserve gaining largely from the increased customs revenue of the port. The City banks last week reduced their reserve of legal tender notes $2,254 600, and their deposit item $2,608,500 while also diminishing their specie average $3,210,100. They report a further increase of $1,738,900 in the loans and discounts and a decrease of $928,500 in their circulation. The U. S. Sub-Treasury in this city closed the week with a currency balance of $50,032,145, against $49,313,683, the preceding week; and a coin board of $46,910,674, against $44,873,189, on the previous return. The City bank exchanges in currency during the week, were $437,489,085, or a daily average of $72,914,847. The customs revenue of the port, during the week, was $3,331,000. The City banks reported their average of gold last week at $12,654,200, and their greenback average at $54,892,800. Their deposits stood at $236,223,800. The loan item was $294,850,100. The circulation was $22,584,400.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of only $7,991,050.

The aggregate of the outstanding U. S. currency, of all denominations, Feb. 1, was $427,109,222, The outstanding amount of legal tender notes is 382 millions. The National bank circulation is now $344,464,477.

The U. S. Treasury balances on Tuesday were as follows: Currency, $6,678,475; special deposit of legal tenders for redemption of certificates of deposit, $50,755,000; coin, (including $21,724,900 in coin certificates,) $70,610,776.

Gold has been less confidently dealt in, the speculative demand having been much less animated, and the export drain comparatively unimportant. The customs call has been more active, and this has told on the specie reserve of the City banks. The price of Gold has been ruling lower. The later dealings indicated very little spirit. The extremes of the week have been 114⅜@115¼ closing on Wednesday at 114⅜ as against 115 on Wednesday of the preceding week. The specie outflow last week was only $511,839. The imports of specie at this port since Jan. 1, have been $158,191 against $928,666 same time last year. The customs demand for Gold last week averaged $555,512 a day. Foreign Exchange has recovered from the extraordinary depression of last week as to prices, but has been comparatively quiet. Bankers' sixty day bills on London closed on Wednesday at $4 82@$4 83¼; sight bills on London at 4 85¾@$4 87 to the £ sterling on a very limited inquiry. The week's exports of Domestic Produce have been to the currency value of $5,133,631.

The import entries of Foreign Merchandise at New York, including dry goods, amount for the past week to $7,974,703.

The income of the Government, from internal revenues, thus far, in the fiscal year, commencing with July 1, 1874, has been 71½ millions.

Government Securities have been in moderate request, as a rule, chiefly on investment account, at generally steady rates. The latest dealings indicated some improvement in prices.

A moderately active business has been reported, since our last, at the Stock Exchange in Railway and miscellaneous share property, with however, a variable and a depressed and irregular market, closing with some manifestation of firmness on the more active stocks. State and Railway bonds have been quite moderately inquired for at about previous quotations for the more substantial loans.

U. S sixes of 1881 closed on Wednesday of this week at 119⅞@120¼; U. S. Five-Twenties of 1862, at 116¾@117; U. S. Five-Twenties of 1864 at 117¾@178; U. S. Five-Twenties of 1865 119¾@120; U. S. Five-Twenties of 1865 consolidated, 118⅝@118⅞; U. S. Five-Twenties of 1867, 119⅝@119⅞; U. S. Five-Twenties of 1868, 119¾@120; U. S. Ten-forties at 117¼@117½; U. S. Fives of 1881, (Funding Loan) 115@115¼; Six per cent. currency Sixes from 119¼@119½.

Attention is invited to the circular issued to the bondholders of the Union Pacific Railroad Company by its President, Mr. Sidney Dillon, to be found in another column. The document sets forth the success which has attended the conversion of the income into sinking fund bonds, and the steady enhancement of the value of the new issue. A tabular statement is given which shows that the gross receipts have increased from $7,625,277 in 1870 to $10,599,880 in 1874.

Business in Produce and Merchandise shows more animation; favored, in part, by the milder weather. Breadstuffs, Cotton, Provisions, and Naval Stores have been more sought after, and held with more confidence, in the leading instances. Groceries, Oils, Petroleum, Fruit, Tobacco, Hides, and East India Goods, in limited request. Wool, in moderate demand. American Gas Coal, decidedly more active, but at lower rates. In the line of Hardware, Dry Goods, Boots and Shoes, Fish, and Leather, freer movements have been reported at essentially unchanged prices. Metals have been inactive, but held firmly. American Pig Iron, quoted higher. Eglinton Pig Iron quoted from yard at $33@$34; Glengarnock, $36; No. 1 American Pig at $28@$30; No. 2 do. at $25 50@$27; Forge, $23@$27; English Rails at $48@$50, gold; American Rails at works, $50@$52 50; Old Rails, $30@$35. Wrought Scrap, $28@$35. Ocean freights have been more active and generally quoted firmer, in the line of berth room.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

☞ The survey for a canal route across the Isthmus of Panama is progressing favorably under the direction of Captain Sult. A much lower summit level than that of the railroad, which is only 262 feet, has been found.

☞ The grading for a third track between Gallitzin and Cresson on the Pennsylvania Railroad, a distance of three miles, is under contract. The contract has been given to the Messrs. Campbell, of Altoona.

Union Pacific Railroad Company.

PRESIDENT'S OFFICE, No. 23 NASSAU ST., NEW YORK, Feb. 24, 1875.

To the Bondholders of the Union Pacific Railroad Company:

In view of the late gratifying success of the Union Pacific Railroad Company in refunding an important amount of its bonded debt, the President feels it proper that he should acquaint the bondholders with the facts bearing upon that negotiation and the business and future prospects of the company.

Of the $10,000,000 of income bonds which the company offered to convert into sinking fund bonds, there are outstanding now only about $250,000, the balance of $9,750,000, having been exchanged for the sinking fund issue. And the company has information showing that the major portion of this small unconverted balance belongs to estates in litigation or otherwise in dispute. The President has much pleasure in announcing this virtual completion of the conversion of the income into the sinking fund bonds, and in calling attention to the steady enhancement in the value of the new issue, as realizing the expectations held out to the bondholders while the conversion was in process last Fall.

It may be proper to explain that the sinking fund bonds are a second mortgage on the entire lands of the company, and a third mortgage on the whole road and its equipment. As the land grant bonds are retired, the security for the sinking fund issue becomes more complete and valuable; and the rapid progress made in the liquidation of the land grants makes it evident that, at a comparatively early day, the sinking funds will become the first lien upon the immense land grant of the company. Of the original issue of $10,400,000 of land grant bonds, $2,484,000 had been canceled up to Jan. 1, 1875, leaving $7,916,000 outstanding at that date. The company has now on hand $2,791,133 of land notes, to be applied at maturity toward further cancelations of land grant bonds. It will thus be apparent to the holders of the sinking fund bonds that the time is not distant when they will hold a first mortgage upon this valuable portion of the company's property. After the land grant bonds are extinguished, the proceeds of the sales of land will be applied to the purchase and cancelation of the sinking fund bonds.

The prospective value of this lien may be inferred from the following facts: Up to Jan. 1, 1875, the company had sold 1,084,481 acres of its lands, for which it realized $4,940,052, being an average per acre of $4 55, and yet there remains unsold 10,995,088 acres, or over ten times the quantity already marketed at the value noted. Hitherto the company has pursued the policy of selling only its agricultural lands, from the conviction that the first thing to be done is to encourage settlement on the line of the road. The large and growing local traffic of the road shows the wisdom of this policy. The retention of the mineral lands in the hands of the company has proved to be eminently to its advantage, as it is now ascertained beyond all doubt that these lands contain large deposits of coal, iron ore, sulphur, &c., of immense prospective value.

The late decrease in the tide of immigration has not affected the demand for the company's lands The satisfactory accounts sent by settlers to their friends induce others to join them, and several colonies of farmers are expected in the Spring. One fact of great importance in connection with the new population on the line of the road is that it consists almost entirely of the best class of settlers.

The coal mining on the lands of the company is becoming very important. Coal is now mined at a cost of less than $2 per ton; which not only enables the company to supply the population along the route at comparatively low prices, but also effects a very important economy in the cost of running the road and supplying fuel for the company's workshops. The coal mines will ultimately supply fuel for the entire population on the line of the road, as they already supply the smelting furnaces of Utah. It is only necessary to cite the cases of immense wealth realized by the coal railroads in other States to show what is implied in this company owning the coal supply for the vast future population of the plains and of the Pacific Coast.

The increasing bullion traffic of the road is becoming a very important source of revenue. The amount of ore and bullion received at Omaha for the year 1873 was $21,500,000, and for last year $41,900,000, showing a doubling of the business within one year. The value of this traffic will be apparent when it is considered that the road has to carry supplies to the mines and to bring back the ores.

The President has much satisfaction in pointing to the steady increase in the gross earnings as showing the prosperity of the Company. The receipts have increased from $7,625,277 in 1870 to $10,599,880 in 1874. The yearly progress in earnings is shown by the following figures:

1870	$7,625,277
1871	7,521,682
1872	8,892,605
1873	10,266,103
1874	10,599,880

The increase in 1874, a year of great commercial depression and of general decline in the earnings of Eastern roads, is especially gratifying; and the improvement applies to the net earnings as well as the gross. The company is free from the depressing effects of the violent competition which is waged between the roads of the East and of the West. The raising of the road bed on the plains has protected the company against the interruptions and the detentions to which it was formerly subjected during the Winter months, so that this year there has not occurred one case of delay by snow storms. Large expenses were incurred last year for filling trestle bridges, raising track, and building a rolling mill; but the construction account being closed these outlays were charged to operating expenses, and yet the net earnings for the year show an increase, and leave a very handsome surplus after providing for interest on the bonded debt.

The President respectfully submits to the bondholders that the foregoing facts warrant the steady rise in market value of the First Mortgage, Land Grant, and Sinking Fund Bonds, and afford ample grounds for confidence that the various issues of this company must take a foremost rank, among the railroad investments of the United States.

SIDNFY DILLON, President.

FISK & HATCH,

Bankers,

5 Nassau St., N. Y.

U. S. Government Bonds of all issues and denominations bought and sold direct at current market rates, in large or small amounts to suit all classes of investors and Institutions, and for immediate delivery; and all business connected with investments in Government Bonds, transfers of Registered Certificates, Exchange of Coupon Bonds for Registered, Collection of interest, &c., attended to on favorable terms.

All other marketable Stocks and Bonds bought and sold on Commission; Gold Coupons and American and foreign Coin bought and sold; approved deposit accounts received.

FISK & HATCH.

Shall Congress Crush American Steamships?

Supposing all to be true which has thus far been brought to light by the Investigating Committee, in regard to the unhappy mal-administration of Pacific Mail affairs by its former officers, we fail to see the slightest cause for abrogating the contract whereby the company was led to build steamships and make other outlays for this service. It is the national desire that our commerce with Eastern Asia should be developed far beyond its present dimensions; but to withhold the compensation agreed upon for carrying our mails to those countries would be not merely an act of bad faith, but also a piece of suicidal policy. It would result in throwing our China and Japan carrying trade largely into foreign hands. And even if another American line were immediately put on, it is undignified and vindictive on the part of the Government to aid one class of speculators at the expense of those who are really doing the best service to American trade of which any corporation can boast at the present time.

The Coal Trade.

The Philadelphia *Ledger* reports the entire anthracite coal tonnage for the week ending on the 18th inst., at 128,504, against 221,672 in corresponding week last year, and 1,461,324 for the new year against 1,794,543 to same date in 1874. The bituminous tonnage for the week is 36,688 tons, and for the year 202,292 tons, against 208,988 tons to corresponding date last year. The total of both kinds of coal for the week is 165,187 tons, and for the year 1,663,616 tons, against 2,003,481 tons to same time in 1874, being a decrease of 339,865 tons. The quantity of coal and coke transported over the Pennsylvania Railroad for the week was 56,749 tons, and for the year 288,568 tons. Of this aggregate 233,554 tons were coal and 55,012 tons coke. This table embraces all the coal carried over the road, both anthracite and bituminous, east and west. At Port Richmond for the week ending the 20th instant there were no receipts of coal and the shipments but 5000 tons, leaving 70,500 tons on hand.

☞ The earnings of the Philadelphia and Erie Railroad for the month of January, 1875, were $195,606 61, the expenses $151,818 24, and the net proceeds $43,788 37.

Northern (Canada) Railway.

The following is an extract from the report of the directors of this company presented at the annual meeting of the shareholders held at Toronto on the 10th of February.

The gross receipts for the year of the main line have been $816,936 65 (£167,863 13s. 11d. stg.), against $841,588 62 (£172,929 8s 4d stg.) in 1873, showing a decline of $24,651 97 (£5,065 9s 5d stg.) or 2.94 per cent, a decrease wholly explained by the depression of the American markets in the main staples of the line, and which, in their report for 1863, the Directors indicated as probable.

The decline in the earnings of the Main Line have, however, in a great measure been compensated by the increased revenues of the leased lines, the income of which, in 1874 has been $79,157 22 (£16,265 3s 7d stg.), as against $60,222 91 in 1873, (£12,374 11s 5d stg.), showing an advance of $18,934 31 (£3,890 12s 2d stg.) or 31.44 per cent.

The aggregate gross earnings of the whole system have accordingly been $896,093 87 (£184,128 17s. 6d. stg.), as against $901,811 53 (£185,303 14s. 9d. stg.) in 1872, showing a decline of only $5,717 66 (£1,174 17s, 3d. stg.) or somewhat less than two thirds of one per cent., an amount quite unimportant and altogether below the average depreciation of traffic on other Canadian and American lines due to the exceptional condition and general depression of trade during the year.

The ordinary working expenses of the year have amounted to $570,504 46 (£117.226 18s 10d stg.) against $590,023 90 (£121 237 15s. 9d. stg.) in 1873, being at the rate of 63.66 in 1874, against 65.42 per cent. in 1873; or a decrease af 1.76 per cent. in favor of the past year.

The returns of the train mileage for 1874, and the comparison of the same with 1873, show the following results:

	1874.	1873.
Total train mileage..... 609,307		631,899
Trains run in Company's working services.....	57,667	72,123
Balance run in working traffic for earnings..... 551,640		559,776

Supreme Court Decision on Net Earnings as applied to Preferred Stocks

The decision given by the United States Supreme Court in the case of Thomas St. John vs. The Erie Railway Company is likely to form a celebrated precedent in railroad cases. It has very naturally excited great attention among railroad men all over the country, for it materially affects many existing contracts. For instance, it is said that the Union Pacific Railroad Company will save over $2,000,000 a year in their payments to the Government by this decision—that is, the authoritative construction of the phrase "net earnings" will render them liable to pay less by that amount on account of Government claims. The decision being of so much importance, we republish below the material portion of it:

The preferred dividends were to be paid out of "the net earnings of the road." The lexical definition of net is "clear of all charges and deductions."—Webster. "That which remains after the deduction of all charges or outlay, as net profit."—Worcester. The popular acceptation of the term is the same. There is no controversy between the parties on this subject. Such net earnings must have been earned in "the current year." There are these four specific limitations. There are no others. It is not said that the preferred dividends shall be paid next after the mortgage interest and delayed coupons, nor after nor pro rata with anything else, nor before anything else except dividends upon the common stock. Beyond the four restrictions named, the matter is left to be regulated wholly by the principles of law and the discretion of the company. Suppose in this case the holders of coupons of the sterling bonds and the holders of preferred stock claimed payment at the same time, and the fund was insufficient to meet both demands, can it be doubted that the rights of the creditor would be held paramount to those of the shareholder; and that the interest must be fully satisfied before a dividend could be paid? The plainest principles of reason and justice as well as the law would require this result. A question is raised as to the source to which the phrase "net earnings of the road" refers. The term "road" is used as an appellative, and was clearly intended to include the principal road and all its adjuncts. The complainant insists that the "net earnings" must be the net earnings of things as they were when the preferred stock was issued. We find nothing in the case, express or implied, to warrant this view. At the time referred to the company held certain leases. If it was deemed best, and was found practicable, could not the company have rid itself of them? If the complainant's view be correct this could not be done, at any rate not without the consent of the preferred stockholders. So if the company deemed it proper to take leases of other roads, in addition to those previously held, or in place of them, what was there to prevent it? Upon what ground can it be claimed that the category "net earnings of the road" was not intended to embrace the net earnings of the business of the company for the time being, whether done upon one or many roads?

There is nothing in the agreement or the statute, and we are aware of no legal principle which would authorize the stockholders in question to analyze the business, select out a part of it, and to say that the net earnings specified must be a predicate of that part and of none other. The company had the right to conduct its operations in good faith, as it might see fit; and it was from them and all of them that the materials for the computations of earnings were to be derived.

The only qualification prescribed in this connection is not as to the scope, means, or elements of the business, but is one in point of time. The net earnings from which the preferred dividends were to be paid must have been earned "in the current year" Whether the business of such year was large or small, or of what it consisted, is immaterial. The corporation never agreed to be limited in the exercise of its faculties and franchises, and the complainant must abide the result. If errors were committed and a loss ensued a court of equity cannot relieve him. It is one of the chances of the enterprise in which he embarked.

The business of the road was a unit. If it had been disintegrated, as proposed by the complainant, we apprehend it would have been found that the correlations of the main stem and the branches were such, and that the expenses and charges incident to the entire business and those of the several parts were so interwoven and blended, that an accurate ascertainment of the net profit of the main line and any of the auxiliaries, taken separately from the rest, would have been impracticable. An ancillary road may be short and yield but little income, and yet by reason of its reaching to coal fields or from other local causes, its contributions to other roads of the series may be very large and profitable. Whether in this case the partial computation insisted upon could or could not have been made, the process was one upon which the company was neither bound nor had the right to enter.

We hold that the computation by the company for the year 1868 was made upon the proper basis, and that the complainant is concluded in it. We are of the opinion that the rents for that year, accruing under leases taken by the company after the issuing of this preferred stock, and the interest upon the sterling bonds for that year were properly paid, and that there were no net earnings earned in that year which could be properly applied in payment of preferred dividends. These views are fatal to the complainant's case. We have carefully examined all the authorities referred to by the learned counsel. None of them are in hostility to the conclusions at which we have arrived.

The decree of the Circuit Court is affirmed.

☞ The Montreal Chambly and Sorel Railway Bridge over the Richelieu River has been finished, as also the bridge across the Chambly Canal, while the road from Chambly to the boundary line is partly graded. The section of the road between St. Lambert and Chambly has been in active operation since completion, and 18,310 passengers have been carried, besides 1,386 tons of freight. Total receipts $10,118. The masonry and station work on the road between the Provnce Line and Chambly is well advenced, and the directors hope shortly to obtain joint use of the Victoria Bridge. This road will be part of a great trunk route between Boston, Portland and Montreal.

☞ In accordance with the requirement of the charter of the Frederick and Pennsylvania Line Railroad Company, to preserve its organization, the following gentlemen have been elected by the Frederick councils city directors for the ensuing year: Col. Charles E. Trail, John Reifsnider, Jonathan Routzahn, D. C. Winebrener, and J. A. Ritter. The Pennsylvania Railroad Company have not as yet taken formal possession of the road although they have an agency there.

OFFICE PENNSYLVANIA RAILROAD CO.,
PHILADELPHIA, January 11, 1875.

NOTICE IS HEREBY GIVEN THAT THE Pennsylvania Railroad Company will pay, upon presentation, before March 6, 1875, their Scrip issued for the dividend December 6, 1873, at par, and accrued interest thereon to date of presentation.

On the 6th of March, 1875, this Scrip will cease to bear interest, and the Company will pay all that may then be outstanding.

Manufactory of the Spencerian Steel Pens, Birmingham, England.

SPENCERIAN

DOUBLE ELASTIC

STEEL PENS

The superiority and excellence of these justly celebrated Pens, are appreciated, as is shown in their constantly increasing sale. They are comprised in 15 numbers, of which *one number* alone has an annual sale of more than

5,000,000.

The *Spencerian Pens* are manufactured of the very best material by the most expert workmen in Europe, and are famous for their elasticity, durability, and evenness of point. &c.

The Spencerian Pens are for Sale by all Dealers.

We make Fifteen Numbers of Pens, differing in flexibility and fineness of point, adapted to every style of writing, as follows:

No. 1. College Pen. *Point Fine; Action Perfect.* This is a great favorite with our leading penmen, is largely used in the Schools and Commercial Colleges throughout the country, and gives better satisfaction than any Pen before the American Public.

No. 2. Counting-House Pen. *Point Fine and Flexible,* well adapted to the use of Correspondents and Accountants.

No. 3. Commercial Pen. *Point Medium.* An Easy Writing Business Pen.

No. 4. Ladies' Extra Pen. *Point Extra Fine and Flexible.* For Delicate Fine Hand Writing this is a very superior Pen.

No. 5. School Pen. *Point Fine, Medium in Flexibility.* For a durable School Pen it has never been equaled.

No. 6. Flourishing Pen. *Point Long, Flexible and Medium in Fineness.* For Off-hand Flourishing.

No. 7. Quill Pen. *Point Medium, Quill Action.* A Smooth, Easy Writing Pen. Its name well represents its qualities.

No. 8. Congress Pen. (New.) *Medium Flexible Point.* A very superior Pen for all styles of writing. This Pen undergoes a process that renders it non-corrosive and *three times* more durable than any ordinary steel Pen.

No. 9. Bank Pen. *Point Long and Flexible.* A great favorite with Accountants, Tellers, &c.

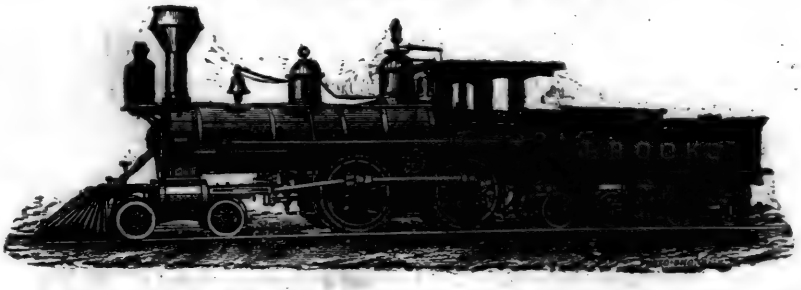
No. 10. Custom-House Pen. *Point Medium.* Well adapted to all styles of Bold-hand Writing.

No. 11. University Pen. *Point Medium, very Smooth and Flexible.* The action of this celebrated Pen is very fine.

No. 12. Epistolaire Pen. *Point very Fine and very Flexible.* This is the Finest Pointed Pen made, and for very Delicate Writing, Map and Fine Pen Drawing, it has no equal.

No. 13. Engrossing Pen. *Point Blunt and Smooth.* Particularly adapted to Coarse-hand Writing and Engrossing.

No. 14. Artistic Pen. *Flexible, with extra fine Point.* This Exquisite and Truly Celebrated Pen is the Best Pen extant for Fine Ornamental Writing.



No. 15. The Queen. *Point extra fine.* Admirably adapted to all kinds of Fine Writing.

☞ *Sample Cards containing all the FIFTEEN Numbers, securely enclosed, will be sent by mail on receipt of 25 cents.*

Dallas and Wichita Railway.

The officers of this company, recently elected, are: J. W. Calder, President; J. C. McCoy, Vice President; F. M. Hammond, Secretary; J. M. McCoy, Treasurer; J. A. Bullin, Superintendent; Henry McLaughlin, Chief Engineer; Attorneys, McCoy & McCoy. The Dallas Commercial says:

Work on the above road is proceeding with all the energy that the contractors can bring to bear upon it. The contractors, Messrs. Pointer, Shields & Co., are doing everything in their power that may forward the completion, and the second division of five miles is completed in the way of bridging and grading. The work, so far, is reported as being of the finest order, and will compare favorably with the best roads in the country. We will soon have iron, copper and coal brought to our city from their native beds, and then we will rear up factories for smelting, etc., which will bring in unbounded wealth.

☞ At a recent railroad meeting at Walla Walla, Washington Territory, committees from the various districts were appointed to solicit subscriptions toward the completion of the Valley Railroad. Great interest is manifested and donations are liberal.

The Engineer in charge of the Locomotive attaches the Hose A to a steam valve in the boiler. Steam passed through the pipe D and slip joint F into the globe H, producing a vacuum; the water is then lifted through the pipes I I and forced through the column E and hose C into the tender, filling any ordinary tender in about three minutes. When steam is shut off all the water in the pipes returns into the well, and any condensed steam passes off through the drip valve G, leaving nothing to freeze. The handle B serves to turn the discharge pipe and hose in any direction. The water delivered into the tender is warm, thus utilizing the steam used. The discharge tubes, represented above made of hose, can be made of iron if preferred.

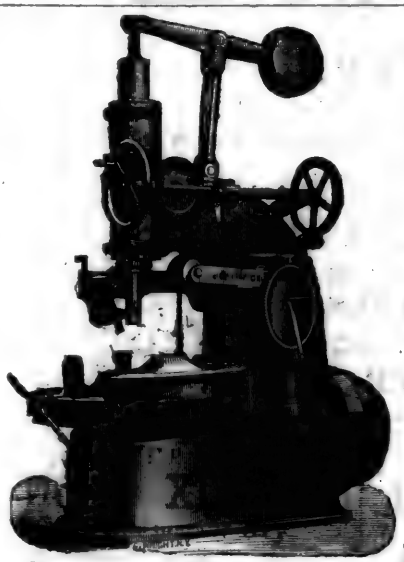
Canada Pacific Railway.

From the Report of the Minister of Public Works for 1874, just laid before Parliament, we learn that the survey of the Pacific Railway has been divided into three sections, as follows: the Eastern or Woodland section, extending from Ottawa to Manitoba; the Central or Prairie section, extending from Manitoba to the Rocky Mountains; and the Western or Mountain section, extending to the Pacific coast.



In the Eastern section three practicable routes have been found. The first passes north of Lake Nepigon, a branch being necessary to Red Rock on Nepigon Bay, or to Prince Arthur as may be determined, the distances being 1,152 miles to the former, and 1,197 to the latter port. The second route passes south of Nepigon, with branch to Red Rock, 1,048 miles. The third also passes south of Nepigon, touching at Prince Arthur, 1,102 miles. Only a general *reconnaisonce* has been made of the central section, but the route is easy over the prairies to Yellow Head Pass. The only difficulty here is the bridging, the rivers being broad and generally running in deep valleys. The Western section is difficult. The first range of mountains can be penetrated by passes ranging from 2,000 to 7,000 feet. An elevated plateau succeeds, averaging from 2,000 to 4,000 feet above the sea. This is succeeded by the Cascade range, and it is to pass the heights of these mountains and then descend to the coast, where the serious engineering troubles occur. Surveys have been carried on from 1871 up to the present time, and several routes have been explored, some of which are practicable, but all very costly. On one of the routes which are advocated, in ascending to the head of the great Canyon of the Homathco, 2,285 feet must be ascended in 34 miles, and no less than 1,650 have to be faced in 15 miles. Further surveys are now being carried on in this mountainous section. Several hundreds of miles of telegraph are already in operation.

☞ The Senate and Assembly of Nevada have passed the Battle Mountain and Austin Railroad bill over the Governor's veto.

"Beggar-My-Neighbor" Railroad Competition.

Another serious feud has begun between the Maryland and Pennsylvania trunk lines and their dependencies; which threatens, if continued to the bitter end, to exhaust one or both of the principal combatants, cripple their allies and distress neutrals; and this can hardly occur without precipitating financial disturbance upon other interests beside railroads. This struggle is to be deprecated. If the issue is not to be fought out, the compromise overtures cannot be made too soon; and it is the duty of the stockholders and creditors of the respective contestants to exert at once their proper influence to stop the ruinous waste. The trifling benefit to certain lines of commerce is not proportioned to the risks impending over the general business of the country. It is a notorious fact that there are not half a dozen railroad corporations in the country which are reducing their funded debts, and perhaps not more than a single prominent line, whose obligations have grown less during the past two years of adversity; the contrary being true that nearly all the great Companies are borrowing, and some of them adding to their floating debt also.

The battle, if it is to be waged, is not to be carried on from surplus moneys accumulated by the combatants, but by means of funds borrowed of banks and institutions. It is, therefore, a contest of superiority of credit; but in this, as in most wars, the winner is a loser too.

A glance at the history of the contest may be useful in estimating the attitude of the parties and the outcome of the struggle. The Baltimore and Ohio, though the first begun, was the third to be actually completed of the trunk lines, reaching into the heart of the Ohio Valley. But for the outbreak of the civil war, and the fact that this Company held the sole link of rail connection between the North and Washington and Virginia, so long the seat of hostilities, it is probable that it would long have remained in a state of unfinished feebleness. It has been stated that the success of this Company is attributable to the small amount of its stock capital. An examination of the Army Transportation records would give a more intelligible reason. Others who have only a superficial acquaintance with railroad business, frequently assert that its prosperity arises from its policy of investing the surplus earnings in new works instead of distributing them among their owners, as is the common practice. Perhaps the fact that the city of Baltimore was, and is, a large stockholder, and that efforts have been made in vain to induce the city to part with her holdings, might be a more intelligible motive for this variation The management of the Company has been in the main cautious, close, and exacting; but no one circumstance has contributed more to promote its success than the assistance it has received from Baltimore, it being a cardinal belief of that people that the interests of their city and their road were identical.

The contest is one, however, that has its personal and local features as well as geographical distinctions. The two trunk lines are not only different in their origin and management, but they represent different kinds of men and different policies. The Pennsylvania lines are identified with Philadelphia certainly, but not so exclusively so as the Baltimore and Ohio Railroad with its terminal ports. As between the two rival ports on the Delaware and on the Chesapeake there is not much to choose; but the former was satisfied to follow the course of trade to New York, a rival city. The example of the Pennsylvania Company in granting the use of the New Jersey portion of their lines to their competitor is in favorable contrast with that of the Baltimore Company, so long as they controlled the single link between Baltimore and Washington. In fact, the spread of the Pennsylvania system over so large an area speaks well for the general fairness of its dealings with connecting, and even rival, lines.

This is historically true; the *personnel* and *morale* of the Pennsylvania road has been genial, frank and generous. Its managers have led in most reforms for the public good; and have not waited to be driven. On the other hand, the Maryland Company have been haughty, obstinate and pugnacious from the start. The opening of a second line through the State, and city, to Washington, encountered the heaviest opposition. No wonder therefore the sympathies of the Eastern States are largely given to the former. The sympathy of Chicago and portions of the West, with the Chesapeake line grows out of the fact that the latter has carried breadstuffs a trifle under the New York rates, in order to build up its European steamer line.

So far as the connecting lines are concerned, whether controlled by lease or proprietorship, we see no special advantage on either side. The Pennsylvania Company have acquired con-

trol of a good many lines by what may now be termed onerous leases, but which at the date of their making seemed reasonable enough; but a statement of the operations of the depending and affiliated lines recently made, shows that during the past year the net loss on the operations of the whole has been trifling. Comparing lines and terminal cities, both Main Stem and branches, we see that the Baltimore Company though assuming less debt liabilities per mile, enjoys very much less earning power per mile from local business. The Pennsylvania has more than three times the aggregate of tributary lines under control, and there is no one of them harder to carry than some of the former. As competitors for business the advantage of collecting is on the side of the latter.

If by some evil mischance the strife should develop into more aggressive forms, such as the running of opposition lines of steamships to Europe from Baltimore, or some other ports on the Chesapeake, on the one side, and in constructing new lines between Baltimore and New York, on the other side, more money will be required than our home bankers can furnish to either party. The London market must be appealed to. It is not here apparent to which side the advantage of borrowing there would ultimately belong; but it is obvious that capitalists who lend to such desperate competitors, not only give aid and comfort to the participants, but prepare the way for grievous losses to themselves as well as to their opponents.

Cape Cod Canal.

At a meeting of the stockholders of this enterprise, held in Boston on the 26th ult., the following Board of Directors was chosen: Hon. Henry A. Smythe, R. G. Moulton, William H. Jewell, George H. Morrill, J. P. Van Bergen, A. G. Bradbury, and C. Goddard. The proposed canal is to run through the town of Sandwich, in a direct line from the waters of Buzzard's Bay to those of Barnstable Bay, a distance of 6 7-8 miles. The estimated cost will be about $1,498,865; cost of equipment including tow-boats and barges about $1,419,000. It is confidently stated by those interested in the matter that the amount required over the capital necessary to complete the work can easily be obtained by the sale of 7 per cent thirty year bonds, principal and interest to be paid in gold.

Central Railroad of New Jersey.

The Directors of the Central Railroad Company of New Jersey present to the Stockholders their Report for the year 1874, including the general balance sheet at the close of the year.

The comparison made of the business of the road during the past year with that of the year preceding it, include that of the branches, as well as that of the Lehigh and Susquehanna Railroad and branches run under lease, the whole 180 miles of main line and 112¼ miles of branches having been operated as one concern.

The Lehigh equipment is included in the general statement of equipment, which also includes that of all the branches; and the repairs of the same are included in the general expense accounts.

SERVICE OF THE ROAD.

The service of the whole road, as compared with that of the previous year, has been as follows:

	1874.	1873.
Miles run by passenger trains.	1,516,318	1,439,117
" merchandise trains.	1,023,895	1,116,750
" coal trains.	2,272,995	2,445,611
Total by transportation trains.	4,813,208	5,001,478
Miles run by wood, gravel and construction trains	269,810	265,247
Total miles run by trains.	5,083,018	5,266,725

PASSENGERS, FREIGHT AND COAL.

A comparison of the passenger business of the year 1874, with the previous year, gives the following results:

	1874.	1873.
Number of passengers	4 614,587	4,401,326
Miles traveled by passeng'rs.	50,739,853	48,448,769

A similar comparison of merchandise business gives as follows:

	1874.	1873.
Number of tons carried	1,124,742	1 440,580
Tons carried one mile	65,925,312	85,785,370

The merchandise traffic has suffered more from the panic than either the passenger or coal business.

A similar comparison of the coal business gives the following results:

	1874.	1873.
Number of tons carried	3,696,922	3,906,815
Tons carried one mile	319,190,725	335,717,780

The coal tonnage over the Central Division, since the transportation of coal was commenced, has been as follows:

	Lehigh. Tons.	Lackawanna. Tons.	Total. Tons.
1856	33,325	98,670	131,995
1857	84,841	209,950	294,791
1858	122,923	417,726	540,649
1859	183,277	455,681	638,958
1860	263,906	590,863	854,769
1861	254,345	568,869	823,214
1862	314,195	502,375	816 570
1863	435,927	613,954	1,049,881
1864	474,221	675,743	1,149,964
1865	509,819	494,687	1,004,506
1866	511,076	778,173	1,289,249
1867	513,425	855,620	1,369,045
1868	765,657	853,188	1,618,845
1869	733,485	822,567	1,556,052
1870	997,504	1,054,680	2,052,184
1871	1,244,998	632,066	1,877,064
1872	1,538,591	689,626	2,228,217
1873	1,996,872	485,460	2,482,332
1874	1,875,198	508,671	2,383,869
Total	12,853,585	11,308,569	24,162,154

There was a decrease in Lehigh Coal of 121,674 tons, and an increase in Lackawanna Coal of 23,211 tons, on the Central Division.

EQUIPMENT.

The company now own 242 engines, of which 234 burn hard coal and 8 wood. The condition of these engines is reported as follows: 157 in first class order; 49 in good working order; 18 require general repairs, and 18 are now in shops repairing. During the year 1 new passenger engine and 1 new shifting engine have been added to the equipment. One engine has been condemned and cut up.

The equipment of cars is as follows: 121 first class and 13 second class passenger, 35 baggage and smoking, 10 baggage and mail, 3 express, 425 8-wheel and 2 4 wheel house freight, 32 8 wheel stock, 15 8-wheel and 71 4-wheel caboose, 414 8-wheel platform, 312 8 wheel gondola, 1 8-wheel pay, 1 8 wheel pavilion, 222 6 wheel and 14 4-wheel iron and lime, 457 8-wheel and 14,236 4-wheel coal, 366 4-wheel gravel, 18 6 wheel and 5 4 wheel wood rack, 5 8 wheel derrick, 5 8 wheel tool, 48 8 wheel work (flat), 1 4-wheel scale, and 1 4-wheel Adzing machine cars.

During the year the following additions have been made to the car equipment. There have been purchased 8 passenger cars, 25 8-wheel box cars, and 50 6-wheel iron cars. There have been built in the company's shops, 2 caboose cars, 1 work train flat car and 2 tool cars, all 8 wheeled; and 156 4 wheel coal cars. The following changes were made: 1 first class passenger car was changed to combination car; 1 second class combination car changed to second class passenger car, and 36 6 wheel and 7 8 wheel iron cars changed to lime cars; 5 4-wheel box cars, 1 8-wheel box car, 3 8 wheel lime cars, 16 6-wheel iron cars, 1 4 wheel gravel car and 152 8 wheel coal cars have been broken up.

TRANSPORTATION ACCOUNT.

The following is a statement of the ordinary receipts and expenses of both roads for the year 1874, compared with 1873.

Receipts:	1874.	1873.
Passengers	$1,518,983 30	$1,409,044 21
Merchandise	1,594,500 33	1,920,102 76
Coal	5,363,677 57	5,462,863 05
Mail	22,890 00	23,015 00
Express	29,974 50	26,114 50
Rents	22,458 33	21,927 99
Miscellaneous	25,044 86	18,298 47
Car service	17,101 93	
Total receipts	$8,589,630 82	$8,881,365 18
Expenses:		
Running expenses	$1,663,966 65	$1,773,496 22
Fuel consumed	393,909 90	397,348 09
Repairs of road	738,433 45	704,421 60
Repairs of engines	316,444 21	323,392 46
Repairs passenger cars	64,240 29	86,788 61
Repairs freight cars	88,394 29	58,883 96
Repairs coal cars	262,745 64	285,085 07
Repairs of buildings, bridges, docks, &c.	162,641 80	131,071 74
Repairs of tools and machinery	29,488 13	34,871 78
Exp. Ashley Plains	71,788 97	81,752 00
Expense account	151,263 94	130,153 14
Miscellaneous exp	84,187 21	72,475 07
Ferry running exp	78,440 03	77,414 69
Ferry boat repairs	34,707 17	20,473 82
Car service		37,956 45
	$4,140,601 18	$4,215,584 20
Balance net earnings.	$4,449,029 64	$4,665,781 78

The gross receipts per mile run have been as follows:

From passenger trains, $1 00 against 98 cents in 1873; from merchandise trains, $1 56 against $1 72; from coal trains, $2 36 against $2 23. The average receipts per mile run from all trains, have been $1 69 against $1 69 the previous year.

The gross expenses per mile run have been 81 cents against 80 cents the previous year.

The following table shows the receipts, expenses and net earnings, from the beginning of 1853 to the present time, including, since 1870, those of the Lehigh and Susquehanna Division.

	Receipts.	Expenses.	Net Earnings.
1853.	$349,018	$197,629	$151,389 or 43 p. c.
1854.	378,145	197,349	180,796 or 48 "
1855.	393,729	208,856	184,873 or 47 "
1856.	553,479	258,308	295,171 or 53 "
1857.	682,314	340,502	341,812 or 51 "
1858.	836,934	345,614	491,320 or 58 "
1859.	971,702	385,716	585,986 or 61 "
1860.	1,185,848	475,457	710,391 or 60 "
1861.	1,201,895	522,452	679,443 or 57 "
1862.	1,397,586	623,245	774,341 or 56 "
1863.	1,941,976	814,732	1,127,244 or 58 "
1864.	2,537,185	1,231,554	1,305,631 or 51 "
1865.	3,036,890	1,748,434	1,287,856 or 43 "
1866.	3,581,244	1,963,076	1,617,268 or 45 "
1867.	3,350,398	1,878,022	1,472,376 or 44 "
1868.	3,729,412	2,379,192	1,350,220 or 36 "
1869.	4,010,121	2,642,163	1,367,958 or 34 "
1870.	4,393,514	2,512,217	1,881,297 or 43 "
1871.	6,841,379	3,706,144	3,135,285 or 46 "
1872.	7,120,718	4,236,806	2,883,912 or 41 "
1873.	8,881,366	4,215,584	4,665,782 or 53 "
1874.	8,589,631	4,140,601	4,449,030 or 52 "
Tot.	$65,963,984	$35,024,553	$30,939,431 or 47 "

FINANCIAL CONDITION.

The balance sheet will be found at the end of the report. The following is a statement of the financial operations during the year:

CREDITS.

Balance cash January 1		$262,806 18
Gross earnings Central Division	$5,103,183 85	
Gross earnings L. & S. Division	3,486,446 97	
		8,589,630 82
Profit in operating canals		19,644 78
Convertible bonds of 1902, issued		1,157,300 00
Consolidated mortgage bonds, issued		6,063,900 00
		$16,093,281 78

DEBITS.

Ordinary expenses, both Divisions	$4,140,601 18
Railroad Car Trust of Philadelphia paid off	63,379 88
Grading	116,568 83
Masonry	45,898 28
Railway superstructure	323,017 58
Bridge superstructure	111,388 55
Land damage	29,000 96
Engineering	5,882 77
Newark Branch	47 198 15
Perth Amboy Branch	130,131 89
Elizabethport station	150,000 00
Jersey City station	100,000 00
Station houses	31,868 86
Engines	1,407 49
Passenger cars	38,424 63
Freight cars	30,587 53
Coal cars	15 000 00
Coal stocks	826,958 94
Lehigh and Wilkesbarre Coal Co. bonds	4,500,000 00
Lands, material, &c., increase	848,862 99
Interest account for year, balance	807,406 26
State taxes for year	76,465 01
Rent of Lehigh and Susquehanna Railroad	1,128,433 83
Dividends for year, 10 per cent	2,000,000 00
Accounts receivable, increase	540,578 21
Balance cash, December 31	482,259 76
	$16,093,281 78

The profit and loss account stands as follows:

Gross earnings during the year	$8,589,630 82
Balance canal earnings	19,644 78
	$8,609,275 60

It has been debited as follows:

Ordinary expenses	$4,140,601 18	
Rent of Lehigh and Susquehanna R. R.	1,128,433 83	
Interest account	807,406 26	
State taxes	76 465 01	
Dividend account	2,000,000 00	
		8,152,906 28
Balance to credit of reserved fund		$456,369 32

BUSINESS OF THE YEAR.

The business of 1874 has felt sensibly the panic of 1873, and the receipts have fallen off $291,735 16. The expenses also show a reduction, though not to the same extent, being $74,983 02. The passenger business has more than held its own, and increased $104 939 09. Merchandise freight has fallen off $325,602 43, and coal receipts $99,185 48. Everything has worked smoothly on the road, and the reductions in wages, made necessary by the times, have been submitted to by the employes without strikes or trouble of any kind. In such a general depression it is a matter of congratulation that the net result of the twelve month's business has proved as favorable as it has.

The arrangements with the other great carrying companies, with regard to the coal trade of 1875, promise to secure to the public a steady supply at moderate prices, not higher than those of the past year, while guarding against a glut in the market and ruinous competition.

CONSTRUCTION.

The new line west of Westfield and through Plainfield, on an elevation above the streets, has been practically completed, so that trains began running regularly over it in December, and the old tracks were abandoned. By this change the company have secured a tangent line of over 17 miles in length, extending from Elizabeth to beyond Dunellen, with but one curve in the whole distance. The new roadway has been constructed for four tracks, to conform to the rest of the roadway between Jersey City and Bound Brook. The streets of Plainfield are crossed by handsome iron girder bridges, supported by first class stone abutments.

A large and handsome brick station house, with Ohio stone trimmings, has been erected at Plainfield, on the proper elevation, and will be ready for operation in the spring.

The new station house at Fanwood is completed and occupied. The grounds round the station (given by the Land Co.) have been beautifully laid out, and are the most attractive on the line.

A neat station house, built by the land owners on ground given by the Land Co., is nearly finished at the new station of Netherwood, established between Fanwood and Plainfield. The neighborhood of this station and of Fanwood is being rapidly improved by owners and new comers, and from the very favorable character of the country is likely to fill up with first class residences.

Much benefit to the local business has resulted from the attention given by the Company to the adjuncts of their station houses. It is generally found that when parties leaving the cars see neat buildings surrounded by trees, shrubbery and flowers, instead of all the concentrated rubbish usually found—a favorable impression of the place is created in advance. The improvements begun will be carried on till all the stations have been put in like attractive condition. This Company is the first and almost the only one in the country to give this subject the attention it deserves.

On the Newark branch the lowering of the rock cut through Bergen Hill to a grade of 30 feet to the mile, has been nearly finished, and the cars are now running through on a single track. Some stone remains to be taken out before the second track can be used, and the temporary track over the hill will be retained till the piles of surplus earth and stone are removed.

No other construction work of importance has been done during the year.

STEEL RAILS.

During the year, 48 miles of steel rails have been laid on the Central and Lehigh Divisions. There are now 129 miles of steel rails laid on the Central Division and 110½ miles on the Lehigh and Susquehanna Division, making 239½ miles in all on both divisions. For the coming year 7 000 tons have been ordered at very low prices, besides 274 tons still to deliver on past contracts. The rails laid continue to give the most perfect satisfaction.

NEW YORK AND LONG BRANCH RAILROAD.

The graduation, masonry and bridging on the Perth Amboy branch is completed, and the track laid to the Raritan River bridge. That important bridge has been re-constructed and carried so far towards completion that it is ready to receive the iron spans and iron drawbridge; which latter are reported ready for raising into place; and this has ceased to be considered the controlling point on the road.

The work on all parts of the Long Branch road proper is now being pushed rapidly, the inhabitants having at last raised the sum required, and it is hoped that the road may be opened through to Long Branch by the first of June. The best efforts of all the officers will be used to ensure this result.

RIPARIAN RIGHTS.

The settlement of the controversy with the State, reported last year, was not finally carried out till October, when the $300,000 was adjusted and title to the State's rights given. All barrier to improvements is now removed, and the American Dock and Improvement Company have already promising applications for large sales or leases.

LEHIGH AND WILKESBARRE COAL COMPANY.

This company has devoted the year to consolidating and amalgamating the large interests so recently united, and to building up a heavy trade for the present and future. Already the company stands third in the tonnage brought to tide water, and the total tonnage of all sorts, both way and through, amounts to nearly 2,500,000 tons. A continuance of the energy shown by the officers of that company cannot fail of perfect success. Several large additions of valuable coal tracts have been made by lease or purchase during the year.

By the issue of mortgage bonds the finances of the company are being rapidly improved, and the debt created in the acquisition of their coal domain placed in a permanent form.

LEHIGH AND DELAWARE DIVISION CANALS.

The management of these canals, under agreement with Lehigh Coal and Navigation Co., has resulted for the first year in a profit of $19,644 78, the receipts having been $609 759 62, and the expenses, including rental, $590,114 84. All the advantages to the general business of the company, expected to be derived from the control of the canals, have been fully realized.

CONNECTING ROADS.

By agreement with the Delaware, Lackawanna and Western Railroad Co., their business will be entirely withdrawn on the 1st of April, when the third rail will be removed from the tracks. As will be noticed, their coal tonnage over the road has been reduced to a few hundred thousand tons.

The Lehigh Valley Railroad also expect to open their new road to Perth Amboy within the year, when what remains of their coal tonnage—also much reduced—will be withdrawn.

In parting with our ancient allies, it is pleasant to add, that friendly relations prevail and will be preserved, and that the business of each separately has grown to a volume more than equal to what that of the three companies united formerly amounted to.

FINANCES.

A consolidated mortgage, to secure bonds amounting in the whole to $25,000,000 has been executed during the year. After a reservation, by its terms, of a sufficient amount to exchange or pay at maturity the bonds prior to it in lien, amounting to $5,774,000, the balance can be created from time to time as required.

Of these bonds, $10,000,000 have been created during the year, as seven per cent. currency bonds, with interest coupons payable quarterly, and $6,063,900 appears credited to that account, leaving $3,936,100 still to be received from Brown Brothers & Co., to whom the second issue of $5,000,000 were sold at par and interest without commission.

Only a moderate amount was required for the present uses of this company, and the bulk of the money paid in was used to assist the Lehigh and Wilkesbarre Coal Co., by the temporary purchase of $5,000,000 of their mortgage bonds of ninety per cent., to be parted with hereafter when the money is needed.

The remainder will be used to pay for the steel rails ordered, for the liberal orders for locomotives and equipment of all sorts at the extreme low prices of the day, and also for various works of construction.

DIVIDENDS.

The usual quarterly dividends of two and a half per cent. have been made, and the Reserved Fund of surplus profits has been increased to $1,127,879 77.

REVIEW OF FIVE YEARS.

The Directors desire to call the attention of

stockholders to the changes that have been made in the company's position during the five years ending January 1st, 1875—what that position was, what it is, and what the results of these changes have been, on the gross and net revenue—that they may judge whether success, the usual test of merit, has followed those outlays.

It will be observed, by examining the annual reports, that in these five years the company have risen from simple carriers of other people's coal, over a railway 75 miles long, with an equipment calculated for that distance alone, into the owners or controllers of 180 miles of main road, with numerous branches, reaching from the seaboard to the finest centres of anthracite coal; the whole fully equipped with the best rolling stock, in the most perfect order; and also that they have become the owners of a controlling interest in an immense body of coal lands fully competent to supply them with transportation for centuries to come, independant of all other interests. The safety of their present position must be obvious to every one.

The coal tonnage of the Central Division has only increased from 1,556,052 tons to 2,383,869 tons; but the former amount was carried for comparatively short distances, being received, in about equal quantities, at Phillipsburg from the Lehigh Valley Railroad, and at Hampton Junction from the Delaware, Lackawanna and Western Railroad; while the latter amount has been mainly under the complete control of the company, and carried over the entire length of the Lehigh and Susquehanna Division, as well as of the Central road.

The result is, that in five years the gross earnings have increased from $4,010,121 to $8,589,631, while the net earnings have risen from $1,867,958 to $4,449,029. This may fairly be styled a splendid issue. Much of the success in keeping down expenses has been owing to the substitution of steel rails for iron, and fully as much to the careful maintenance of roadway and rolling stock in first class condition. These two things begin now to tell forcibly on the annual net revenue.

The changes made in five years in the investments of the company, as shown by a comparison of the balance sheet given in the report of January 1st, 1870, with that of the present report, are as follows:

Capital Stock, increase	$5,000,000 00
Bonded Debt, increase	12,607,900 00
Bonds of other companies assumed	3,240,723 41
Undivided Profits expended	1,127,879 77
Total	$21,976,503 18

This increase in stock, bonds and liabilities is represented by the following increase in assets:

Railroad—grading third and fourth tracks; laying tracks and sidings; Perth Amboy Branch; additional cost Newark Branch; excess of cost of steel rails over iron	$3,800,871 91
Expenditures at Jersey City	355,805 50
Port Johnston Coal Station	175,221 08
Station houses, shops, etc	113 400 20
New Engines	1,560,000 00
" Passenger cars	415,000 00
" Freight cars	725,000 00
" Coal cars	3,105,000 00
Lehigh and Wilkesbarre Coal Co. Stock	5,780,138 26
Lehigh and Wilkesbarre Coal Co. Bonds	4,500,000 00
Accounts receivable—increase, less accounts payable	1,242,066 23
Total	$21,976,503 18

While $4,449 298 69 have gone into the road, branches, buildings and other improvements attached to the freehold, the equipment has absorbed $6,005 000, being mainly for stocking the Lehigh and Susquehanna Division. The coal land purchases have taken $5,780,138 26, and $4,500,000 have been temporarily invested in the Coal Company Bonds. All these investments, whether in road, equipment or coal lands, are believed to be well and judiciously and profitably made.

The total length of road operated is as follows:

Main Line, double track, 74 miles	146.80 miles
" " 3 and 4 tracks and sidings	86.21 "
Newark Branch, double track	11.20 "
Perth Amboy Branch, single track	17.61 "
Other branches, sidings &c	5.18 "
Total single track	267 miles.

BALANCE SHEET, Jan. 1, 1875.

Railroad	$13,002,080 26	
New York station and ferry houses	300,000 00

President.—JOHN TAYLOR JOHNSTON.

Directors.—John Taylor Johnston, John C. Green, Adam Norrie, James Boorman Johnston, New York; Benjamin Williamson, John Kean, Elizabeth; F. T. Frelinghuysen, Newark; John Leisenring, Mauch Chunk.

Secretary and Treasurer.—SAMUEL KNOX.

Superintendent and Engineer.—R. E. RICKER.

Consulting Engineer.—JAMES MOORE.

Supreme Court Decision on Net Earnings as Applied to Preferred Stocks.

We gave last week the concluding portion of the decision of the United States Supreme Court in the case of Thomas St. John vs. The Erie Railway Company. The decision is of so much importance, however, that we now give it entire, including that portion already published by us. Justice Swayne delivered the opinion of the court, which is as follows:

This is an appeal in equity from the Circuit Court of the United States for the Southern District of New York.

The facts of the case are undisputed.

By an act of the legislature of New York, of the 24th April 1832, a corporation known as the New York and Erie Railroad Company was created. The company issued five successive series of bonds, amounting in the aggregate to about $20,000,000. The first series was secured by a lien upon the road given by statute. The other series were secured by mortgages. The bonds were usually designated as first, second, third fourth and fifth mortgage bonds, according to their places respectively in the succession. The company also issued unsecured bonds known as sinking fund bonds, to the amount of about $7,000,000. In 1859 the company became bankrupt. Foreclosure proceedings were instituted to enforce the last two mortgages, and a receiver was appointed. He held and operated the road until the affairs of the company were reorganized. This occurred in 1862. Prior to that time the line of the road extended from Piermont to Dunkirk, but the company had taken leases of other roads in New Jersey, and of the Long Dock property on the Hudson River opposite to New York. These latter roads gave the company access to Jersey City, and the dock property was the eastern terminus of the road. Leases of other roads to the company, not necessary to be specifically mentioned, also existed. On the 22d of October, 1859, the shareholders and creditors of the company entered into an amicable agreement providing for the adjustment of its liabilities. Thereafter all the property and effects of the company were sold under a decree in the foreclosure suit, and were bought in by trustees for the benefit of the parties in interest, pursuant to a clause in the agreement. A new corporation, under the name of the Erie Railway Company, was organized, pursuant to acts of legislature of New York, of the 4th of April, 1860, April 2, 1861, and March 28, 1862. All the property of the old company bought by the trustees was transferred to the new corporation, but still subject to all the liens and encumbrances upon it which subsisted before the foreclosure and sale. The agreement of 1859 was incorporated into the decree of sale, and was recognized and sanctioned by the several acts of the legislature under which the new corporation was organized. It was also made a part of the articles of association or charter of that company. Its obligatory effect in this case is not questioned. The third article declares: "The capital stock of said company is divided into common capital stock and preferred capital stock. The whole amount of said common stock of said company is 115,500 shares, each of the par value of $100, being in amount equal to the outstanding capital stock of the New York and Erie Railroad Company. The whole amount of the preferred capital stock of said company is to be equal to the amount of the total unsecured and judgment debt of the New York and Erie Railroad Company, with interest thereon as provided by the contract referred to in said acts, and by the provision of the said act, passed April 2, 1861, when ascertained pursuant to the provisions of said act."

The amount of preferred stock outstanding in 1862 was $8,535,700. On the 31st of December, 1868, it was $8,536,910. The fifth article of the agreement was as follows:

"Fifth—Such of us as are holders of the convertible sinking fund and other unsecured bonds of said company hereby agree to exchange our respective bonds for preferred stock of like amount with the principal of our bonds, with coupons now overdue, and for two years in advance added, and to deposit our bonds with said trustees to be so exchanged, receiving therefor receipts of the form marked B. Such preferred stock is to be entitled to preferred dividends out of the net earnings (if earned in the current year, but not otherwise,) not to exceed 7 per cent. in any one year, payable semi-annually, after payment of mortgage interest and delayed coupons in full."

The act of April 2, 1861, enacted the last paragraph, in these terms;

"Sec. 4. Said preferred stock shall be entitled to preferred dividends out of the net earnings of said road if earned in the current year, but not otherwise, not to exceed seven per cent. in any one year, payable semi-annually, after payment

of mortgage interest and delayed coupons in full. And the holders thereof may vote personally or by proxy at all meetings of the corporation, in the same manner as the holders of common stock, but not otherwise."

The complainant is the holder of three hundred shares of the preferred stock. The company paid the delayed coupons, and a dividend of five per cent. on all the preferred stock for the year 1868, and seven per cent. annually thereafter until the year 1868. Since that time nothing has been paid. After the issuing of the preferred stock the company took leases of several additional roads. Some of them have been profitable and some not. The new company took the leases held by the old company, with an obligation to pay the annual rents which the latter was bound to pay. These rents amounted in the year 1862 to $372,400. The annual rents of the additional leases taken by the new company amounted in the year 1868 to $376,107. Subsequent to 1862 the company borrowed $5,000,000, for which it gave sterling bonds bearing interest at the rate of six per cent. per annum, payable in gold. The interest paid upon this debt in 1868 was $388 494 68. The money was borrowed for the repair and equipment of the roads of the company, and was expended accordingly.

The net earnings of the company during the year 1868, after deducting the interest paid on the mortgage debts existing when the preferred stock was issued, were less than $680,000. The payment of all the rents and interest upon the sterling bonds absorbed more than that entire sum. If no rents and no interest upon the sterling bonds had been paid during that year, there would have been more than enough of the net earnings left to pay the dividends claimed by the complainant. If no interest had been paid on the sterling bonds, and no rents under the leases made since the preferred stock was issued, there would have been enough remaining to have paid a small part of the dividends; but no part of such dividends could have been paid without leaving unpaid some part of the interest upon the sterling bonds, and some of the rents under the leases made since the preferred stock was issued.

The complainant claims that his rights are to be determined by the state of things which existed when his stock was issued, and that they are in nowise affected by the leases taken and the bonds issued by the company thereafter. Hence, he contends that full dividends should have been paid before any part of the net earnings were applied in payment of the interest on the sterling bonds and the rents under the leases of other roads to the new corporation.

The defendant insists that this interest and the rents of all the leases were necessarily to be first fully paid. The complainant filed this bill in 1869 to enforce his view of the case.

The question presented depends for its solution wholly upon the construction given to the fifth clause of the agreement of 1859, and the fourth section of the act of 1861. They are identical in effects as regards the point to be considered.

The original takers of the preferred stock were creditors. They abandoned that position and became stockholders. They thereupon ceased to be the former, and can only be regarded as the latter. They surrendered their debts and received in return stock of the same amount, which gave them a chance for annual dividends of seven per cent. and a voice by voting in the choice of those by whom the affairs of the company were to be administered. What they were to receive was not interest but dividends; and they were to receive them in priority to the holders of the common stock. The latter could receive nothing until the former were satisfied. The maximum payable on the preferred stock was specified. It might be less or nothing. It could not be more. The amount subject to the limit prescribed depended wholly upon the residue of the net earnings applicable in that way. The language employed is apt to express the relation of stockholders. None to express the relation of creditors is found in the instrument; and there is nothing from which the intent to continue that relation any longer can be inferred. If the mortgages were foreclosed and there were a surplus left insufficient to satisfy the general creditors, it is quite clear that the holders of the preferred stock could have no right to share in the fund.

The dividends were to be paid after the mortgage interest and delayed coupons were paid in full.

This clause was inserted doubtless out of abundant caution, to prevent the possibility of a claim being set up to the prejudice of the holders of the mortgage securities. Whether the restriction was necessary for that purpose we need not consider.

The preferred dividends were to be paid out of "the net earnings of the road." The lexical definition of net is "clear of all charges and deductions."—Webster. "That which remains after the deduction of all charges or outlay, as net profit."—Worcester. The popular acceptation of the term is the same. There is no controversy between the parties on this subject. Such net earnings must have been earned in "the current year." There are these four specific limitations. There are no others. It is not said that the preferred dividends shall be paid next after the mortgage interest and delayed coupons, nor after nor pro rata with anything else, nor before anything else except dividends upon the common stock. Beyond the four restrictions named, the matter is left to be regulated wholly by the principles of law and the discretion of the company. Suppose in this case the holders of coupons of the sterling bonds and the holders of preferred stock claimed payment at the same time, and the fund was insufficient to meet both demands, can it be doubted that the rights of the creditor would be held paramount to those of the shareholder; and that the interest must be fully satisfied before a dividend could be paid? The plainest principles of reason and justice as well as the law would require this result. A question is raised as to the source to which the phrase "net earnings of the road" refers. The term "road" is used as an appellative, and was clearly intended to include the principal road and all its adjuncts. The complainant insists that the "net earnings" must be the net earnings of things as they were when the preferred stock was issued. We find nothing in the case, express or implied, to warrant this view. At the time referred to the company held certain leases. If it was deemed best, and was found practicable, could not the company have rid itself of them? If the complainant's view be correct this could not be done, at any rate not without the consent of the preferred stockholders. So if the company deemed it proper to take leases of other roads, in addition to those previously held, or in place of them, what was there to prevent it? Upon what ground can it be claimed that the category "net earnings of the road" was not intended to embrace the net earnings of the business of the company for the time being, whether done upon one or many roads?

There is nothing in the agreement or the statute, and we are aware of no legal principle which would authorize the stockholders in question to analyze the business, select out a part of it, and to say that the net earnings specified must be a predicate of that part and of none other. The company had the right to conduct its operations in good faith, as it might see fit; and it was from them and all of them that the materials for the computations of earnings were to be derived.

The only qualification prescribed in this connection is not as to the scope, means, or elements of the business, but is one in point of time. The net earnings from which the preferred dividends were to be paid must have been earned "in the current year" Whether the business of such year was large or small, or of what it consisted, is immaterial. The corporation never agreed to be limited in the exercise of its faculties and franchises, and the complainant must abide the result. If errors were committed and a loss ensued a court of equity cannot relieve him. It is one of the chances of the enterprise in which he embarked.

The business of the road was a unit. If it had been disintegrated, as proposed by the complainant, we apprehend it would have been found that the correlations of the main stem and the branches were such, and that the expenses and charges incident to the entire business and those of the several parts were so interwoven and blended, that an accurate ascertainment of the net profit of the main line and any of the auxiliaries, taken separately from the rest, would have been impracticable. An ancillary road may be short and yield but little income, and yet by reason of its reaching to coal fields or from other local causes, its contributions to other roads of the series may be very large and profitable. Whether in this case the partial computation insisted upon could or could not have been made, the process was one upon which the company was neither bound nor had the right to enter.

We hold that the computation by the company for the year 1868 was made upon the proper basis, and that the complainant is concluded in it. We are of the opinion that the rents for that year, accruing under leases taken by the company after the issuing of this preferred stock, and the interest upon the sterling bonds for that year were properly paid, and that there were no net earnings earned in that year which could be properly applied in payment of preferred dividends. These views are fatal to the complainant's case. We have carefully examined all the authorities referred to by the learned counsel. None of them are in hostility to the conclusions at which we have arrived.

The decree of the Circuit Court is affirmed.

Intercolonial Railway.

The sum paid out on account of the Intercolonial Railway during the past year, according to the Report of the Minister of Public Works, has been: for staff and maintenance, $1,301,550, and for construction, $742 862—a total of $2,044,412. The revenue from the road during the same period seems to have been $893,430, and if we deduct this from the cost of staff and maintenance as given above, the line would appear to have been run at a loss of $408,120 during the twelve months. The number of passengers and tons of freight carried on the Intercolonial, and the total receipts therefor for the past five years were as follows:

	Passengers.	Freight.	Receipts.
1870	426,594	224,018	$471,245
1871	451,232	301,317	535,713
1872	462,223	341,171	622,900
1873	465,150	332,946	703,458
1874	626,362	388,852	893,430

During these years the mileage increased from 272 to 339 miles. The gauge is to be reduced to 4 feet 8½ inches; the rolling stock is being purchased for the narrow gauge; the distance from Rivere du Loup to Monckton is 374 miles, and the eastern divisions in Nova Scotia and New Brunswick, as near as we can make out from the statement, embrace 294 miles. The latter portion of the line, by order in Council, was, in November last, divided into three sections, for its more convenient and economical working. It is confidently expected that the track laying and ballasting of the entire road will be completed by the end of August next, soon after which the opening will take place.

☞ One hundred and seventy five miles of the narrow gauge road, on the west side of the Sacramento, from Tehama to Suisun, is contracted for, and will be completed and in running order before the first of October next.

Railroads of Minnesota.

The Report of the Railroad Commissioners of Minnesota gives the total cash valuation of the railroads of that state at $68,680,444, which is an average valuation of $34,885 78 per mile. There were but 87 miles of railroad built in the State last year, as follows.

	Miles.
Wisconsin Valley Extension to Waupun	30
North Wisconsin Extension	26
Chippewa Valley Railway between Eau Claire and Chippewa Falls	11
Galena and Southern Wisconsin, State Line to Platteville	20

But for the influence of the Potter law two or three times this amount would have been built, much to the benefit of the state and the enlargement of the business of existing companies.

Statement of the Public Debt of the United States March 1, 1875.

Sioux City and Pacific bonds, 1862-64	1,628,320 00	16,283 20
Totals	$64,623,512 00	$646,235 12

Interest paid by United States, $26,264,102 54; interest repaid by transportation of mails, &c., $5,724,214 29; balance of interest paid by United States, $20,539,888 05.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, February 27, 1875.

B. H. BRISTOW,
Secretary of the Treasury.

☞ The Panama Star of February 9th says that a new contract was entered into on the 15th ultimo, between the National Executive and Charles S. Brown, of the United States, for the building of the Cauca Railroad. This contract is considered by the press of Bogota as much more satisfactory than the previous one of July, 1872. The railroad ought to be commenced in eight months and concluded in four years.

For Railroad Purposes.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "†."

American Railroad Journal.

Saturday, March 6, 1875.

Financial and Commercial Affairs.

With the gradual revival of the Spring trade in the several lines, calling for more pecuniary aid, Money has been in generally more urgent demand, with rates quoted somewhat firmer, the range having been from 2@4, generally 3@3½ per cent in a temporary form, and 4½@6½ per cent per annum in the line of the best discount applications. At these figures, however, lenders have been meeting the requirements of borrowers in good standing quite promptly. The City banks, according to their last weekly exhibit, reduced their loan and discount averages, while reporting also a falling off in their deposit and legal tender lines. They enlarged their specie board, while contracting their circulation. The net aggregate reserve, as against liabilities, shows an increase of $1,429,475. The U. S. Sub Treasury augmented its specie reserve, while reducing its currency balance. The Treasury Department reported its cash balances on the 1st inst., as embracing $75,626,083 in coin, and $10,319,098 in currency; while holding also $45,855,000 as a special deposit, for the redemption of certificates of deposit.

The City banks last week reduced their reserve of legal tender notes $2,492,200, and their deposit item $2,616,300 while enlarging their specie average $3,267,600. They report a decrease of $2,833,100 in the loans and discounts and of $101,900 in their circulation. The U. S. Sub Treasury in this city closed the week with a currency balance of $49,240,834, against $50,032,145, the preceding week; and a coin board of $48,384,079, against $46,910,674, on the previous return. The City bank exchanges in currency during the week, were $345,867,006, or a daily average of $69,073,401. The customs revenue of the port, during the week, was $3,016,000. The City banks reported their average of gold last week at $15,920,800, and their greenback average at $51,900,600. Their deposits stood at $233,607,500. The loan item was $292,017,000. The circulation was $22,482,500.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $9,420,525.

The aggregate of the outstanding U. S. currency, of all denominations, March 1, was $427,495,676. The outstanding amount of legal tender notes is 382 millions. The National bank circulation is now $344,596,472.

The U. S. Treasury balances on Tuesday were as follows: Currency, $10,319,048; special deposit of legal tenders for redemption of certificates of deposit, $45,855,000; coin, (including $22,269,400 in coin certificates,) $75,626,083.

Secretary Bristow has issued another call for the redemption of coupon bonds of 1862, this time for five millions, upon which interest will cease June 1, 1875. The bonds are embraced within the numbers following: $50 bonds from No. 8,351 to 10 000; $100 bonds from No. 23,101 to 27,500; $500 bonds from No. 11,101 to 13,600; $1,000 bonds from No. 33,701 to 39,000.

The U. S. Sub Treasury receipt from all sources, at this port, in February, were $56,331,039 including $12,031,058 from customs; payments on all accounts, $49,143,173, including $6,332,306 of coin interest.

Gold has been moderately active but again quoted lower. The speculative business has been fair, while the export drain has been limited. The customs call has been on a liberal scale. The extremes of the week have been 114¼@114⅞ closing on Wednesday at 114⅛ as against 114⅜ on Wednesday of the preceding week. The specie outflow last week was only $801,870. The imports of specie at this port since Jan. 1, have been $1,331,828 against $991,072 same time last year. The customs demand for Gold last week averaged $502,667 a day. Foreign Exchange has been again quoted easier and has been in comparatively limited request. Bankers' sixty day bills on London closed on Wednesday at $4 82½@$4 83½; sight bills on London at 4 86@$4 87 to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $3,469,070.

The import entries of Foreign Merchandise at New York, including dry goods, amount for the past week to $9,658,790.

The income of the Government, from internal revenues, thus far, in the fiscal year, commencing with July 1, 1874, has been 75⅛ millions.

Government Securities have been in moderate supply and demand, with prices varying slightly, influenced chiefly by the fluctuations in Gold. The last public debt statement shows a liquidation of $6,680,183 in February, and $5,772,252 since June 30, 1874.

U. S sixes of 1881 closed on Wednesday of this week at 119¾@120; U. S. Five-Twenties of 1862, at 116⅝@116⅞; U. S. Five-Twenties of 1864 at 117½@117¾; U. S. Five-Twenties of 1865 119¾@120; U. S. Five-Twenties of 1865 consolidated, 118½@118¾; U. S. Five Twenties of 1867, 119⅜@119⅝; U. S. Five-Twenties of 1868, 119½@119¾; U. S. Ten-forties at 114@114¼; U. S. Fives of 1881, (Funding Loan) 114¾@114⅞; Six per cent. currency Sixes from 118¾@119.

More animation has been apparent in the dealings at the Stock Exchange in Railway and miscellaneous share property, with a generally stronger and buoyant market, closing with increasing firmness on the more active stocks. State and Railway bonds have been attracting more attention at generally steady rates for the more substantial loans.

The Payments made from the U. S. Treasury by warrants during February were: On account of civil and miscellaneous expenses, $4,686,532 80; war, $4,854,122 05; navy, $1,066,155 65; interior (Indians and pensions), $5,680,541 65—total, $15,787,856 11. These amounts do not include payments made on account of the interest or principal of the public debt.

General business has been fairly active, in the leading kinds of domestic produce, with Breadstuffs, Provisions, Cotton, and Petroleum quoted stronger; Naval Stores, Seeds, Hemp, and Whisky, cheaper. Hardware, Dry Goods, and Boots and Shoes have been in much better demand. Metals have been somewhat brisker. Pig Iron has been more sought after, and both Scotch and American have been held more firmly. Of Iron Rails, 1500 tons new American have been reported sold at equal to $48, currency, at the works. Eglinton Pig Iron quoted from yard at $34@$35; Glengarnock, $36; No. 1 American Pig at $28@$30; No. 2 do. at $26@$28; Forge, $25@$27; English Rails at $48@$50, gold; American Rails at works, $48@$50; Old Rails, $30@$35. Wrought Scrap, $35. Wool has been moderately active at about steady rates. Ocean freights have been fairly active but quoted firmer. Grain, Cotton, Flour, Rosin, and Petroleum offering more freely at the ruling figures.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

A limited amount for sale by

KUHN, LOEB & CO.,

BANKERS,

No. 31 Nassau St., New York.

Chief Engineer's Office, U. S. Navy Yard,
WASHINGTON, November 18, 1874.

Comm. Thos. H. Patterson, U. S. N., Commandant:

SIR:—In obedience to your order of October 5th, 1874, to carefully test the EMPIRE PORTABLE FORGE, I have the honor to submit the following report:

* * * * * * This a very excellent and convenient forge. It works easy and with but little noise, and the power being applied with a lever, it can be worked without interfering with the manipulation of the fire.

I can recommend it as a very useful tool for work on ship board or shop use.

Very respectfully, your obedient servant,
[SIGNED] EDWIN FITHIAN,
Chief Engineer, U. S. N.

OFFICE PENNSYLVANIA RAILROAD CO.,
PHILADELPHIA, January 11, 1875.

NOTICE IS HEREBY GIVEN THAT THE Pennsylvania Railroad Company will pay, upon presentation, before March 6, 1875, their Scrip issued for the dividend December 6, 1873, at par, and accrued interest thereon to date of presentation.

On the 6th of March, 1875, this Scrip will cease to bear interest, and the Company will pay all that may then be outstanding.

BAYARD BUTLER, Treasurer.

Hatch & Foote,

BANKERS,

California Pacific Railroad.

The report of California Pacific Railroad Company, showing the operations of the road during the year 1874, and its condition at the close of the same, was filed with the Secretary of State of California on the 18th ult. From this we learn that the amount of capital stock subscribed and paid in is $12,000,000. Expended for the purchase of lands $90,494 39, for construction of road $19,615,676 21, for buildings $76,469 24, for engines $138,088 76, for cars $255,247 13. Indebtedness of the company, $9,847,609 44. Due the company, $270,451 11. Received for transportation of passengers, property, mails and express and from other sources during the year, $1,054,066 14. Amount of freight transported during the year, 192,803 152-2,000 tons. Paid for repairs of engines, cars and buildings, and for taxes, interest and other expenses, being the current expenses of running the road for the year, $1,196,005 72. No dividends have been made. The number of engines and cars is as follows: 12 locomotive engines, 18 passenger cars, 6 baggage, mail and express cars, 36 box freight cars, 152 flat freight cars, 25 hand cars, 1 iron car, 18 section cars. The officers are: Richard P. Hammond President, Joseph L. Willcutt Treasurer, and James O. B. Gunn Secretary.

New York Canals.

The State Engineer and Surveyor, in his annual report on the Canals of New York, says that the navigable canals and feeders aggregate a length of about 907 miles, and, with the lakes and rivers artificially connected with them, make 1393 miles of navigation. The total cost of these canals, including their equipment and extraordinary repairs, is given at $100,717,995. It appears that the improvement of the chief of these works—the Erie Canal—is not yet completed, either in width or depth, in accordance with the original plan. It is estimated that, for the expenditure of $379 000, a uniform depth of seven feet can be secured. The State Engineer expresses great confidence that the progress made in the use of steam for towing purposes on the Erie Canals, will soon supersede all other kinds of motive power.

Scioto Valley Railroad.

A certificate of incorporation of the Scioto Valley Railroad, to extend from Columbus to Portsmouth was filed with the Secretary of State of Ohio on the 24th ult. The Capital stock is $2,000,000. The corporators are: William Monypeny, E. T. Mithoff, John G. Mitchell, T. Ewing Miller, W. B. Hayden, John C. English and John Joyce. The Columbus Journal says they are backed by a strong firm of capitalists in New York, represented by George D. Chapman, who propose to build the road, providing their own right of way, for a subscription of $5000 per mile, to be paid when the trains are running.

☞ The Allentown News says it is reported from a very reliable source that the Allentown Iron Company has sold its entire immense quantity of pig iron, now in stock, at their works in that city, and consisting of 28,000 tons, to certain parties not mentioned, for $29 per ton. The transaction as reported involves the payment on the part of the purchasers of the immense sum of $667,000.

Obligations of Common Carriers.

The Illinois Supreme Court construes very strictly the obligations of common carriers. A shipper of butter and cheese brought suit against the Fort Wayne and Chicago Railroad for the value of a heavy shipment which had been spoiled during detention on the road. The railroad pleaded that the detention was by no fault of theirs, being the result of a strike of brakemen. The lower Court held that this was no excuse, and the Supreme Court has affirmed the decision. A railroad company cannot shield itself, according to the decision, by pleading that its agents have refused to do their duty. The lower Court had also decided that evidence showing that the detention was owing to assaults of the brakemen on the cars after they were discharged was inadmissible, and this decision also was sustained by the Supreme Court. The reason assigned was that the attacks were to be regarded as a continuation of those committed before the workmen were discharged, and were referable back to the original cause, the difficulty between the company and its employes, with which difficulty third parties have nothing to do.

Sonoma Valley Prismoidal Railway.

Articles of incorporation of the Sonoma Valley Prismoidal Railway Company were filed at San Rafael on the 18th of February. This company proposes to construct a one-track railroad to connect the town of Sonoma with deep water in Sonoma creek, near San Pablo bay, for the distance of 7 miles. Principal place of business, Sonoma. Capital stock, $100,000, divided into 1,000 shares of $100 each. Directors—A. S. Edwards, G. S. Wratten, Leonard Goss, M. McPherson, W. H. McGrew, Chas. Kohler, Henry Winkle, S. Heydenfeldt, I. S. Kohn. President, Leonard Goss; Vice-President, A. S. Edwards; Secretary, G. L. Wratten; Treasurer, William McPherson Hill. Two steamers, making both morning and evening trips, will connect the road with San Francisco. It is expected to be in operation by the coming Fourth of July.

☞ During the past year the Northern Central Railroad Company have been introducing steel rails for iron rails wherever it was necessary to keep up the condition of the road. About sixteen miles of steel track were laid during the year, and the work, which is done under the direction of Mr. Geo. C. Wilkins, general superintendent, will be continued, the design being to substitute steel for iron rails altogether. During the present year the Baltimore and Potomac road proposes doing the same whenever it is necessary to lay new rails for any considerable distance.

☞ By the annual report of the Directors of the Knox and Lincoln Railroad Co. for 1874, it appears that the total earnings of the year were $160,568 93, an increase over 1873 of $19,848 50. The net earnings over 1873 were twenty per cent. The increase of freight during the same time was 19,568 tons. The office of the company is at Bath, Me. C. A. Coombs is superintendent of the road.

☞ Thomas D. Messler has been re elected President, and Joseph H. Davis, Secretary of the Cleveland, Mount Vernon and Columbus Railroad Co.

FISK & HATCH,

Bankers,

5 Nassau St., N. Y.

Government Bonds of all issues and denominations bought and sold direct at current market rates, in large or small amounts to suit all classes of investors and Institutions, and for immediate delivery; and all business connected with investments in Government Bonds, transfers of Registered Certificates, Exchange of Coupon Bonds for Registered, Collection of interest, &c., attended to on favorable terms.

All other marketable Stocks and Bonds bought and sold on Commission; Gold Coupons and American and foreign Coin bought and sold; approved deposit accounts received.

FISK & HATCH.

Warehouse Receipts.

An important decision was recently given by the New York Court of Appeals relative to the value of warehouse receipts. The point is this: The First National Bank of Toledo advanced $15,945 80 for the purchase of a cargo of wheat under an agreement that drafts should be drawn upon certain parties in New York and that the bills of lading should be given in the name of the bank as a security for the payment of the drafts. When the wheat arrived in New York it was put in a warehouse by the purchaser, who received the usual warehouse receipt from the warehouseman, and upon this the warehouseman borrowed $14,400 from the Guaranty and Indemnity Company. One of the drafts forwarded against the property was for $14,000 at thirty days, and when it became due the parties upon whom it was drawn being insolvent, it went to protest. The Guaranty Company then claimed the grain, and at the trial of the case a verdict was ordered in their favor. This verdict has now been reversed by the Court of Appeals, on the ground that the grain was the property of the bank, and that the warehouseman had no right to issue any receipt to any one except the owner, as the mere fact of possession is no evidence of title.

☞ At the election of the Burlington, Cedar Rapids and Minnesota Railroad Company held at Cedar Rapids, Iowa, on the 27th ult., the following gentlemen were elected directors:—John J. Blair, Moses Taylor, William E. Dodge, A. B. Crane, New York; James Blair, Pennsylvania; D. C. Blair, New Jersey; S. B. Wisner, George Douglas, W. W. Walker, A. S. Belt, A. H. Spangler, Cedar Rapids; T. W. Barbydt, Burlington, Iowa. The following were elected officers:—John J. Blair, President, S. P. Wisner, Vice President, W. W. Walker, Treasurer, and General Superintendent, A. S. Belt, General Solicitor, H. B. Stibbs, Assistant Treasurer, W. H. Pettibone, Assistant Superintendent, D. W. C. Rowley, Secretary, Charles E. Vail, Assistant Secretary, J. C. Brockemidt, Auditor, C. J. Ives, General Freight and Ticket Agent, J. W. Traer, General Agent.

☞ Negotiations are in progress for the construction of a narrow gauge railroad on the island of Nantucket, to extend from the village of Nantucket, through Town Pasture, The Plains and head of the Plains to the South Shore a distance of five miles.

The Coal Trade.

The Philadelphia *Ledger* of March 1, reports the entire anthracite coal tonnage for the week ending February 20th at 123,724, against 186,208 in corresponding week last year, and 1,563,298 for the new year against 1,980,996 to same date in 1874. The bituminous tonnage for the week is 37,095 tons, and for the year 239,488 tons, against 247,864 tons to corresponding date last year. The total of both kinds of coal for the week is 160,819 tons, and for the year 1,802,786 tons, against 2,227,860 tons to same time in 1874, being a decrease of 425,074 tons. At Port Richmond for the week ending the 27th ultimo there were no receipts of coal and the shipments but 7500 tons, leaving 57,500 tons on hand. The *Ledger* adds:

The retail coal trade in this city continues fairly active, while at some points not readily accessible by railway the stocks are diminishing, of which retailers take advantage and advance prices. An advance of a dollar per ton is reported at Boston. A scarcity of coal is reported at some of the iron works on the line of the Reading Railroad, by reason of scarcity of coal production in the Schuylkill region, while others are receiving supplies from the Wyoming coal region. The public monthly sale of Scranton coal at New York was suspended for the month of February, and it is stated at the office that the auction sales are discontinued, and hereafter the coal will be disposed of only at private sale. In the coal regions the workmen are moving in the direction of higher wages. The old stock of coal is running down, and a demand will soon be urgent for the new production. We may now look daily for the announcement of the new programme of the carrying companies, and soon after that, if there shall be a demand for coal, active work in the coal regions. The Pennsylvania Coal Company has already issued its annual circular to its customers, and will dispose of its production during the season of navigation of 1875 at prices to be fixed monthly for delivery in subsequent months. The conditions under which orders will be received will be, in the main, the same as required by the company during the past three years. Orders for coal for the season will be entered until March 10, and notice of intention to take the coal ordered at the price fixed by the company must be given on or before the 24th day of each month. Freight on the coal in the company's boats and barges from Newburg to New York will be at the rate of 65 cents per ton. The associated coal companies have had several conferences, but have not completed their arrangements for the season. The companies also have decided not to make "short contracts" this season. The question of tonnage is being carefully considered. Rates, it is believed, will be substantially the same as last year. The Philadelphia and Reading Railroad Company will to day issue their opening rates of freight and tolls on coal, showing a reduction of 25 cents, or 12½ per cent to Philadelphia and Richmond, and a proportionate reduction to all points on their main line and branches. They will, however, charge 15 cents per ton shipping expenses on all coal shipped from Port Richmond, making an actual reduction of 10 cents per ton on all coal shipped.

Post-Route Maps.

The topographical division of the Postoffice Department has been engaged for some time past in the preparation and publication of maps of the different States, showing the mail service therein. It is only within a few years past that these maps have been undertaken, and they have proved of vast service to the department in the transmission of the mails. Maps of the Eastern and Middle States were first completed, and surveys are now being made elsewhere, a preliminary map of Virginia and West Virginia having just been completed. Mr. W. L. Nicholson, topographer of the Postoffice Department, who has charge of this work, is the first man employed by the department in this connection, and has evidently discharged his duties in a most faithful and skillful manner.

☞ At the annual meeting of the Lawrence Railroad Company held in Pittsburg on the 26th inst., a board of directors was elected with Thomas D. Messler as president. The report which was presented states that after paying quarterly dividends of two and a half per cent on the stock there was credited to account of surplus profits about one per cent. This account now amounts to $42,486 40, or nearly ten per cent on the capital stock.

☞ The loan solicited by the Republic of Colombia has been subscribed for in London to the amount of $3,000,000, and is issued at 81, with an annual interest of seven per cent and two per cent sinking fund. The contract has been submitted for approval to the National Executive at Bogota. The rent paid by the Panama Railroad to the Colombian Government, to the amount of $210,000 a year, has been offered as a guarantee to cover the interest on the loan.

The Great Southern Railway Co.
(CONSOLIDATED)
UNDER CONSTRUCTION IN
GEORGIA & FLORIDA,
OFFER FOR SALE ITS
First Mortgage Land Grant and Premium Bonds.

Payment Secured by First Lien on 500 Miles of Railway, Equipment, Franchises, Steamers, and
6,400,000 Acres
of selected Yellow Pine, Cedar, Live Oak, Cotton, Sugar, and other valuable Agricultural Lands. Also a Sinking Fund from Earnings of the Road.

Bonds Redeemed, with Premium, Six times in each year, beginning January, 1875.

Every Bond, when Redeemed, must receive a Premium from $1.00 to $50,000, besides the Original cost of the Bond.

The Company will receive the Bonds at par in payment for Land and for transportation of passengers and freight over its line.

The Great Southern Railway Company is incorporated by the Legislatures of Georgia and Florida. It is designed to connect the Railway system of the United States with Cuba and the other West India Islands, Southern Mexico, and Central America, the Panama Railway and South America. It is a direct, immediate, *and the only possible railway line*, stretching four hundred miles South of any other railroad, *between the temperate zone and the tropics of America*, between 50,000,000 people in the United States and Canada, and 40,000,000 in the West Indies, Central and South America.

It will reduce the water transportation between the Railroad system of the United States and Cuba to a **run of only Five Hours by Steamship**, *and to Southern Mexico, Central America and South America it will shorten the line* **Sixteen Hundred Miles** *over the route now generally traversed.*

In a Political and Military point of view, the importance of this line to the United States can hardly be overestimated.

In the transportation of **U. S. Mails, Express and Fast Freights, Military Stores and Supplies, Sea Island Cotton, Tropical Fruits, Market Gardening**, &c., it will do a larger business for the length of its line than any railway in the United States.

It will be a Commercial and Political bond of peace and amity between the people of North and South America.

HON. THOMAS W. OSBORN, *President.*
JAMES W. JOHNSON, *Treasurer.*
WM. F. WHEELER, *Secretary.*

Manufactory of the Spencerian Steel Pens, Birmingham, England.

SPENCERIAN

DOUBLE ELASTIC

STEEL PENS

The superiority and excellence of these justly celebrated Pens, are appreciated, as is shown in their constantly increasing sale. They are comprised in 15 numbers, of which *one number* alone has an annual sale of more than

5,000,000.

The *Spencerian Pens* are manufactured of the very best material by the most expert workmen in Europe, and are famous for their elasticity, durability, and evenness of point.

The Spencerian Pens are for Sale by all Dealers.

We make Fifteen Numbers of Pens, differing in flexibility and fineness of point, adapted to every style of writing, as follows:

No. 1. College Pen. *Point Fine; Action Perfect.* This is a great favorite with our leading penmen, is largely used in the Schools and Commercial Colleges throughout the country, and gives better satisfaction than any Pen before the American Public.

No. 2. Counting-House Pen. *Point Fine and Flexible,* well adapted to the use of Correspondents and Accountants.

No. 3. Commercial Pen. *Point Medium.* An Easy Writing Business Pen.

No. 4. Ladies' Extra Pen. *Point Extra Fine and Flexible.* For Delicate Fine Hand Writing this is a very superior Pen.

No. 5. School Pen. *Point Fine, Medium in Flexibility.* For a durable School Pen it has never been equaled.

No. 6. Flourishing Pen. *Point Long, Flexible and Medium in Fineness.* For Off-hand Flourishing.

No. 7. Quill Pen. *Point Medium, Quill Action.* A Smooth, Easy Writing Pen. Its name well represents its qualities.

No. 8. Congress Pen. (New.) *Medium Flexible Point.* A *very* superior Pen for all styles of writing. This Pen undergoes a process that renders it non-corrosive and *three times* more durable than any ordinary steel Pen.

No. 9. Bank Pen. *Point Long and Flexible.* A great favorite with Accountants, Tellers, &c.

No. 10. Custom-House Pen. *Point Medium.* Well adapted to all styles of Bold-hand Writing.

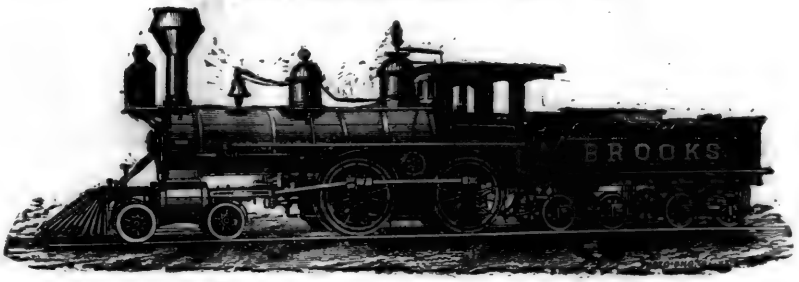
No. 11. University Pen. *Point Medium, very Smooth and Flexible.* The action of this celebrated Pen is very fine.

No. 12. Epistolaire Pen. *Point very Fine and very Flexible.* This is the Finest Pointed Pen made, and for very Delicate Writing, Map and Fine Pen Drawing, it has no equal.

No. 13. Engrossing Pen. *Point Blunt and Smooth.* Particularly adapted to Coarse-hand Writing and Engrossing.

No. 14. Artistic Pen. *Flexible, with extra fine Point.* This Exquisite and Truly Celebrated Pen is the Best Pen extant for Fine Ornamental Writing.

No. 15. The Queen. *Point extra fine.* Admirably adapted to all kinds of Fine Writing.



☞ *Sample Cards containing all the FIFTEEN Numbers, securely enclosed, will be sent by mail on receipt of 25 cents.*

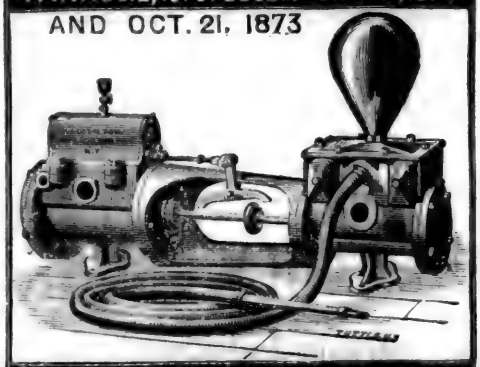
SIMEON SHELDON, Engineer.



Nevada County Narrow Gauge Railroad.

The Nevada City Transcript of Feb. 16th says that the contractors, Messrs. Turton & Knox, have got fairly started in building the Colfax and Nevada Railroad, and then adds:

They have erected their camps and commenced work near the Central Pacific Company's bridge which crosses Long Ravine, being two miles from Colfax. On either side of the bridge work is being done. Yesterday they had 175 men and seventy horses at work. On Wednesday they expect to have about 400 workmen, and the force will be increased as fast as they can work men to advantage. The line selected runs about as follows: It leaves Colfax on the right or east side of the Central Pacific Railroad, and running on the slope of Rice's ravine, running nearly parallel to that railroad, crossing under the Long Ravine bridge; thence on the divide between the head of the ravine, down the eastern side of Long ravine, on the slopes of the hill to Bear river. The road is located to Bear river, and the permanent location will be completed to this city in a few weeks.

☞ The question of a narrow gauge railroad to the iron mines of Bull creek is seriously agitated in Chico.

The Engineer in charge of the Locomotive attaches the Hose A to a steam valve in the boiler. Steam passed through the pipe D and slip joint F into the globe H, producing a vacuum; the water is then lifted through the pipes I I and forced through the column E and hose C into the tender, filling any ordinary tender in about three minutes. When steam is shut off all the water in the pipes returns into the well, and any condensed steam passes off through the drip valve G, leaving nothing to freeze. The handle B serves to turn the discharge pipe and hose in any direction. The water delivered into the tender is warm, thus utilizing the steam used. The discharge tubes, represented above made of hose, can be made of iron if preferred.

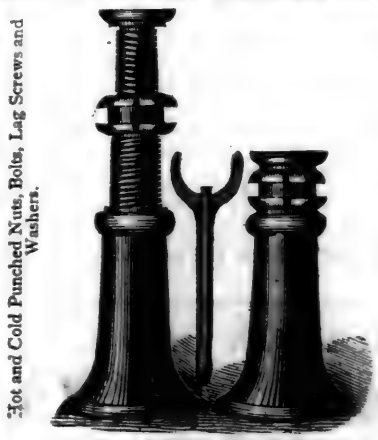
THE WHARTON
Safety Railroad Switch.

BOTH RAILS of the main track absolutely immovable, continuous and unmutilated.

This Switch provides perfect safety for both the main track and the side track, besides removing all switches from the main track as effectually as if there were no sidings on the whole line.



They have been in use on various important Railroads for over two years, and have repeatedly saved passenger trains from destruction, when running at high speed, (from 30 to 45 miles per hour,) at places where by accident the Switch had been left set for the siding.

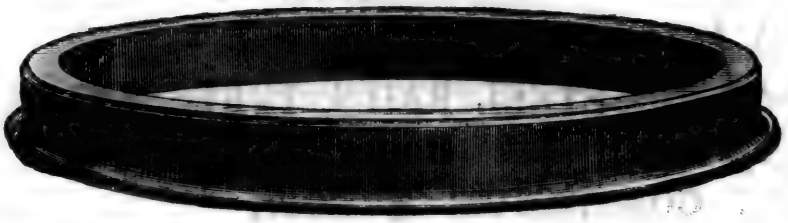
Bethany and Washington Railroad.

The Wheeling (West Va.) Intelligencer says a very decided interest appears to be felt in the projected railroad from a point on the river opposite Portland, Ohio, to Washington, Pa., via the Buffalo Creek Valley. Meetings have already been held at Bethany and other places in the interest of the road. The section of country through which the road would pass is one of the richest in all that region. The route is thickly settled, the lands are rich, and there is an abundance of coal. The design is to connect the river with the Chartiers road, already built to Washington, Pa., from Pittsburgh; also with the Hempfield and with the projected narrow gauge road from Washington to Waynesburg. The prime object, however, of those just now moving in the matter is to get the road built from the river across Brooke county into Pennsylvania, and thus open up cheap transportation for the resources of the rich Buffalo Creek valley. The capital stock of this projected enterprise is for the present limited to $100,000, with power to increase to $500,000 in the future.

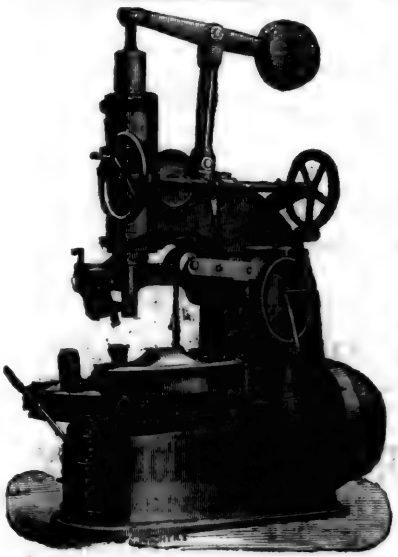
Essex County Railroad.



The organization of the Essex County Railroad was completed on the 23d inst. at a meeting held at the office of the Boston, Revere Beach and Lynn Railroad, No. 48 Congress street, Boston, and the following Board of Directors was elected: S. A. Bradbury, Alpheus P. Blake, John G. Webster, David Loring Henry S. Washburn, John Wetherbee, Henry Breed, J. A. B. Morton, T. W. Porter, Edward Kavanaugh, John W. Beals, John N. Brown and John W. Partridge. Subsequently Mr. Bradbury was elected President, Charles M. Loring Clerk, and John Wetherbee Treasurer.

The new road is to commence at a point in Salem near Peabody, thence running into Peabody, Lynn, Swampscott and again into Lynn, to a point at or near the termini of the Boston, Revere Beach and Lynn Railroad in Lynn.

Also a branch beginning in Nahant and intersecting with that portion of the road heretofore described at a convenient point in Lynn.



The meeting passed a vote authorizing and instructing the officers to proceed forthwith to secure the franchise, &c., of the new road, under the general Railroad law, and work will commence at once.

HUDSON RIVER CEMENT WORKS,

Manufactory at Kingston, N. Y.

(LATELY IN JERSEY CITY, N. J.,)

MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic [Diamond A] Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from our (lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, tight, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."

E. M. Brigham, KINGSTON, N. Y. J. H. Butts, Ag't, 95 LIBERTY ST., N. Y.

HOFFMAN ROSENDALE CEMENT,

Being the STANDARD CEMENT used at the
BROOKLYN NAVY YARD.
MADE AND SOLD BY
THE LAWRENCE CEMENT CO.
M. W. WOODWARD, Sec'y,
No. 67 William St., N. Y.

LAWRENCEVILLE CEMENT COMPANY.

ROSENDALE
HYDRAULIC CEMENT.

This Company Manufacture Hydraulic Cement of a Superior quality at Rosendale Ulster County, New York. This brand of Cement has been extensively used for past years upon Fortifications and Government Works, giving universal satisfaction, meeting the approval of our best Architects, Engineers, Contractors and Builders.

It is put up in substantial barrels, made by the Company, thoroughly seasoned and well papered, containing 300 lbs. of Cement.

All orders will receive prompt attention.

WM. N. BEACH, Pres't,
96 Wall Street, New York.

DELAFIELD & BAXTER CEMENT COMPANY,

MANUFACTURERS OF HIGH FALLS
ROSENDALE CEMENT.

WE are prepared to enter into arrangements for supplying our CEMENT for public works, or other purposes. We **warrant it equal in every respect** to any manufactured in this country. It attains a great degree of hardness, sets immediately under water, and is a **superior article** for masonry coming in contact with water, or requiring great strength.

For sale in tight barrels, well papered, on application at our office, **115 Broadway, New York.**

THE James Cement Co.,

(Successors to J. B. JAMES,)

Manufacture a superior quality of ***Rosendale Cement,*** put up in good barrels made by themselves, and well papered. Address

J. B. JAMES, Pres't,
24 Dey St., New York.

FOUNDRY FACINGS & SUPPLIES

OF ALL KINDS.

Bituminous Coal, Sea Coal, Lehigh, Mineral, Charcoal, Black Lead, &c., &c.

Also **Screws, Brushes, Molders' Tools,** and all articles required for foundry use.

BOYD & PEASE,
Manufacturers,
508, 526 & 528 East 18th St.,
NEW YORK.

New York, Saturday, March 13, 1875.

The China Trade and its Carriers.

There are on the further side of the Pacific Ocean four hundred millions of Chinese and thirty millions of Japanese, industrious and ingenious populations both, having many products which Europeans and Americans want, and who in turn desire many articles which Europeans and Americans can produce with advantage. It would be presumptuous to attempt to assign any limit to the development of the commerce which may be carried on between these two great branches of the human race. Since the first opening of the ports of China and Japan, within the memory of middle aged men, the trade with Western nations has steadily increased, so that it now employs an important portion of the sailing vessels of England and the United States; and every year gives promise of further interchange of commodities. The importation of teas has risen from 20 to 80 millions of pounds within a few years; that of silks, rice, mattings, and explosives is rapidly increasing.

It is important that the United States as a commercial nation should not be deprived of her proper share of this vast commerce, and particularly of the carriage of it, inasmuch as we are nearer to the Chinese and Japanese ports than England is, and in diplomacy ought to suffer no disadvantage in the estimation of the Chinese. Besides our lines of clippers, which must necessarily make the circuit of the Southern Capes, we have at present but a single line of American Steamers plying to Chinese ports —the Pacific Mail Steamship Company. It is greatly to be regretted that, by some strange past mismanagement of this important corporation, the favor of the government has so far been lost as to deprive it of the half million additional subsidy for carrying the mails to those waters. If the recent overturn in the management of the company, accompanying the loss of the subsidy, shall result in an earnest endeavor to win back success, by economy and strict attention to the legitimate business of the company, it may prove to be a great blessing to the country as well as a relief to the shareholders.

The change in the management of the Pacific Mail brings the Steamships of the Company, and, by alliance, the railroad of the Panama Company also, virtually under control of the two Pacific Railroad Companies; so that hereafter there will be no conflict or ruinous competition between them for the overland or China business, but it will be distributed as may be best for the good of both the land and water lines. As we understand it, the Central Pacific and Union Pacific Companies with other parties, moved by the hostile policy of the old Pacific Mail management, had previously committed themselves to the establishment of a new line of steamers between San Francisco and China, and that three or four of the large iron steamers of the "White Star Line," had been chartered for this service. From this engagement they will not now withdraw in consequence of their ascendancy in the Pacific Mail's management, but will put on the Occidental and Oriental new steamers on the China route in addition to the old line.

This is by far the most valuable part of the Pacific Mail Company's business; indeed it was from the profits on this portion of the service, they expected to maintain the lines between San Francisco and New York, via the Isthmus of Panama, in opposition to the land lines. The line between San Francisco and Panama, on the Pacific, has long been superseded by the rails, and its natural traffic shrunk to insignificant proportions. It will now probably be discontinued, or greatly abridged. On the Atlantic the route between New York and Aspinwall has considerable traffic between New York and the South American ports, and may be maintained almost unimpaired. The freights to and from the Pacific will now, of course, pass over the Pacific roads, with the exception of such articles as timber, iron, etc., which may be best and cheapest carried around Cape Horn by sailing vessels. The China business, under the stimulus of the two classes of steamers, may be expected to pour into San Francisco a much larger volume than ever before, all of which will inure to the benefit of the Central and Union Pacific roads, while the position of the Pacific Mail Company will be an improvement on its former one of opposition.

Monument to Oakes Ames.

At the annual meeting of the stockholders of the Union Pacific Railroad, held in Boston on the 10th inst., the following resolution offered by Mr. Oliver Chapman of Canton and seconded by Hon. E. H. Rollins was adopted by a unanimous vote:

Resolved, That in honor of the memory of Oakes Ames, and in recognition of his services in the construction of the Union Pacific Railroad, to which he devoted his credit, his means and his best energies, with a courage, fidelity and integrity unsurpassed in the history of railroad construction, the Directors are requested to take measures (in co-operation with such friends as may desire to contribute) for the erection, at some point upon the line of the road, of a suitable and permanent monument.

It is proposed to erect a monument in the form of an enduring arch, to span the road at Sherman, the summit of the line.

Pennsylvania Railroad Company.

TWENTY-EIGHTH ANNUAL REPORT.

OFFICE OF THE PENNSYLVANIA RAILROAD CO.,
Philadelphia, March 9, 1875.

To the Shareholders of the Pennsylvania Railroad Company:

The Directors submit the following report of the operations of the company for the year 1874:

ALL LINES EAST OF PITTSBURGH AND ERIE.

The total earnings and expenses of the Main Line from Pittsburgh to Philadelphia, including Branch and Leased Lines, and from Philadelphia to New York, including the Delaware and Raritan Canal and Belvidere Delaware Railroad and Flemington Branch, and from the Philadelphia and Erie Railroad, were as follows:

EARNINGS.

General freights		$24,715,418 15
Passengers		9,259,076 43
Emigrant passengers		229,892 13
Express matter		686,022 24
Mails		309,646 39
Miscellaneous		865,852 70
Canal earnings (Delaware and Raritan Canal)		1,320,519 23
		$37,386,427 27

EXPENSES.

(Excluding all Rentals.)

Conducting transportation	$8,618,842 32	
Motive power	5,998,146 87	
Maintenance of cars	1,943,106 80	
Maintenance of road	5,173,434 31	
General expenses	509,802 77	
Canal expenses (Delaware and Raritan Canal)	768,416 64	
		23,011,749 21
Leaving net earnings 1874		$14,374,678 06
Deduct rentals paid 1874.		
Philadelphia and Erie Railroad Company.	$1,068,786 27	
Belvidere Delaware Railroad Company.	442,000 11	
Other Branch Roads connecting with the Main Line between Philadelphia and Pittsburgh	543,928 87	
		2,054,715 25
Net earnings after paying rentals.		$12,319,962 81
Net earnings 1873	$13,199,551 55	
Deduct rentals paid 1873 Philadelphia and Erie Railroad Co.	428,756 36	
Belvidere Delaware Railroad Co.	322,310 11

Increase net earnings, Belvidere Delaware Railroad, 1874		119,690 00
Actual increase net earnings all lines east of Pittsburgh, 1874		$1,202,648 41

ALL LINES WEST OF PITTSBURGH.

The total earnings and expenses of the lines west of Pittsburgh, operated by the Pennsylvania Company or controlled through other organizations in the interests of this company for the year 1874, were:

Gross earnings	$25,551,926 99
Gross expenses, excluding rentals.	16,410,896 08
Net earnings 1874	$9,141,027 91
Deduct rentals and interest	8,296,689 48
Net profit 1874	$844,338 43

SUMMARY OF LINES EAST AND WEST OF PITTSBURGH

Gross earnings all lines, 1874	$62,938,351 26
Gross expenses, excluding rentals, interest, dividends, &c.	39,422,645 29
Net earnings	$23,515,705 97

MAIN LINE.

The revenues and expenses of your Main Line between Philadelphia and Pittsburgh, with the following branches—East Brandywine and Waynesburg Railroad, Pennsylvania and Delaware Railway, Columbia Bridge, York Branch, Mifflin and Centre County Railroad, Sunbury and Lewistown Railroad, Bedford and Bridgeport Railroad, Tyrone and Clearfield Railway, Bald Eagle Valley Railroad, Hollidaysburg Branch and Morrison's Cove Railroad, Newry Railroad, Ebensburg and Cresson Railroad, Indiana Branch, Western Pennsylvania Railroad, Southwest Pennsylvania Railway, Lewisburg, Centre, and Spruce Creek Railroad, and Danville, Hazleton, and Wilkesbarre Railroad—during the year 1874, were as follows:

EARNINGS.

From general freights	$17,227,504 69
" passengers, first class	4,107,752 17
" passengers, emigrant	151,185 51
" express matter	373,544 82
" mails	193,610 14
" miscellaneous	588,824 02
	$22,642,371 35

EXPENSES.

(Excluding Rentals.)

For conducting transportation	$4,635,129 82	
For motive power	3,535,352 22	
For maintena'ce of cars	1,256,452 76	
For maintena'ce of road	2,859,373 06	
For general expenses.	415,210 84	
		12,701,518 20
Leaving net earnings, 1874		$9,940,853 15
Deduct rentals paid branches		543,928 87
Net earnings, after paying rentals.		$9,396,924 28
The net earnings Pennsylvania Railroad and Branches for 1874 as above stated, were		$9,396,924 28
Those of 1873 were		9,445,703 74
Showing a decrease in net earnings, 1874		$48,779 46
The gross earnings in 1874 were		$22,642,371 35
And in 1873 were		24,886,008 90
Showing a decrease in gross earnings		$2,243,637 55
The gross expenses in 1874 were		$13,245,447 07
And for 1873		15,440,305 16
Showing a decrease in gross expenses		$2,194,858 09

Of the above earnings there was received from the 358 miles of main line—

In 1874 (56,702 94/100 p. m. of road).	$20,299,330 88
In 1873 (62,314 19/100 p. m. of road).	22,308,481 68
Showing a decrease from main line	$2,009,150 80

And from the Branch Lines leased and owned by the Pennsylvania Railroad Company, excepting the Philadelphia and Erie Railroad and United Railroads of New Jersey:

In 1874, 519 miles in length	$2,343,040 47
In 1873, 511 miles in length	2,577,527 22
Showing a decrease from Branches.	$234,486 75

The gross earnings of branch lines operated by your company in 1874, as already stated, were | $2,343,040 47

The expenses of operating them, including rents of the leased branches, were	2,231,969 76
Showing a net direct profit of	$111,070 71

The whole number of passengers carried in 1873 was 5,879,684, and in 1874 was 6,088,103, showing an increase of 208,419.

The average distance traveled by each passenger was 28 7/10 miles, being 1 48/100 less than in 1873.

The number of tons of freight moved (including 491,473 tons of fuel and other materials for the company's use), was 9,118,419 tons, embracing 4,209,337 tons of coal.

It was the previous year 9,998,791 tons, showing a decrease of 880,372 tons or about 8 8/10 per cent. The decrease in coal tonnage was 318,164 tons.

The actual cost of operating your railroad including Branch Lines in 1874 was 58 49/100 per cent of receipts, and excluding Branch Lines, 54 25/100 per cent of receipts.

The net earnings of the Pennsylvania Railroad between Philadelphia and Pittsburgh, and Branches, as already stated were		$9,396,924 28
To which add interest and dividends received from investments, &c.	$4,305,015 96	
Less interest paid on bonds of the company, floating debt, &c.	2,514,459 86	
		1,790,556 10
		$11,187,480 38
From which deduct two semi-annual dividends of 5 per cent or 30 per cent per annum	$6,779,688 12	
Rent of Harrisburg & Lancaster Railroad.	132,572 94	
State taxes	615,725 83	
Instalments paid to the State of Pennsylvania, on account of principal and interest of purchase of the Main Line of Public Works, which has thus been reduced from $7,500,000, the amount of original purchase, to $5,201,675 41, all of which has been paid from the net earnings of the Railroad	460,000 00	
		7,987,986 89
Leaving a surplus net profit for 1874, of		$3,199,493 49

THE UNITED RAILROADS OF NEW JERSEY.

The earnings of the United Railroads of New Jersey and Branches, and of the Philadelphia and Trenton Railroad, in all 276 miles of road, were, in 1874:

From general freights	$3,713,597 78
" passengers, first class	4,427,176 14
" passengers, emigrant	77,021 83
" express	270,251 03
" mails	68,121 14
" miscellaneous	144,801 44
	$8,700,969 36

EXPENSES.

For conducting transportation	$2,984,291 53	
For motive power	1,589,626 21	
For mainten'ce of cars.	870,155 62	
For mainten'ce of road	1,291,368 13	
For general expenses.	94,591 93	
		6,830,033 42
Leaving net earnings 1874		$2,370,935 94

The whole number of passengers carried in 1874 was 7,837,317, and in 1873 was 8,003,043, showing a decrease of 165,726, or about 2 per cent.

The average distance traveled by each passenger was 21 1/10 miles, being 3/10 of a mile more than in 1873.

The number of tons of freight moved (including 190,424 tons of fuel and other material for the company's use), was 3,467,952 tons, embracing 1,521,474 tons of coal.

It was the previous year 3,051,577 tons, showing an increase of 416,375 tons, or about 13 64/100 per cent.

The actual cost of operating the United Railroads of New Jersey, including branches, deducting transit duties, rent of Connecting Railway, and interest on property, and excluding Belvidere Division, in 1874, was 69 26/100 per cent of the receipts.

BELVIDERE DELAWARE RAILROAD.

The earnings of the Belvidere Delaware Railroad, 68 miles, and the Flemington Branch, 12 miles were, in 1874 :

From general freights	$1,001,502 43
" passengers	197,972 23
" express matter	4,123 70
" mails	6,274 24
" miscellaneous	5,775 45
	$1,215,648 05

EXPENSES.

For conducting transportation	$242,928 83	
For motive power	188,614 78	
For maintenance of cars	100,438 14	
For maintenance of road	246,666 19	
		773,647 94
Showing balance to credit of Belvidere Delaware Railroad and Flemington Branch, for 1874		$442,000 11
Deduct interest on bonded and floating debt, taxes, &c., paid by H. B. Ely, Treasurer, Trenton		246,637 49
Net earnings		$195,362 62

The whole number of passengers carried in 1874 was 414,480, and the average distance traveled by each was 16 7/10 miles.

The number of tons of freight moved (including 16,675 tons of fuel and other materials for the company's use) was 1,473,953, embracing 1,311,696 tons of coal.

It was last year 1,444,578 tons, showing an increase of 29,390 tons, or 2 3/100 per cent.

The actual cost of operating the Belvidere Delaware Railroad, including Flemington Branch, in 1874, was 63 64/100 per cent of its receipts.

THE DELAWARE AND RARITAN CANAL.

The earnings of the Delaware and Raritan Canal in 1874 on 44 miles of canal and 17 miles of feeder were :

From tolls	$866,093 21
From steam towing	440,180 00
From miscellaneous	14,246 02
	$1,320,519 23

EXPENSES.

For mainten'ce of canal	$179,973 18	
For canal operation (including $46,793 33/100 of drawbacks)	210,225 09	
For steam towing	378,218 87	
		768,416 64
Leaving net earnings, 1874		$552,102 59
Showing a decrease in net earnings, 1874		$154,676 07

The number of tons of freight moved was 2,308,671 tons, embracing 1,548,308 tons of coal.

It was last year, 2,754,837 638/2240 tons, showing a decrease of 446,166 638/2240 tons, or about 16 1/10 per cent.

The actual cost of operating your Canal was 58 19/100 per cent of its receipts.

The earnings of the Philadelphia and Trenton Railroad and Branches 38 miles, and of the United Railroads of New Jersey and Branches 238 miles, Belvidere Delaware Railroad 68 miles, and Flemington Branch 12 miles, and the Delaware and Raritan Canal 61 miles including feeder, in 1874, were as follows :

Gross earnings United Railroads of New Jersey Division	$8,700,969 36	
Gross earnings Delaware and Raritan Canal	1,320,519 28	
Total		$10,021,488 59
Gross expenses of United Railroads	$6,330,033 42	
Gross expenses of Delaware and Raritan Canal	768,416 64	
		7,098,450 06
Net earnings from operation of lines		$2,923,038 53
Amount received from investments United Railroads	239,614 30	
Amount of earnings received from Belvidere Delaware Railroad Co.	195,362 62	
		$3,358,015 45
Amount paid account of dividends, interest, organizations, &c., United Railroads of New Jersey	3,389,176 45	
Loss in operating United Railroads and Canal	$31,161 00	
The net profit of the Pennsylvania Railroad, after paying interest and dividends, &c., as before stated, was		$3,199,493 49
From which deduct loss on New Jersey Railroads	31,161 00	
Leaving as surplus net profit on the whole line from New York to Pittsburgh, after providing for a ten per cent dividend and interest, &c		$3,168,332 49

PHILADELPHIA AND ERIE RAILROAD.

The earnings of the Philadelphia and Erie Railroad in 1874 were :

From freights	$2,772 813 25
From passengers	527,910 68
From express matter	38,102 69
From mails	41,640 87
From miscellaneous	126,451 79
Total	$3,506,919 28

Or about 12,176 80/100 per mile of road.

EXPENSES.

For conducting transportation	$756,492 64	
For motive power	689,553 16	
For maintenance of cars	216,060 28	
For maintenance of road	776,026 93	
		2,438,133 01
Showing balance to credit of Philadelphia and Erie Railroad Co	$1,068,786 27	
Net earnings, 1873	428,756 36	
Increase net earnings, 1874	$640,029 91	

The whole number of passengers carried in 1873 was 777,273, and in 1874, 680,163, showing a decrease of 97,110, or about 12½ per cent.

The average distance traveled by each passenger was 25 2/10 miles being 1 4/10 miles less than in 1873.

The number of tons of freight moved (including 146,207 tons of fuel and other materials for the company's use) was 2,389,377, embracing 800,936 tons of coal.

It was last year 2,356,234 tons, showing an increase of 33,143 tons, or over 6 5/10 per cent.

The actual cost of working the Philadelphia and Erie Railroad in 1874 was 69 52/100 per cent of receipts.

It will be seen that from the net earnings of the lines owned and operated by your company east of Pittsburgh and Erie, through to New York, including the Delaware and Raritan Canal, and from the income derived from securities and other assets of your company, the total amount, after paying working expenses, that was available for interest, rentals and dividends was $19,114,670 94, as follows :—

Net earnings Pittsburgh to New York, including Philadelphia and Erie Railroad, Branch Lines, and Delaware and Raritan Canal		$14,374,678 06
Interest and dividends received from investments Pennsylvania Railroad Company		4,305,015 96
Interest from investments received with the lease of the United Railroads and Canal of New Jersey		239,614 30
Earnings received from Belvidere Delaware Railroad Company after paying interest, &c		195 362 62
Total amount available for rentals, interest, and dividends		$19,114,670 94
Out of which have been paid :—		
Interest on bonded and floating debt Pennsylvania Railroad Company	$2,514,459 86	
Rental paid Philadelphia and Erie Railroad	1,068,786 27	
Rental paid Belvidere Delaware Railroad	442,000 11	
Branch roads connected with the Main Line Pennsylvania Railroad	543,928 87	
Rent Harrisburg and Lancaster Railroad	132,572 94	
Dividends and interest, &c., paid on account of lease of United Railroads and Canal of New Jersey	3,389,176 45	
Taxes paid State of Pennsylvania	615,725 83	
Paid State of Pennsylvania on account purchase of Main Line	460,000 00	
Two semi annual dividends on Pennsylvania R. R. stock, 5 per cent. each, May and November, 1874,	6,779,688 12	
		$15,946 338 45
Leaving surplus net profit, as before stated of		$3,168,332 49
which has been transferred to profit and loss account.		
Surplus net profits from the same sources in 1873		$1,513,077 44
Being an increase over 1873 of		$1,655,255 05

The actual earnings from freight on the Main Line have been 1.255 cents per ton per mile
The cost of moving it .719 " " "

Showing a net earning of .536 " " "

The average earnings from freight traffic n 1873 were 1.41 cents per ton per mile, from which it will be seen that the public have received the whole benefit of the reduction to this low average charge for 1874.

The average earnings from freight on the New Jersey Line,

have been	2.084	cents per ton per mile.
The cost of transportation	1.767	" "
Showing a net profit	.317	" "
The average earnings from freight on Belvidere Delaware Division have been	1.431	" "
The cost of movement	.828	" "
Giving a net profit of	.603	" "
The average earnings from the Philadelphia and Erie Division have been	.941	cents per ton per mile.
The cost of transportation	.657	" "
Showing a net earning of	.284	" "

These results, in the cost of transportation of freights, will, we think, compare most favorably with those of any line in this country or elsewhere. They are due, first to the large volume of traffic moved, and second to the great economies consequent upon so much of your Main Line being laid with steel rails, the possession of first class equipment by all your roads, and the general reductions that have taken place in all that constitutes the needful outlays for working expenses, especially in the cost of material and supplies used by your company. It is hoped that with the revival of business, which would give a greatly increased volume of trade, these results may be maintained in the future.

By reference to the report of the General Manager, it will be found that there had been laid during the year on your Main Line 10,422 tons of steel rails, and on the several branches and sidings 827 tons, all of which have been charged to operating expenses. Up to the 1st of January, 1875, there had been laid in the main tracks of your Main Line 76,320 tons, or 725 miles of steel rails; in main tracks of branch roads 1584 tons, and in third and fourth tracks and sidings on your Main Line and Branches 6887 tons, being a total of 84,791 tons of steel rails now in use. During 1875 there will be laid a sufficient amount in addition to complete the entire double track of your Main Line from Philadelphia to Pittsburgh.

During the summer of 1875 a new iron double track bridge will be completed across the Delaware river at Trenton, and also a double roadway with iron superstructure at the same point. This will add greatly to the facilities of the transportation department.

The total freight traffic carried between Pittsburgh and Philadelphia in 1874, was	9,118,419 tons
The total freight traffic carried between Pittsburgh and Philadelphia in 1873, was	9,998,791 tons
Showing a decrease in 1874 of	880,372 tons

or $8\frac{8}{10}$ per cent. This decrease has been on westward bound through traffic, and in local traffic both east and west; the through eastward traffic having increased nearly 22 per cent.

The United Railroads of New Jersey show an increase in freight tonnage moved of $14\frac{33}{100}$ per cent., which is mainly due to the large increase in through and local business eastward.

The Delaware and Raritan Canal shows a decrease in net earnings of $154,676 07 caused largely by a falling off in coal, lumber, and other heavy traffic consequent upon the depressed condition of trade. Notwithstanding this, it will be noted that the United Railroads and Canal of New Jersey show very gratifying results as compared with those of 1873, having met every liability under the lease except $31,161, while in 1873 the net loss under the lease was $685,689 70.

The passenger traffic of your Main Line shows an average reduction of $1\frac{43}{100}$ per cent. in the number of miles traveled as compared with 1873, the first class and emigrant business showing a decrease, and the commutation and local business a gratifying increase. The latter is also the case on the New Jersey Division.

The expenditures for construction and equipment on your Main Line between Pittsburgh and New York in 1873, were	$10,906,155 00
In 1874 were	3,430,498 38
Showing a reduction of	$7,475,656 67
The advances for construction to Branch and Auxiliary Lines in 1873, were	$4,580,941 33
In 1874 were	1,177,686 66
Showing a reduction of	$3,403,254 67
The amount estimated as needful for construction and equipment purposes in 1875, to complete works now in progress, and fulfill engagements made with branch and connecting roads, will be:—	
On your Main line and New Jersey Divisions, including Delaware and Raritan Canal	$1,911,800 00
For completion of the Columbia and Port Deposit Railroad, advances to the Philadelphia and Erie Railroad, to branch roads, and other auxiliaries to your Main Line	1,288,200 00
Making the total amount required	$3,200,000 00
The report of the Pennsylvania Canal Company shows greatly improved results for the year 1874, the net results for the year being	147,745 20
The expenditures over receipts in 1873, were	317,396 13
Showing a gain for 1874 of	$465,141 33

The coal properties in which your company is interested show satisfactory results. The report of the Susquehanna Coal Company for 1874 shows:—

Gross earnings	$1,204,165 03
Expenses	918,276 29
Net earnings, 1874	$385,888 74
Net earnings, 1873	300,079 28
Showing a gain in net earnings over 1873 of	$85,809 46

The Summit Branch and Lykens Valley Companies show the following results:—

Gross earnings	$1,811,689 55
Expenses	1,599,304 90
Net earnings, 1874	$212,384 65
Net earnings, 1873	333,398 70
Showing a decrease in net earnings for 1874 of	$121,014 05

This decrease is owing to decreased production, and to expenditures made on the property to place it in condition for delivering an increased tonnage when trade improves.

The coal properties owned by your company, or in which it is interested, in the Shamokin and other regions, show the following results for 1874:—

Gross earnings	$697,309 06
Expenses	624,814 74
Net earnings for 1874	$72,494 82
Net earnings for 1873	51,058 61
Showing a gain over 1873 of	$21,435 71

The expenditures upon these properties have been very large, with the view of getting them into condition to yield greatly increased tonnage and revenue.

It is the purpose of your company to reorganize all their coal interests and place them under such form of organization as, it is hoped, during the current and succeeding years, will secure the most efficient economical working results, and greatly improved returns from these investments.

On the completion of the reorganization of your company June 1, 1874, the floating debt was $6,828,450 00
Of this amount there has been paid during the year 2,688,450 00
Reducing the same December 31, 1874, to $4,140,000 00

It is proposed by your Board that the entire floating debt of your company shall be paid off during 1875, by disposing of securities that are no longer of value for the purpose of controlling the roads by which they were issued.

A negotiation under date May 7, 1874, was concluded for the sale of three millions of pounds sterling of the consolidated 6 per cent. bonds of your company for the purpose of providing for the construction expenditures of 1874, meeting the second mortgage bonds of your company maturing March 31, 1875, and other obligations existing at the time of the negotiation. Your board take great pleasure in stating that these bonds were recently placed upon the London market, and that the whole amount was immediately taken; and the second mortgage bonds are now being paid at par, with accrued interest, to date of presentation.

The dividend scrip issued in December, 1873, maturing March 6, 1875, is also now being paid with its accrued interest to date of presentation.

Under the consolidated mortgage of July 1, 1873, your Board of Directors disposed of £2,000,000 of bonds in 1873, and of £3,000,000 in 1874. Of the latter, however, only £1,000,000 was paid for in 1874, leaving the remaining £2,000,000 to be paid for during 1875. The discount on all of the bonds of your company that have been sold and paid for previous to January 1, 1875, has been charged to Profit and Loss.

Annexed to this report will be found the General Account of the Treasurer, from which much valuable information may be obtained in relation to the financial condition of the company. The securities owned by your company, the par value of which is $90,629,085, as will be seen by reference to this account of the Treasurer, represent a cost of $68 542,568 78. Although these securities, if forced on the market, could not be made to yield in the aggregate the amount at which they stand charged, your Board of Directors have preferred to let them remain on the books at their cost, holding the amounts to the credit of the Contingent Fund and Profit and Loss ($11,021,643) as a margin to cover any possible depreciation in their value in the future. The interest received from these securities during the year 1874 was at the rate of about five per cent. per annum upon their cost, the remainder of the interest account being the amounts accrued on sundry open accounts that were settled during the year.

Your Board have closed many of the open accounts that were standing on the books of your company. The item of bills and account receivable, of $25,979,087 14 in the Treasurer's account for 1873, has thus been reduced to $11,166,098 99, and your company is now in possession of bonds, stocks, obligations, and cash, to represent such reduction. They hope to be able during the present year to adjust a number of accounts that are yet outstanding.

Mr. J. Edgar Thomson, who was identified with this corporation for more than twenty seven years, first as its Chief Engineer, and then as its President, died on the 27th day of May, 1874. The evidences of the value of his services to this company and to the railway system of America, are the enduring monuments that he has left in the permanent works with which he was connected during nearly the whole of his life. With the full report of your company for 1874 there will be found the premable and resolutions adopted by your Board at the time of Mr. Thomson's death, showing the appreciation in which he was held by his associates in the management of your company.

The death of Mr. Thomson rendered it necessary to make a reorganization of your company, and

your Board elected Mr. Thomas A. Scott, President; Mr. George B. Roberts, First Vice president; Mr. Edmund Smith, formerly Treasurer of the company, Second Vice president: Mr. A. J. Cassatt, formerly General Manager, Third Vice president; Mr. Frank Thomson, formerly Superintendent of Motive Power and Machinery, General Manager, and Mr. Strickland Kneass and Mr. John P. Green, Assistants to the President; Mr. T. N. Ely was selected as Superintendent of Motive Power and Machinery, to fill the vacancy caused by the promotion of Mr. Thomson. Under this reorganization the business of your company is now conducted.

Your Board is glad to announce to the shareholders that their property has been maintained in the best possible condition, and that the road way, equipment, and all other facilities of the line have been kept up to the highest standard. Your Board take great pleasure in expressing their acknowledgements to the officers, agents, and employees in every branch of the service, for the efficient and economical manner in which the business of your company has been conducted during the past year.

All of which is respectfully submitted,

By order of the Board.

THOMAS A. SCOTT, President.

GENERAL ACCOUNT.

To capital stock		$68,719,400 00
To first mortgage bonds due 1880	$4,970,000 00

BAYARD BUTLER, Treasurer.

Detroit, Lansing and Lake Michigan R. R. The earnings of this road for the year ending December 31, 1874, were $807,697 38, the expenses $449,254 22, and the net earnings $368,443 16. The road is 164 miles in length, extending from Detroit to Huron City, with 22 miles of branch lines and 21 miles of sidings, making an aggregate of 207 miles, of which 1¼ miles are laid with steel rails. The equipment consists of 26 locomotives, 26 passenger, 6 express, baggage and mail, 200 box, 450 flat, and 40 other cars. Eighteen passenger cars are equipped with the Miller Platform. The expenditures charged to cost of road and equipment during the year amounted to $153,772 29. Number of passengers carried during the year, 281,817. Tons of freight, 269,267. The funded debt of the company amounts to $6,054,000, unfunded debt $441,420 19, current liabilities $22,454 99—total, $6,517,875 18. Capital stock paid in $1,678,100. Total cost of road, $5,587,603 19. Cost of equipment $943,192 96. The amount of cash realized from sales of bonds was $4,929,500. Amount paid for interest, $235,933 53; do. falling due and not paid, $253,080.

☞ The Sacramento Record says it is rumored that a railroad will soon be built from Coos City to the Coquille.

Texas Pacific Railroad.

Commencing at San Diego, the line is nearly level for fifty miles; then rises for 110 miles, to an elevation of 2621 feet in the San Geogonio Pass; descends for sixty miles to the level of the sea; for fifty miles runs below the level in the Colorado Desert, at one place being 290 feet lower than the surface of the ocean. It crosses a ridge 487 feet high west of the Colorado, descends to 132 feet at Fort Yuma, rises 540 feet in ascending the Valley of the Gila 125 miles, crosses St. Valentine's Pass at an elevation of 1517 feet, descends 500 feet and rises again, with some slight variation of grade, to an elevation of 4452 feet, 580 miles from San Diego, and at a point about 75 miles northwestward from Tucson. For the next 400 miles, as we go eastward, the height above the sea is nowhere less than 3500 feet, and at Guadaloupe Pass between the Rio Grande and the Pecos, it reaches 5662 feet the highest point on the route. The crossing of the Pecos is made at an elevation of 2701 feet, the Sand Hill Ridge, east of it, is 3777 feet above the sea, and the descent is gradual, to Shreveport. The total distance to that place from San Diego is 1505 miles, of which nearly half is 2000 feet or more above the level of the sea.

The total sum of the ascents to be made in going either way is about 15,000 feet—and the distance from the port of Corpus Christi, Texas, to San Diego is only 1458 miles.—*Alta California.*

An Injunction against Car Manufacturers.

A decree has just been signed by Judge Woodruff, of the United States Circuit Court of the Northern District of New York, in a suit involving the validity of eleven patents covering different parts of street cars. The decree grants a perpetual injunction against the manufacture of street cars by John M. Jones & Co., and orders an accounting with the plaintiffs, John Stephenson & Co., which is set down for the 11th inst., before Judge Mason, in Utica.

The idea of street railways was first put into practical operation in New York City in 1831 by the construction of the New York and Harlem Railway. John Stephenson, who is now the largest manufacturer of street cars in the world, had then just completed his apprenticeship in the business of manufacturing the different kinds of ompibuses, and had started in business for himself. He was employed by the New York Railway Company to design and construct their cars. The first one finished was called the John Mason, and being a novelty a patent was taken out on it. Since that time the idea of tramways has been adopted in almost every civilized country, and almost everywhere that a tramway is to be found, Stephenson's cars are running on it. As the business of manufacturing increased, the different parts of the cars became the subjects of a large number of patents, many of which are on Mr. Stephenson's own inventions, and the most of which are now owned by him, he being now the sole proprietor of over fifty patents. These patents have nearly all been infringed upon by many of the street car manufacturers in this country, and the patentee has determined to enforce his rights. The suit which was commenced in 1873, and has now been carried to a successful termination, is the first one brought in pursuance of this resolution.

The complaint, presented by the plaintiff's attorney, Louis W. Frost, Esq, describes the eleven patents which cover: 1. A non-explosive lamp, consisting of a reservoir containing the oil, in which is set a well, tightly stuffed with wick. The oil has access to the wick only through a small hole in the well. Oscillation of the oil and consequent explosion are thus obviated. 2. The lamp box, the form of which is familar to all passengers. 3. An improvement in bracing and trussing the car. 4. The lever door handle. This shuts and latches, or unlatches, and opens the door with a single motion. 5. An improved running gear. 6. The new form of elevated and ventilating roof. 7. The new form of platform, with appendages. 8. An improved wheel box. 9. The colored signal lights for distinguishing cars of different lines. 10. The double way, upper and lower, on which the doors run. 11. Improved axle box, pedestal, and base plate.

The amount named in the prayer for relief, presented with the complaint, is $100,000, but the actual amount to be recovered will depend on the accounting before Judge Mason.

Union Pacific Railroad.

The annual meeting of the stockholders of this company was held in Boston on the 10th inst.

The meeting was called to order by the President, Sidney Dillion, Esq. Hon. E. H. Rollins was chosen Secretary.

Messrs. Seth Turner, Fred. L. Ames and John R. Brewer were appointed Inspectors of Election.

The annual report of the Directors of the Company was submitted in print, accepted and placed on file.

Mr. Royal E. Robbins, of Boston, offered the following resolution, which was adopted:

Resolved, That the report of the Board of Directors having been approved and adopted they are hereby requested to pay from the surplus earnings of the company a dividend at the rate of six per cent. per annum, payable quarterly, commencing July 1, 1875.

Mr. Isaac Thacher of Boston offered the following resolution, which was adopted:

Resolved, That the action of the Board of Directors, in proposing to the United States Government the payment into the Treasury of a fixed sum, to form a sinking fund to pay the Government debt and interest—this in lieu of all demand of all kinds of the Government upon the company—be and the same is hereby approved, and the Board of Directors, in their discretion, are hereby authorized to consummate the plan.

On motion of Hon. Seth Turner, the meeting proceeded to the election of fifteen Directors for the ensuing year, and the following were unanimously elected: Oliver Ames of North Easton; Elisha Atkins, Boston; F. Gordon Dexter, Boston; Benj. E. Bates, Boston; Oliver Ames 2d, North Easton; Ezra H. Baker, Boston; Sidney Dillon, New York; Jay Gould, New York; Chas. J. Osborn, New York; Geo. S. Scott, New York; Saml. M. Mills, New York; James D. Smith, New York; Jos. Richardson, New York; G. M. Dodge, Council Bluffs, Iowa; John Sharp, Salt Lake City.

The whole number of shares voted upon was 329,668 out of 367,450, which is the total number of shares issued.

Quicksilver.

The quicksilver product of California last year is reported by the San Francisco Commercial Herald at 28,200 flasks, which is slightly under the average for the previous five years. The quantity was from the following sources:

New Almaden, flasks	9,000
New Idria	7,000
Redington mines	7,200
Pope valley (Napa county) and Vallejo	1,900
Great Western	1,500
Napa Lake and Sonoma counties	1,500
Total	28,290

Recently sales have been made as low as $1 40 @1 45, with 2½ per cent off for large lots. The prospects are good for an increased yield during the current year.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "†."

American Railroad Journal.

Saturday, March 13, 1875.

Financial and Commercial Affairs.

Money has been more active since our last. The demand has grown mainly out of the largely increased dealings at the Stock Exchange, and the more animated speculative movement in the Gold line. The mercantile inquiry has also been more urgent, because of the augmented requirements of business people, in connection with the reviving Spring trade, in produce and merchandise. Call loans have been generally quoted at 3@4 per cent, and the best discounts at from 5@7 per cent per annum. The City banks have enlarged their loan and discount item, while reducing their averages, in other lines. The net aggregate reserve, as against liabilities, shows a decrease of $3,483,250. The U. S. Sub Treasury further augmented its specie reserve, while again slightly reducing its currency balance. The City banks last week reduced their reserve of legal tender notes $1,740,700, and their deposit item $3,496,600 while also diminishing their specie average $2,616,700. They report an increase of $488,800 in the loans and discounts, and a decrease of $72,400 in their circulation. The U. S. Sub Treasury in this city closed the week with a currency balance of $48,963,581, against $49,240,834, the preceding week; and a coin board of $49,562,566, against $48,334,079, on the previous return. The City bank exchanges in currency during the week, were $487,189,372, or a daily average of $81,199,895. The customs revenue of the port, during the week, was $2,711,000. The City banks reported their average of gold last week at $13,305,100, and their greenback average at $50,159,900. Their deposits stood at $230,110,900. The loan item was $292,505,800. The circulation was $22,410,100.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $5,937,275.

The aggregate of the outstanding U. S. currency, of all denominations, March 1, was $427,495,676. The outstanding amount of legal tender notes is 382 millions. The National bank circulation is now $345,898,527.

The U. S. Treasury balances on Monday were as follows: Currency, $9,834,886; special deposit of legal tenders for redemption of certificates of deposit, $46,080,000; coin, (including $22,077,300 in coin certificates,) $74,016,545.

Secretary Bristow is represented as about to issue another call for the redemption of coupon Five Twenty bonds, this time for thirty millions. The contemplated call has been very earnestly discussed, especially as to its probable bearings on the Gold and Money markets.

The import entries of Foreign Merchandise at New York, including dry goods, amount for the past week to $10,819,858.

The income of the Government, from internal revenues, thus far, in the fiscal year, commencing with July 1, 1874, has been 78½ millions.

The Gold speculation has been unusually interesting, rendered so more especially by the clique manipulations of the floating supply of Gold, now said to be almost wholly within the control of the operators for a rise, as against the *short* interest, which has been made to pay high rates on Gold loans, during the week. The demand for coin for custom House purposes has been fair, while the export drain has been comparatively light, considerably less than the imports of specie, which latter amounted for the week to $1,089,864 (including $485,000 by the Java, from Liverpool, $322,120 by the Pommerania, from Hamburgh and Havre, $159,830 by the Mosel, and $120,000 by the Weser from Southampton), against exports of only $588,761. The extremes of the week have been 114⅝@115⅜, closing on Wednesday at 115¼ as against 114½ on Wednesday of the preceding week. The specie outflow last week was only $588,761. The imports of specie at this port since Jan. 1, have been $2,421,692 against $1,091,677 same time last year. The customs demand for Gold last week averaged $451,334 a day. Foreign Exchange has been in less request at lower rates. Bankers' sixty day bills on London closed on Wednesday at $4 81½@$4 82½; sight bills on London at 4 85½@$4 86½ to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $5,242,000.

Government Securities have been in more confident demand on investment account, and have been quoted stronger in price, particularly toward the close, with the favorite issues of the coin bearing bonds offering much less freely.

U. S sixes of 1881 closed on Wednesday of this week at 120@120¼; U. S. Five-Twenties of 1862, at 116¼@116½; U. S. Five-Twenties of 1864 at 117½@117¾; U. S. Five-Twenties of 1865 119⅝@119⅞; U. S. Five-Twenties of 1865 consolidated, 118½@118¾; U. S. Five-Twenties of 1867, 119⅜@119⅝; U. S. Five-Twenties of 1868, 119⅜@119⅝; U. S. Ten-forties at 114¼@114½; U. S. Fives of 1881, (Funding Loan) 114⅜@114⅞; Six per cent. currency Sixes from 119@119½.

A brisk speculative movement has been reported at the Stock Exchange in Railway and miscellaneous share property, on a generally advancing market, closing buoyantly on nearly all the more active stocks. State and Railway bonds have been in much better request, and held more confidently, as a rule,

A more active business has been reported in most kinds of Produce, and Merchandise. Breadstuffs, Provisions, Petroleum, Naval Stores, Seeds, Fish, and Cotton have been more sought after at generally stronger prices. Tobacco, Wool, Hides, Hops, and Oils have been in moderate request and without important alteration as to values. The dealings in Boots and Shoes, Dry Goods, and Hardware have been on a more liberal scale, and prices have been comparatively well supported. Leather, Coal, and Groceries have been moving rather slowly, the inquiry having been mostly to meet urgent wants, at the ruling figures, which indicated no alterations of movement. The Metal trade has been without notable activity. Copper and Tin, in quite moderate demand. Iron has been rather less sought after. Pig has been held firmly. Of Wrought Scrap, further sales of 1600 tons have been reported at $34@$35 per ton. Eglinton Pig Iron quoted from yard at $34@$35; Glengarnock, $37@$38; No. 1 American Pig at $28@$29; No. 2 do. at $26@$27; Forge, $24@$26; English Rails at $48@$50, gold; American Rails at works, $48@$50; Old Rails, $30@$35. Wrought Scrap, $35. Ocean freights have been active and quoted lower.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

THE U. S. ROLLING STOCK CO.,
A. HEGEWISCH,
Secretary and Treasurer,
76 Wall Street.

NEW YORK, March 1, 1875.

Chief Engineer's Office, U. S. Navy Yard,
WASHINGTON, November 18, 1874.

Comm. Thos. H. Patterson, U. S. N., Commandant:

SIR:—In obedience to your order of October 5th, 1874, to carefully test the EMPIRE PORTABLE FORGE, I have the honor to submit the following report:

* * * * * * This is a very excellent and convenient forge. It works easy and with but little noise, and the power being applied with a lever, it can be worked without interfering with the manipulation of the fire.

I can recommend it as a very useful tool for work on ship board or shop use.

Very respectfully, your obedient servant,
[SIGNED] EDWIN FITHIAN,
Chief Engineer, U. S. N.

Hatch & Foote,

☞ The Wilmington (Del.) Commercial says it is the present expectation of those who are foremost in the Baltimore, Chesapeake and Delaware bay railroad enterprise from Harrington to a point on Kent Island, that work will be resumed about the 1st of May.

☞ The Boonton (N. J.) iron works have resumed operations after nearly three months of inactivity.

Rapid Transit.

A meeting of gentlemen interested in Mr. James M. Drake's plan for securing rapid transit, met in the rooms of the Chamber of Commerce on the 8th inst., for the purpose of organizing an association under the title of the Rapid Transit Deferred Capital Fund Association. Mr. B. L. Ackerman presided, and Mr. Frank G. Brown acted as Secretary. After a short discussion a committee was appointed to draft a plan of organization, to be submitted to an adjourned meeting to be held at the same place on Monday next. A permanent President, Secretary, and Treasurer will then be elected, and a Finance Committee chosen. Permanent offices for the association will be hired, and ward associations will be organized, which will report to the central association, and will send delegates to represent them at the stated meetings of the latter. The objects of the organization will be pushed as rapidly as possible in every other way that may suggest itself.

The Western Legislatures and the Railroads.

It would seem that two of the Western States—Wisconsin and Minnesota—have seen their way clear to partially rescind the legislation of last year, designed to oppress the railroad companies. Such a step was sure to come in the end, and credit must be given to these States for their timely discovery of the rights of property and the power of capital, before very serious harm had been done to their people. "Potter laws" are merely an attempt to fight the laws of the human mind, and have about as much chance of success as the attempts to nullify the attraction of gravitation. Meanwhile, we notice that several other State Legislatures are preparing to imitate the mistake of Wisconsin. They may now take a lesson from the recent withdrawal and repentance of Wisconsin. The Granger movement, at which some shallow politicians caught eagerly, as if it were a great tidal wave on which they could ride into power, will prove to be a delusion.

In this connection it is significant to note that Charles Francis Adams, Jr., one of the Railroad Commissioners of Massachusetts, and long looked upon as the apostle of Grangerism in the East, has recently recanted some of his former views on the subject of managing railroads by legislatures. In a recent address in Boston he takes the ground that the railroad interests are too great for the grasp of the legislature; that all attempts, either in England or in his own State, have ended only in failure. He now recommends a policy of creating railroad commissions who may hear grievances and report to the legislature, (but who have no power to act beyond that) as the utmost that may be expected from State interference with railroad business. He might, of course, have gone much further, and traced out some of the mischiefs and injuries which the public has suffered from the contrary notion; but after this conspicuous example, we may expect to see a general recantation of like foolish doctrines, and an end to Potter laws.

☞ The sale of the Alabama and Chattanooga Railroad, pending negotiations between the State of Alabama and the bondholders for a settlement of existing differences, has been postponed until the first Monday in April.

Railroads in Mexico.

The Mexicans have projected a Pacific Railroad which is to have a branch connecting it with the International Railroad of Texas, and through that with the railroad system of the United States. The International Railroad extends from Houston to Rockdale, the latter place being within fifty miles of Austin City. The line from Rockdale will be through Austin City and San Antonio to Laredo, on the Rio Grande, and thence to Leon, a town in Mexico, 280 miles from the city of Mexico, and on the line of the projected railroad to the Pacific. There is a railroad now in working order from Vera Cruz to the city of Mexico. Within three months after the completion of the road from the latter place to Leon, the building of the branch road to Austin, Texas, is to be begun at both ends, and to be completed in six years.

The International Railroad has a subsidy of $15,000 per mile, and will receive heavy premiums for every year under six of its completion. The whole distance to be built is 1,165 miles, and the railroad distance of St. Louis from the Capital of Mexico will then be about 2,000 miles. The International Railroad will pass through nine States, having a population of 3,250,000. The energies of the Mexicans have been chiefly devoted of late years to political quarrels, and it will be a good thing for the country if they can be turned into the peaceful business of building railroads.

☞ The trustees of the Cincinnati Southern Railroad have awarded contracts to the American Bridge company, of Chicago, for the Cumberland river bridge and other bridges, trestles, etc., amounting to $190,929 37; to the Louisville Bridge and Iron company two bridges and one trestle of 1,200 feet, amounting to $107,371 10, and to the Keystone Bridge company, of Pittsburg, two iron trestles of a total length of 1,410 feet, at $65,661. The total awards aggregate $378 961 47.

☞ The directors of the Pacific Mail Steamship Company met on the 8th inst., and received the resignation of President Alexandre. Mr. George G. Forrest, a Director of the Panama Railroad, was immediately elected to fill the vacant Directorship. Mr. Sidney Dillon, President of the Union Pacific Railroad, was then elected President of the Pacific Mail Steamship Company, and Mr. G. S. Scott, of Scott, Strong & Co., Vice President.

☞ Sealed Tenders for the Bridging and Grading required on that section of the Canadian Pacific Railway, extending from the Lake of the Woods to Red River, will be received at the Department of Public Works, Ottawa, up to noon of Thursday, the 18th of March. For plans, specifications, etc., apply at the office of the Chief Engineer, at Ottawa.

☞ The earnings of the Indianapolis, Cincinnati and Lafayette Railroad in January, 1875, were $133,786, the expenses $81,266, and the net earnings $52,560—an increase, compared with January, 1874, of $1,175.

☞ The earnings of the Ohio and Mississippi Railroad for the month of February, 1875, were $248,623 79, against $243,077 22 in February, 1874, an increase of $546 57.

Government Bonds of all issues and denominations bought and sold direct at current market rates, in large or small amounts to suit all classes of investors and Institutions, and for immediate delivery; and all business connected with investments in Government Bonds, transfers of Registered Certificates, Exchange of Coupon Bonds for Registered, Collection of interest, &c., attended to on favorable terms.

All other marketable Stocks and Bonds bought and sold on Commission; Gold Coupons and American and foreign Coin bought and sold; approved deposit accounts received.

FISK & HATCH.

Railroad Track Scales.

Messrs. Riehle Brothers, proprietors of Philadelphia Scale and Testing Machine Works, are now repairing for the Pennsylvania Railroad Company a one hundred (100) ton railroad track scale, which was built for the then State Road in the year 1850 (twenty five years ago), and has been in service ever since. This was one of three scales built for the same company at these works, and they were the first successful long track scales built in the country. It might be here mentioned that the first platform scale with graduated weighing beam was invented and built by the predecessors of this establishment. This firm supplies the Philadelphia and Reading Railroad, also Philadelphia and Reading Coal and Iron Company with scales. Also sells to the Pennsylvania Railroad Company. At present they are filling a large order for the Lackawanna Iron and Coal Company for scales for their new Bessemer Works at Scranton, Pa.

☞ By reference to the advertisement of "The United States Rolling Stock Company" in another column, it will be seen that it is now prepared to lease, on yearly contracts, all of its narrow gauge equipment recently withdrawn from the Atlantic and Great Western Railroad, and now stored and deliverable at Cleveland, Ohio, and Pittsburgh, Pa. Blank forms of contracts may be obtained of A. Hegewisch, Secretary and Treasurer, 76 Wall St., N. Y.

☞ The earnings of the Central Pacific Railroad for the month of February, 1875, were $902,000, against $804,044 in February, 1874, and $685,640 in February, 1873. For the first two months of 1875 the earnings have been $1,792,000, against $1,652,602 for the corresponding period of 1874, and $1,581,283 for the corresponding period of 1873.

☞ The Panama Star of February 9th, says that the Antioquia Railroad, the building of which was commenced on the 27th of November last, is now in such an advanced state that within four months a space of fifteen kilometres will be ready for the locomotive.

☞ A dividend of 62⅔ cents per share on the second preferred stock of the Catawissa Railroad company will be paid on and after the 12th inst. to those who were holders at the closing of the books on the 4th inst.

Union Pacific Railroad.

From the Report of the Government Directors of the Union Pacific Railroad, transmitted to the Senate on the 19th of February, we take the following statement, which will be read with interest:

The gross earnings of the road for the year ending June 30, 1874, were	$10,246,760 15
For the year ending June 30, 1873.	9,638,965 09
Increase for 1874 over 1873..	$612,795 07
Operating expenses, &c., for the year ending June 30, 1874	$5,112,400 25
Less surplus in material and fuel account	12,611 08
	$5,089,789 17
For the year ending June 30, 1873.	4,697,999 56
Increase of 1874 over 1873...	$391,789 61
Net income for year ending June 30, 1874	$5,156,970 99
For the year ending June 30, 1873	4,935,695 53
Increase of 1874 over 1873....	$221,275 46

In view of the general depression which fell upon the business of the country following the panic of September 1873, the results presented by the earnings of the road are gratifying.

As showing the steady increase of business and earnings, we may mention that for the months of July and August, 1874, (covering the time from the close of fiscal year to the close of our inspection of the road.)

The gross earnings were	$1,892 559 16
For same period in 1873	1,714,111 68
Excess in favor of the two months of 1874	$178,447 48
The total expenses for the said two months in 1873	$838,120 38
For said months in 1874	757,914 83
Decrease in favor of 1874	$80,214 55

The amount of cash received during the same period as advanced interest on the time contracts was $2,119 79, and there was paid out by land department for cancellation of land grant bonds and interest accrued on same $56,869 96.

The original issue of land grant bonds was	$10,400,000 00
Aug. 31, 1874, there had been retired	1,445,000 00
Balance of land grant bonds outstanding	$8,955,000 00
Total number of acres sold to Aug. 31, 1874	1,069,040 96
Total proceeds of sales to that date, cash and time contracts	$4,913,513 52

For the year ending June 30, 1874, the company earned on government account as follows:

Passengers	$208,364 55
Mail	325,143 00
Freight	225,513 71
Total for the year	$759,021 26

In regard to service to the government, the report says:

On the 31st day of January, 1873, the Secretary of War communicated to the House of Representatives of Congress of the United States, in answer to a resolution of that body, a letter of the Quartermaster General of the Army of the United States, M. C. Meigs, from which it appears that the construction of the Union Pacific Railroad had saved the government large sums in that department of the public service. Making an average of saving on several routes of transportation theretofore used, he states the case thus;

At this average rate, the estimated cost of transportation of the freight moved by the Union Pacific Railroad, including express charges as shown above, during the time commencing July, 1866, and ending January 28, 1873, would be as follows:

Rate per 100 pounds per 100 miles, railroad rates	$0 40½
Rate per 100 pounds per 100 miles, wagon rates	1 46
Actual cost of freight at railroad rates	1,896,589 57
Estimate of cost at wagon rates	6,837,088 32
Showing a total estimated cost for moving the troops and supplies by stage and wagon of	$9,850,134 67
Total actual cost by railroad	3,342,851 82
Estimated difference	$6,507,282 85

equivalent to about 60 per cent.

From these statements it appears that the saving to the government of June 30, 1872, upon the transportation of postal matter alone by reason of the construction of the Union Pacific Railroad amounted to $643,579 55. Upon the same basis the saving to the government from this source to September 30, 1874, amounted to $1,015,829 90. This statement assumes that the amount or weight carried was only equal to that transported previous to the construction of the road; but, in fact, the amount by rail has been over six times the amount formerly transported by stage, so that the real saving, taking weight alone as the basis of the calculation, has been about $6,004,979 40.

The statement from the War Department above cited shows that the saving upon military transportation to June 30, 1872, was $6,507,282 85, and upon the same basis the saving to August 31, 1874, would have been $8,462,107 76.

Thus it appears that during the past two years, or since June 30, 1872, the saving to the government in the transportation of postal matter, of troops, stores, &c., has been at the rate of $1,894,894 40 per annum.

The case comes to this: Allowing that there will be no increase in amounts carried from year to year, the saving during the thirty years (being the term for which the government bonds were issued in order to insure the construction of the road) would amount to | $56,846,832 00

The government has advanced in bonds at 6 per cent	$27,237,000	
Interest on same for thirty years, at 6 per cent	49,026,600	
		76,263,600 00
Balance due government on saving alone		$19,416,768 00
For this term of thirty years the War Department 33 per cent. of saving would be about $366,333⅓ per year		15,000,000 00
Postoffice Department, about $100,000 per year		3,000,000 00

We have not pretended to account for fractions in this estimate, but have simply presented round numbers, and by this rule find that the government at the end of thirty years will be a positive gainer by the construction of the Pacific Railroad, though not one cent shall be returned to the Treasury from the company except by the modes above stated.

As a national investment, we believe that the Union Pacific Railroad, with our suggestion effected, will pay.

☞ At a recent meeting of the stockholders of the Atlantic and Lake Railway at Bucyrus, Ohio, a resolution was adopted instructing the Directors to receive and consider any propositions offering for the construction of the road from Salina or Athens to Toledo.

The Coal Trade.

The Philadelphia *Ledger* of March 8th, reports the entire anthracite coal tonnage for the week ending February 27th at 194,792, against 200,547 in corresponding week last year, and 1,779,446 for the new year against 2,181,335 to same date in 1874. The bituminous tonnage for the week is 41,559 tons, and for the year 281,046 tons, against 284,256 tons to corresponding date last year. The total of both kinds of coal for the week is 236,351 tons, and for the year 2,060,492 tons, against 2,465,601 tons to same time in 1874, being a decrease of 405,109 tons. At Port Richmond for the week ending the 6th instant there were no receipts of coal and the shipments but 7000 tons, leaving 39,000 tons on hand. The *Ledger* adds:

The representatives of what is known as the "Associated Coal Companies," meaning the six great coal carrying and coal producing companies, met at New York on the 2d instant, to consider their plans for the future, and to establish a schedule of prices for coal for the current term. After mature deliberation it was agreed that no reduction should be made in prices so long as the miners continue on a strike. Should the miners return to work the following scale of prices would go into effect on the first day after the resumption of labor: Lump, $4 40; steamer, $4 50; grate, $4 60; egg, $4 75; stove, $5 30; chestnut, $4 35. Following this agreement the Philadelphia and Reading Coal and Iron Company, and the Delaware, Lackawanna and Western Railroad Company, issued their respective prices of coal for the current month on condition that the men now on strike in the Schuylkill, Wyoming and Lehigh regions, resume work during the month. The Coal and Iron Company has issued its circular in regard to the prices of coal for the month, and the conditions under which it is to be observed. It fixes its prices for hard and soft white ash at $3 90 per ton, steamboat at $4, broken at $4 10, egg at $4¼, stove at $4 80, and chestnut at $3½. Some other qualities of coal are 20 to 30 cents per ton higher. These are understood to be the prices of coal at the shipping point, Richmond, and do not vary materially from prices for March, 1874. The Delaware, Lackawanna and Western Company announces its prices for Scranton coal at Hoboken and Elizabethport, as follows: Lump, $4 40; steamboats, $4 50; grate, $4 60; egg, $4 75; stove, $5 30, and chestnut, $4 35. Buyers not having contracts will be charged by the company fifteen cents per ton more than above prices. The Delaware and Hudson Canal Company, and the Pennsylvania Coal Company, have also issued their circular prices, which are similar to those already named, the whole movement, thus far, showing concerted action in the conduct of the coal trade in 1885, almost identical with that of 1874. Prices of coal and wages will be fixed monthly, and they will generally advance with the season, thus encouraging early purchases of coal, and thus lengthering the season of production and transportation. It is understood that the Associated Coal Companies have agreed on ten millions of tons to computive points as the product for the ten months from Feb. 1 to Nov. 30, 1875, to be distributed among the six interests represented as follows:

To the	Per cent.	Tons.
Phila. and Reading R. R. Co.	25.85	2,585,000
Lehigh Valley R. R. Co.	15.88	1,588,000
N. Jersey Cent. R. R. Co. int	16.15	1,615,000
Del. and Hudson Canal Co.	18.37	1,837,000
Del., Lack. and W. R. R. Co.	13.80	1,380,000
Pennsylvania Coal Co.	9.85	985,000
Total		10,000,000

A standing committee will meet as often as deemed necessary to arrange prices, and other matters requiring attention. According to the programme already laid down, coal will be reduced during the year about twenty-five cents per ton below the prices of 1874.

☞ The decision of the United States Supreme Court invalidating the Topeka (Kansas) bridge manufactory bonds, announces the principle that a Legislature cannot pass a statute creating a debt unless it has power to levy a tax in aid of the purpose for which the debt is created. The Legislature of Kansas has no power to tax the citizens of Topeka in aid of a manufactory; it therefore cannot pass a statute creating a debt for that purpose. "There can be no lawful tax," says the decision, "which is not laid for a public purpose."

☞ The earnings of the Union Pacific Railroad for January, 1875, were $574,930 08; for January, 1874, $620,715 21.

The Great Southern Railway Co.
(CONSOLIDATED)
UNDER CONSTRUCTION IN
GEORGIA & FLORIDA,
OFFER FOR SALE ITS
First Mortgage Land Grant and Premium Bonds.
Payment Secured by First Lien on 500 Miles of Railway, Equipment, Franchises, Steamers,
and
6,400,000 Acres
of selected Yellow Pine, Cedar, Live Oak, Cotton, Sugar, and other valuable Agricultural Lands. Also a Sinking Fund from Earnings of the Road.
Bonds Redeemed, with Premium, Six times in each year, beginning January, 1875.
Every Bond, when Redeemed, must receive a Premium from $1.00 to $50,000, besides the Original cost of the Bond.
The Company will receive the Bonds at par in payment for Land and for transportation of passengers and freight over its line.
The Great Southern Railway Company is incorporated by the Legislatures of Georgia and Florida. It is designed to connect the Railway system of the United States with Cuba and the other West India Islands, Southern Mexico, and Central America, the Panama Railway and South America. It is a direct, immediate, *and the only possible railway line,* stretching four hundred miles South of any other railroad, *between the temperate zone and the tropics of America,* between 50,000,000 people in the United States and Canada, and 40,000,000 in the West Indies, Central and South America.
It will reduce the water transportation between the Railroad system of the United States and Cuba **to a run of only Five Hours by Steamship,** *and to Southern Mexico, Central America and South America it will shorten the line* **Sixteen Hundred Miles** *over the route now generally traversed.*
In a Political and Military point of view, the importance of this line to the United States can hardly be overestimated.
In the transportation of **U. S. Mails, Express and Fast Freights, Military Stores and Supplies, Sea Island Cotton, Tropical Fruits, Market Gardening,** &c., it will do a larger business for the length of its line than any railway in the United States.
It will be a Commercial and Political bond of peace and amity between the people of North and South America.
HON. THOMAS W. OSBORN, *President.*
JAMES W. JOHNSON, *Treasurer.*
WM. F. WHEELER, *Secretary.*

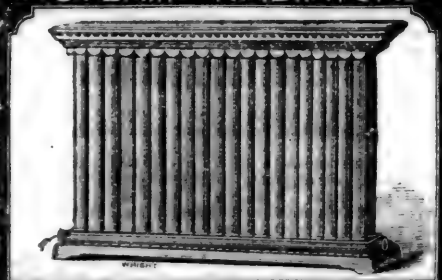
Canadian Pacific Railway.

The Toronto Globe of the 4th inst. says: Immediately before moving the adjournment of the House last evening, Mr. Mackenzie laid on the table an order in council, granting a subsidy of $12,000 per mile to a railroad not exceeding 120 miles in length, connecting the Canada Central with the projected road from the mouth of French River to a point south east of Lake Nipissing. The eastern extremity of the subsidized road is to be on a line drawn from Pembroke to Douglas, and at a point that will facilitate connection with the Northern Colonization Road, which, as well as the Kingston and Pembroke and such other roads as the Government may stipulate, is to have running powers over the new line.



The contract for the Georgian Bay Pacific line, 85 miles in length, has been awarded to a company, of which the Hon. A. B. Foster is the head. The terms are $10,000 and 20,000 acres of land per mile, with a guarantee of four per cent. on $7,500 per mile. Mr. Foster has resigned his position as a Senator, which would be incompatible with the acceptance of a contract under the Government."

LANSDELL'S
Patent Portable Railway Syphon.

The Portable is invaluable on a freight or construction train, being used to take water at points where there are no water stations. With it water can be taken from any point within one hundred feet of the track where there is water six inches or more in depth. The valve C is tapped into the locomotive boiler; steam is let on through the hose B, water is drawn through the orifices D D, and forced through the hose E into the tender, filling any tender with warm water in from six to twelve minutes.

Lansdell's Patent Steam Syphons, Double Suction, adopted by the United States Board of Supervisors, and approved by the Secretary of the Treasury for use on Steamboats.

For Price and particulars, apply to the General Agents of the Steam Water Station Company,

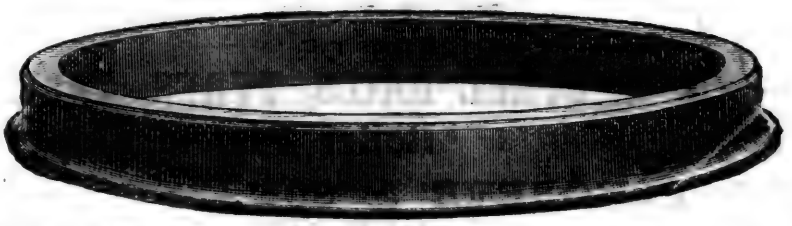
California Railroads.

On the 13th of February there were filed in the office of the Secretary of State of California the following railroad reports for the year ending December 31, 1874:

Terminal Railway Company—Capital stock, $4,000,000; subscribed and paid in, $27,500; expended for purchase of land and construction, $30,899 92. Indebtedness, $2 899 92. The company has had no receipts and declared no dividends.

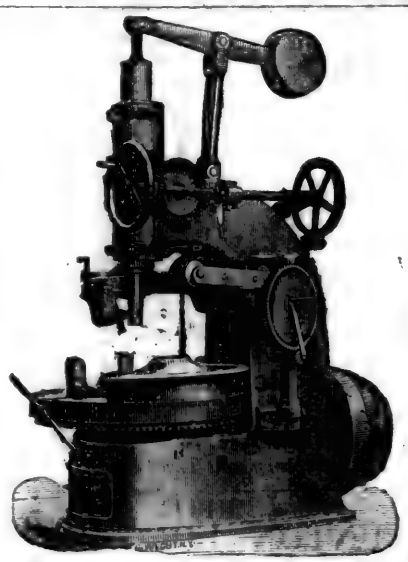
Northern Railway Company—Capital stock $8,400,000; subscribed, $210,500; paid in, $21,050; expended for land and construction, $41,511 85; indebtedness, $41,586 90. No receipts, no dividends.

Central Pacific Railway Company—Capital stock, $100,000,000; subscribed, $62,608,800; paid in, $54,275,500; expended for land, $1,017,696 48; for construction, $132,220,677 69; for building, $1,226,726 19; for engines, $2,198,832 52; for cars, $4,004 856 37; indebtedness, $84,666,354 35; on bonds, notes and accounts—amount due the company. $6,813,475 07; receipts, $8,276,301 55 in coin, and $5,334,729 08, in United States currency; freight transported, 1,093,091 tons and 687 lbs: expenses, $9,700,146 04; a dividend of $5 per share was paid on and after August 4, 1874, amounting to $2,713,775. The company has 14 engine houses, 11 repair shops, 188 locomotives, 225 passenger cars, 23 baggage cars, 19 mail and express cars, 3,560 freight cars, 110 dump cars, 261 hand cars, 203 section cars, 51 iron cars, and 9 snow plows.



Sacramento Valley Railroad Company—Capital stock, $1,000,000; subscribed, $492,380; received, $180 964 31; freight transported, 50 906 82 tons: current expenses, $127,968; no dividends.

San Pablo Railway Company—Capital stock, $3 750,000; subscribed, $150,300; paid in, $15,030; expenses for building, etc., $99,168 31; indebtedness, $99,234 11; no dividends.



Stockton and Copperopolis Railway Company—Capital stock, $1,500,000; subscribed, $48 000; paid in $4,800; expended for building, etc., $907,942 20; indebtedness, $1,238,783 34; amount due the company, $491,000 receipts, $26,061 73; freight transported, 8,757 tons; current expenses etc., $83,540 64; no dividends.

Stockton and Visalia Railway Company—Capital stock, $5,500,000; subscribed, $186,500; paid in, $71,802; paid for lands, construction, etc, $877,183 08; indebtedness, $891,000; receipts, $63,292 76; freight transported, 21,267 tons; current expenses, $63,637 58.

HUDSON RIVER CEMENT WORKS,

Manufactory at Kingston, N. Y.

(LATELY IN JERSEY CITY, N. J.)

MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic (Diamond A) Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from our (lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, tight, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."

The Expected Revival in Business.

The prophets are again predicting a revival of business this Spring. It is to be suspected that the motives of some of those who are crying most loudly that the "revival has come," are born of some personal or selfish interest connected with the Stock Market; but there are real and indisputable reasons for a more hopeful view of affairs, all the same. The *Tribune* and *Times*, as examples—the same organs who were vaticinating all manner of evil omens and disasters up to the very close of the session of Congress, or rather, up to the very time when the people who had been selling down the shares of Pacific Mail and other corporations had covered their short sales—are now, and have been since that date, painting the future with rosy hues. Singularly enough when control of the Union Pacific Road became desirable the machinery of the daily press, Congress and the Executive were employed to harass and annoy that Company, until a large interest had been secured, when all the pow the press was turned toward helping along a peaceful settlement of all outstanding claims against the Company. The same malign influence, to carry its point against the Pacific Mail, caused such an outcry as led to the establishment of a gigantic rival Steamship Company, and also to a withdrawal of the half million compensation for additional mail service. Now that there has been a change of ownership and management it is probable that next winter will see a renewed application for the compensation —unless it should happen to suit somebody's purpose to depress the shares about that time. It is not safe, therefore, to rely upon the outgivings of the daily newspaper editors (neither financial nor literary) unless we take into account whether or not they are under instructions from some speculator who may be "long" or "short" of stocks.

The best guides are the views of business men, who have access to all the special information in regard to trade and manufactures. The knowledge derived from the weather and the elements is open to all. We have had a winter of abundant snows, which is usually the precursor of a season of bounteous harvests. The severe frosts will have kept in check some of the more dangerous insect scourges; labor is abundant; and so far as can now be seen, we are not threatened by any further disturbance to our agricultural employments, which are, after all, the basis of all prosperity. As we have before insisted, the element of confidence is an important one in estimating the course of trade. The bounty of Nature furnishes the materials of wealth and well-living, but it is confidence between man and men, between man and society, and the accord between labor and capital, which determine the rapidity of the movement. Credit is the impulse of industry.

How then stands credit? The testimony of the dry goods merchants (generally an accurate test of the existence of surplus wealth over and above necessaries) is in favor of enlarged trade. The export of breadstuffs is somewhat checked by the low prices abroad; but this is offset by cheaper breadstuffs for our own consumers. In regard to manufactures there seems to be a little improvement visible. Both mines and looms are afflicted by strikes, which are, however, more a consequence, than a cause, of the depression in these branches. Iron is perhaps the most depressed of all the great industries; but this arises in part from an earlier false and factitious stimulus. Furnaces were erected and repaired a few years since, where the ores were either poor, or were mined at great cost; or where the fuel was too distant, or too poor. One-third of the blast furnaces of the country might as well be abandoned; for they can only be worked at a profit when iron is inordinately high; or when labor is inordinately low. At the same time the furnaces best situated can keep in operation at a profit, even now; and it is mainly the price of other elements than labor which determine the profit. Pennsylvania has less to complain of than most iron making districts; and we notice that newly erected furnaces in the Kanawha Valley are kept running, where fuel and ores are good and handy, at rates which admit of shipping the pig iron to Pittsburg and Cincinnati for working up.

Railroad transportation at large may be said to be holding its own fairly. The Eastern Trunk lines are engaged in a ruinous, obstinate, and foolish competition, which can do no one any good, but which will do irreparable harm to the combatants—harm for which the empty applause of the newspapers can offer no compensation. The Western lines are doing reasonably well considering the severity of the weather; the Southern roads are, with the exception of a few devastated by floods, gradually improving their condition. The Pacific Railroads continue their prosperous career, and are encouraged by the passage of a steady stream of immigration to California, and a corresponding settlement along the lines. Land

Grant roads in general stand the pressure better than those dependent on a through traffic for which there is, in dull times, a severe competition. Settlers on lands "stick" and multiply.

Most of the disabled roads are making either peaceable compositions with their creditors; or are being put into the hands of friendly Receivers, as the simplest way of extricating them from the power of obdurate holders of unsecured claims. Railroad finances look decidedly more hopeful.

Cumberland Valley Railroad.

The earnings of this road for the years ending September 30, 1873 and 1874, were as follows:

	1873.	1874.
From passengers	$210,002 19	$203,876 47
" freight	383,020 14	369 495 40
" mails	6,300 00	6,300 00
" express	7,641 56	7,047 24
" miscellaneous	7,221 10	16,590 94
	$614,184 99	$603,310 05
Expenses, viz:		
Conducting transportat'n.	$80,879 01	$74,243 05
Motive power	94,220 87	72,299 86
Maintenance of way	85,522 82	93,835 35
Maintenance of cars	10,374 05	17,133 86
General expenses	12,046 69	16,749 25
	$282,542 44	$274,260 87
Net earnings	$331,642 55	$329,049 18
Cash, October 1, 1873		203,900 24
Balance, 1873		97,782 71
Capital stock paid in		2,937 50
Total		$633,669 63
Disbursed as follows:		
Dividends		$139,955 50
Interest on bonds		27,102 80
State tax		11 143 24
Construction		59,709 84
Trustees contingent fund		15,050 10
Materials purchased		26,618 09
Balance of accounts		77,748 85
Cash, October 1, 1874		276,342 21
Total, as above		$633,669 63

A comparison of the business of the main line with that of the previous year shows a decrease in earnings of $10,874 94, with a decrease in operating expenses of $8,281 57—making a decrease in net earnings of $2,593 37. The business of the main line and leased roads, compared with the previous year, shows an increase in gross earnings from all sources of $20,569 56, with an increase in operating expenses of $18,482 33—making an increase in net earnings of $2,087 23. The actual cost of operating the railway was 45.459 per cent of its receipts; and of the main line and leased roads 49.817 per cent of receipts. The number of miles operated during the year was 125; the average number previous year, 99—an increase of 26 miles. The increase in passenger train mileage over the previous year was 23,960, and in freight train mileage 1,834. The gross earnings per train mile on main line and branches in 1874, were $1 80.86, the operating expenses $0 88.74, and the net earnings $0 92.12. In 1873 the gross earnings per train mile on main line and branches were $1 99.95, and the expenses $0 94.54. The number of passengers carried during the year was 392,854, against 354,912 the previous year, an increase of 37,442.

The gross earnings of the Cumberland Valley Railroad were $603,310 05; of the Martinsburg and Potomac Railroad, $18,509 41; of the Dillsburg and Mechanicsburg Railroad, $16,113 93; and of the Southern Pennsylvania Railroad, $33,701 89—making the total earnings of the Cumberland Valley Railroad and leased lines during the year ending September 30, 1874, $671,635 28. The operating expenses during the same time were $326,322 91, and the net earnings, $345,312 37. The Report says:

A large proportion of the decrease in receipts from freight, is attributable to a reduction of rates upon the leading articles of traffic. This reduction became necessary, in order to meet the general depression in business. It was better for the stockholders, as well as important to the prosperity of the Valley, that the road should give every encouragement possible to the various industries along its line.

The shipments of iron ore last year amounted to 100,712 tons, while this year only 82,233 tons were moved, exhibiting a falling off of 18,479 tons. In the article of blooms and pig metal, there is a decrease in shipment of 4,409 tons.

It is gratifying to see the steady increase in the coal trade upon your road, its leased lines adding largely to this branch of the revenue.

During the past year there were shipped west from Harrisburg and Bridgeport	112,447 tons.
Preceding year	96,562 "
Increase	15,885 "

The accompanying tables will also show a considerable increase in the shipments of grain and flour over the year previous.

The operations of the leased lines exhibit the following results:

SOUTHERN PENNSYLVANIA RAILWAY.

The total earnings of the railroad of the Southern Pennsylvania Railway and Mining Co. were	$33,701 89
Operating expenses	26,603 36
Net earnings	$7,098 58

In consequence of the depressed condition of the iron business, there has been a falling off in the shipments of ore over this road of 12,689 tons.

The new anthracite furnace erected by the lessee not having been put in blast, no iron has been shipped from the property of this company.

As compared with the previous year there would seem be a decrease in the net earnings of $1,761 83. But this in reality is not the case. During the year 1872-73 the expense of operating the branch road to the ore banks and keeping same in repair, were paid directly by the treasurer of that company. The past year these expenses are all included in the operating expenses proper of the road. Taking this fact into consideration as well as the decrease in ore tonnage, we feel warranted in saying there has been a gradual increase in the general business of the road. The cost of operating this road was 78.437 per cent of the receipts from transportation.

DILLSBURG AND MECHANICSBURG RAILROAD.

Gross earnings	$16,113 93
Operating expenses	9,888 42
Net earnings	$6,225 51

This road having been opened for business toward the close of the last fiscal year, affords no satisfactory data for comparison.

The shipments of ore during the year were 14,849 tons. The same causes affecting the other ore roads in the Valley, have also affected this.

A variety of ores exists at the terminus of this road without sufficient market to warrant the mining of same.

During the past summer the Philadelphia and Reading Coal and Iron Company have erected, on an extensive scale, machinery to develop the ore lands leased by them, lying along the South Mountain and contiguous to this road. From this property about 4,000 tons were shipped during the months of August and September last. When business revives we may confidently expect the shipments from this quarter to be largely increased.

The cost of operating the road was 61.32 per cent of its receipts.

MARTINSBURG AND POTOMAC RAILROAD.

This road was opened to Martinsburg about the middle of September, 1873.

Gross earnings for the year	$18,509 41
Operating expenses	15,5.0 26
Net earnings	$2,989 15

While the receipts from this road are comparatively small, and will probably continue to be so without some Southern connection, yet we can form no correct judgment of what they will be, from the past year.

The great depression in the business of the country caused by the financial panic of September, 1873; still continues. Not only the iron interests but all branches of industry are suffering. These causes have materially affected your Main Line and branches, and we are glad to be able to present so favorable a result under the existing circumstances.

No necessary expense has been spared to keep the track and motive power in good condition.

During the year we have renewed 23,260 crossties and laid 450 tons of re-rolled iron. We have also expended upon the Susquehanna bridge $28,534 53, which expenditure completes the entire renewal of that structure; all of which items form a part of the operating expenses charged to maintenance of way.

We shall require for the next year about 800 tons of rails. A portion of these can be supplied out of material on hand for re-rolling. Steel rails will be purchased to supply whatever deficiency there may be.

The increase in construction account over the preceding year amounts to $59,709 84, of which $38,893 43 was for new locomotive and cars, and $23,709 84 for Potomac extension. A large portion of the expenditure on the extension was in settlement with the contractors for work done during previous year. In conclusion the report says:

During the year we have advanced towards completing the Martinsburg and Potomac Railroad $15,583 69 for which we hold the mortgage bonds of that company.

We have also advanced to the Dillsburg and Mechanicsburg Railroad $7,372 22. Both of these roads are now in good working order.

The policy of the company heretofore has been to invest the earnings, above eight per cent, in substantial improvements upon the road, and in rendering assistance towards the building of lateral roads. These roads have, generally speaking, been paying the interes tupon the investment and have also become important feeders to the main line.

At the September meeting the board declared a semi annual dividend of five per cent, thus making your stock a ten per cent investment.

The steady growth in the business upon the road as well from the development of the mineral resources of the Valley, as the increase in its agricultural productions, is a sure guarantee to the stockholders of the permanent value of their stock.

During the year one new locomotive, one new passenger car, and 25 new freight cars have been added. The company now have 22 locomotives, 19 passenger, 6 baggage, 253 eight wheeled and 19 four wheeled freight cars. The number of miles run on passenger trains was 174,490; on freight trains, 193,224; on construction and other trains, 21,438—a total of 389,152, against 343,950 in 1873, showing an increase of 45,202.

STATEMENT, October 1, 1874.

Cost of road	$1,813,323 30
Materials on hand	90,132 19
Trustees sinking fund	882,184 23
Balance of accounts	77,748 35
Cash October 1, 1874	276,342 21
	$3,139,730 28
First preferred stock	$241,900 00
Second preferred stock	243,000 00
Common stock	1,292,950 00
First mortgage bonds 8 per cent	161,000 00
Second " 8 "	109,500 00
Common " 6 "	81,800 00
Due for dividends	89,490 33
Due for interest on bonds	13.512 45
Balance	906,577 50
	$3,139,720 28

President.—THOMAS B. KENNEDY.

Directors.—Thomas B. Kennedy, Frederick Watts, Thomas A. Biddle, Thomas A. Scott, Wistar Morris, Josiah Bacon, Edmund Smith, George B. Roberts, Strickland Kneass, John Stewart, Daniel O. Gebr.

Secretary and Treasurer.—E. M. BIDDLE.

Superintendent.—J. F. BOYD.

Chief Engineer.—O. N. LULL.

The Coal Trade.

The Philadelphia *Ledger* of March 15th, reports the anthracite coal production for the week ending on the 6th inst. at 175,212 tons, and for the year to same date to 2,352,175 tons, against 3,738,961 to corresponding time last year, being a decrease of 386,786 tons. The bituminous tonnage for the week was 39,703 tons, and for the year 310,695 tons, against 349,166 tons to corresponding date last year. The total of both kinds of coal for the week is 214,915 tons, and for the year 2,662,870 tons, against 3,088,124 tons to same time in 1874, being a decrease of 425,254 tons. The decrease in production last week, as compared with corresponding week last year, is about 55,000 tons. The quantity of coke and coal transported over the Pennsylvania Railroad for the week was 74,674 tons, and for the year 422,060 tons, of which 344,812 was coal and 77,246 coke. This embraces all the coal carried over the road, both anthracite and bituminous, east and west. At Port Richmond for the week ending the 13th instant there were no receipts of coal and the shipments but 8500 tons, leaving but 29,000 tons on hand. The river now being unobstructed shipments of coal have commenced, and we quote freight charges to Providence at $1 80 and to Boston at $2 25 per ton. The *Ledger* adds:

There is one noticeable feature in the coal trade in the anthracite regions, and that is, that the quantity of bituminous coal consumed is on the increase. Those manufacturers who desire to keep their works in operation are in a measure compelled to this use by reason of the non-working of the mines of anthracite coal. In evidence of the great increase of this trade the Pennsylvania Railroad for last week transported 74,674 tons of coal and coke, principally coming east to supply Eastern markets. From Tyrone the shipments were last week 18,221 tons, which is nearly double the quantity sent at same time last year. Broad Top is also increasing its shipments to supply the factories, &c., on the line of the Schuylkill and Lehigh, and also at Philadelphia. On the Lehigh up to this time last year there were only 3,592 tons of bituminous coal sent by that route. This year so far, the shipments have amounted within three months to 16,252 tons, an increase of 12,660 tons, while the whole shipments of bituminous coal last year via the Lehigh were only 26,662 tons. Reductions have been made in the freight charges of bituminous coal on the Pennsylvania Railroad and also on the Baltimore and Ohio Railroad, so that the Schuylkill valley, and also at Philadelphia, they will be supplied from the Cumberland as well as the Western bituminous regions. Those who live by producing and transporting hard coal should take care that the market they are now creating for bituminous coal, by not producing anthracite, does not continue, after the necessary preparations are made for using the softer coal, longer than is desired or than is now contemplated.

Chicago, Danville and Vincennes Railroad.

An adjourned meeting of the bondholders of the Chicago, Danville and Vincennes railroad was held yesterday at Raine's Hall, "to take such action as may be deemed necessary for the protection of their interests in view of legal proceedings now pending." There were twenty or twenty five persons present, representing about $400,000 in bonds though there are a million in the same class of securities owned in the city, and about two millions in the city and Baltimore and Carroll counties. General A. W. Denison presided, with W. Lorman Roberts, as secretary. The road has been seized recently and receivers appointed, at the instance of C. R. Field, who brought suit, it is said, on eleven bonds owned by him. An effort is being made to have the decree placing the road in the hands of a receiver annulled, and a hearing in the case is to come up on the 23d of this month. The meeting held was to take some action relating thereto. The conference was with closed doors. After some discussion, participated in by General Charles E. Phelps, A. T. Chur, of New York, Dr. Prentiss and others, the following resolution was adopted unanimously:

"Resolved, That the bondholders of the Chicago, Danville and Vincennes Railroad Company give their influence and support to the trustees of the bondholders, and sustain them in their application to obtain possession of the property of the company."

The trustees of the bondholders are Wm. R. Fosdick, James D. Fish, and Jas. W. Elwell, of the city of New York. It is learned from a statement made by Mr. Tenney, treasurer, that the debt of the company outside of the mortgages is $800,000, a large portion of which is secured by mortgage bonds which the company own. The first mortgage bonds out amount to $3,700 000, and the second mortgage bonds to $170,000. The rest of the $5,000,000 is owned by the company. The road is 162 miles in length. It is claimed that a majority of the bondholders are opposed to the Field movement.—*Balt. Sun, March* 11.

Railroad Legislation in Minnesota.

Both branches of the Minnesota Legislature at the late session passed by more than a two thirds vote the Morse bill, which provides for one commissioner, whose duties are to inquire into any violation of the laws on the part of railroads; to inspect the condition of the roads; to examine into and report upon their management. He is to make a full annual statement of the railroad transportation system of the state, embracing an exhibit of the capital stock, working condition, rates, earnings, and relations to the people. The managers of all railroads, under penalty of a fine, are required to make reports to the commissioner once a year, covering all these points, and to open their books and accounts to his inspection. The only requirements as to rates are that no company shall discriminate against individuals or localities for services performed; that all concessions, drawbacks, special rates, etc., shall be open to all persons alike under similar circumstances, and that every company shall provide suitable facilities for receiving, handling, and transporting at reasonable rates the usual kinds of freight after proper notice shall have been given. Finally, it provides that the rule and practice in cases brought under this law shall be the same as in other civil actions, and that the rates and commission established by the law of last year are repealed.

Albany and Rensselaer Iron and Steel Co.

One of the most striking events which has occurred for a long while in connection with the iron trade is the partnership union of the vast interests between the eminent firms of John A. Griswold & Co. and Erastus Corning & Co., of Troy. For many years these two firms have occupied foremost positions in the iron trade of the country; and the bringing of all their works under the control of a large private corporation must render the Albany and Rensselaer Iron and Steel Company, as the new organization is styled, an exceedingly powerful one. The works to be operated by the new company will include the Rensselaer Iron Works, the Bessemer Steel Works, and the Albany Iron Works at Troy, and the blast furnaces at Hudson and Fort Edward. The names of Griswold and Corning have been so long identified with the iron trade of the United States, and have so long been synonyms for success, that the prosperity of the new corporation may be fairly assumed to be assured. Mr. Erastus Corning is the President, and Mr. Chester Griswold the Vice President of the company; Mr. Selden E. Marvin is the Secretary and Treasurer, and Mr. James E. Walker, long connected with the Albany Iron Works, is the General Manager.

Parkton and Manchester Railroad.

John Merryman has been elected President and Lewis C. Myerly Secretary of the Parkton and Manchester Railroad Company. The proposed railroad is fourteen miles long, commencing at Parkton, in Baltimore county, on the line of the Northern Central Railway, and its terminus, Manchester, is in Carroll county. The road will traverse one of the best farming districts of the State; $90,000 have been expended in grading the line of the road. The General Assembly of Maryland, at its last session, authorized the commissioners of Baltimore county to invest $40,000 in the first mortgage bonds of the company, from the proceeds of the sale of the old almshouse property, as soon as it was reported that this sum would complete the grading and bridging.

☞ Articles of incorporation have been filed with the Secretary of State of California of the San Francisco, San Mateo and Santa Cruz Railroad Company, to construct, equip and maintain a narrow gauge railroad from a point on the coast near the boundary line between the counties of San Mateo and Santa Cruz, through Pescadero and Spanishtown to San Francisco, a distance of about 80 miles. Capital, $2,000,000, in shares of $100 each. Directors—Walter E. Sell, James W. Bicknell, Josiah P. Ames, James Byrnes, Isaac C. Steele, John Garretson and John Spaulding. The principal plase of business will be in San Francisco.

☞ Lancaster, Penn., is fast becoming a prominent railroad centre, being in communication with Philadelphia, New York, Baltimore and the West. The completion of the Quarryville Railroad, only a few miles yet to be built, will give a short route to Baltimore and Washington city.

Union Pacific Railroad.

At the meeting of the stockholders of the Union Pacific Railroad Company in Boston on the 10th inst. the directors submitted the following report:

BOSTON, March 10, 1875.

To the Stockholders of the Union Pacific Railroad Company:

The Board of Directors submit the following Report for the year ending Dec. 31st 1874:

The gross earnings for the year were	$10,559,880 12
The expenses, including taxes....	4,652,314 95
Surplus of earnings	$5,907,565 17

Operating expenses being 44.05 per cent of gross earnings. The surplus earnings for the year are equal to seven per cent on the entire stock and bonds of the company.

In view of the great commercial depression of the past year, and the almost universal falling off of the earnings of railroads throughout the United States, the increase of earnings on your road for the past year is very gratifying. The directors take much pleasure in calling the attention of the stockholders to this fact, the importance of which can hardly be over-estimated in calculating the future earning capacity of the property when the business of the country shall have been restored to something like its former volume. The continued settlement of the company's lands by a good class of settlers, the increasing production of the silver mines of Utah, the coal mining on the line of the road, and the natural increase in trade between the Atlantic and Pacific States, must all tend to swell materially the earnings of your road in the future. The establishment of friendly relations with the Pacific Mail Steamship Company, which already has enabled your company to charge more remunerative rates for passengers and freights, is a very important matter and should not be lost sight of in considering the prospective value of your property.

It is with great pride and gratification that the directors announce the important fact that arrangements have been made and the funds provided for the immediate payment of the entire floating debt of the company.

The expenditure for construction and for new rolling mill at Laramie was $482,568 04 details of which are given in an appended statement.

Compared with the year previous there has been an increase in gross earnings of $293,776 46, a decrease of expenses of $390.897 41, and an increase in surplus earnings of $684,673 88.

The ratio of expenses to earnings has been decreased from 48.46 per cent to 44.05 per cent

The passenger earnings amounted to $3,952,858 55 and the freight earnings to $5,664,731 33. Detailed statements relative to the above will be found in the Appendix.

Upwards of eighty-four miles of new steel and iron rails have been laid during the past year, and the entire track, together with the equipment and depots, has been maintained in a high order of efficiency, the expenditures for which were charged to "operating expenses."

The measures adopted to avoid snow blockades on that part of the line which crosses the Rocky Mountains have been very effective; and the experience of the past Winter, which for intensity of cold and depth of snow has been without precedent in the Rocky Mountains, fully demonstrates the wisdom of the board in incurring the large expenditure for raising the track, and for the erection of snow sheds and snow fences.

During the year the trains have run with great regularity, very few connections at either end of the road having been missed.

From November 1st, 1874, to March 1st, 1875, the passenger trains on the Union Pacific Railroad failed in a single instance only to connect with the Central Pacific trains on the west end, or the trains of the Iowa roads on the east.

The important work of filling the temporary trestle bridges throughout the line of the road with embankment, which was in progress during the past year, has been completed. In procuring material for this purpose numerous deep cuttings have been widened, and the necessity of maintaining and watching costly snow sheds obviated, whereby an important saving in the future operating expenses of the road will be effected.

The control by your company of the coal supply for use of locomotives has resulted in a saving of over $100,000 during the past year over the year preceding, in the cost of fuel, and has enabled settlers along the line of the road to obtain fuel at correspondingly reduced rates.

The new Rolling Mill built by your company at Laramie will be in operation in April next, with a capacity to re-roll 20 000 tons of rails per year.

During the past year the rails to be re-rolled were necessarily transported distances of over 500 miles to rolling mills east of Omaha.

It is estimated that the saving during the current year by the company's operating its own mill will be over $120,000.

During the year the company have successfully funded $10 000,000 of income bonds, which matured on the 1st of September, into its new issue of sinking fund bonds. By this exchange the company make an annual saving in interest payments of $40,000 per year. The sinking fund bonds now rank as one of the most popular (as they are certainly one of the soundest) investment securities dealt in on the New York Stock Exchange.

Another important consideration for the shareholders of this company which should not be lost sight of is that while most of the great railway enterprises of the country have been largely increasing their bonded obligations, this company has steadily pursued a directly opposite policy—having actually reduced its land grant bonds during the year $678,000, and upwards of $2,600,000 since the completion of the road. In addition, the land department have on hand $2,794,726 41 in land notes, drawing interest. The proceeds of these notes, as fast as paid, and of additional sales of lands, are applied by the trustees to the purchase and cancellation of the land grant bonds.

During the year there were sold 236 299.61 acres of agricultural lands in the Platte Valley, for the sum of $1,099,466 61, being an average of $4 65 per acre. The total number of acres sold to January 1, 1875, was 1,085 548.70, for $4,944,365, being an average of $4 56 per acre.

The amount of land unsold is 10 995,088.35 acres, a very large proportion of which is mineral land of great value.

In view of this increased value of the unsold lands, it may be assumed that the average sum to be realized from their sale will not be less than $5 per acre, and in this event the aggregate sale will amount to the sum of $54,975,441 75, which, in addition to land notes on hand, is sufficient to retire the outstanding land grant bonds, the sinking fund bonds, and the entire capital stock of the company at par.

The Union Pacific Railroad Company own in Wyoming Territory an area of coal fields greater than the entire anthracite coal fields of the State of Pennsylvania. The coal fields of the company extend along 400 miles of the road, and five million acres of its lands are within the coal measures. The coal is superior for ordinary fuel, and unequaled for making steam and for all manufacturing purposes. It will furnish cheap fuel to the company for its own traffic, and will afford large additional revenues from the sale and transportation of coal for domestic and manufacturing uses to supply the country extending for nearly two thousand miles from Omaha to the Pacific coast.

The road was opened for traffic in 1869; since which time a variety of questions has arisen relative to the true construction of the Acts of Congress under which it was constructed. The position at times maintained by the company touching these questions was misconstrued into antagonism to the interests of the government, and led the public to make unjust criticisms, and pronounce unsound judgments concerning the conduct and purposes of the corporation, whose intention ever has been to fulfill every obligation rightfully imposed on it by law. Happily, most of these questions were of a temporary character; many of them have already been satisfactorily disposed of, and the remainder are in a fair way of compromise between the government and the company, or speedy and final adjudication by the courts.

Past public misapprehension and its consequent hostility, constitute the only cloud which shadows the company's property; this is rapidly passing away, and a more perfect understanding of the facts involved will dispel it forever. To assist in effecting this most desirable end, the statement here following is made.

In pursuance of the opinion of Attorney General Evarts, of September 5, 1868, it was held by the government that the road was only partially or provisionally completed, and that it was not a "completed road" within the terms of the Acts of Congress under which it had been constructed. The company had no alternative but to accept and act upon this resolution of the government.

For the purpose of securing a lawful completion of the road, the goverment determined to retain in its own hands a portion of the subsidy bonds, and the undelivered patents for the lands embraced in the land grant. This occasioned most serious financial embarrassment to the company, which led to negotiations resulting in an agreement (now a matter of public record), by the terms of which the government bonds, withheld as above stated, were delivered to the company upon its depositing with the government a like amount of its first mortgage bonds.

On the 10th of April, 1869, Congress, acting on the assumption of the Executive Department of the government, that the road was not a "completed road" within the true intent of the Acts of that body, passed a joint resolution, directly *affirming* the position of the Executive Department, and authorizing the President to appoint a "Board of eminent citizens," "to examine and report upon the condition of, and what sums, if any, will be required to complete each of said roads, *for the entire length thereof, to the said terminus*, as a first class railroad, in compliance with the several Acts relating to said roads." The "Board of eminent citizens" was appointed. After a careful personal examination, they reported (Oct. 30, 1869) that an expenditure of over one and a half million dollars would be required to complete the road as provided by the Acts of Congress and the instructions of the Interior Department.

In pursuance of this report and in compliance with the demands of the government, the company proceeded to make the expenditure exacted, and, when nearly the stated amount had been so expended, the government elected to release to the company the first mortgage bonds deposited with it as aforesaid, upon the bond of the corporation being given conditioned for a full compliance with the law relative to the completion of the road, and released one half of the patents for lands retained by order of the Secretary of the Interior, dated November 3, 1869, holding the remainder until final completion of the road.

The government maintained the position that the road was not completed within the meaning of the Acts of Congress, until October, 1874. In the meantime, the company had expended $3,596,075 79, in bringing the road up to the required standard, or, about $2,000,000 more than the report of the "Board of Eminent Citizens" required. After making this large expenditure, the President of the Corporation notified the Secretary of the Interior, that in the opinion of the company, the road was completed as contemplated by the Acts of Congress, the report of the "Board of Eminent Citizens," and the order of his department. Thereupon a new commission was appointed to re-examine the road and report thereon, a full copy of which report is herewith submitted. It will be observed that this report covers, specifically and in detail, all points at issue relative to the completion of the road, and contains this express conclusion: "This commission has, therefore, decided that the road was completed as required by law, by the report of the former commission, and in compliance with the instructions of the Interior Department, October 1st, 1874, at

a total cost of $115,214,587 79, as shown by the books of the company."

That report was approved by the Government; and since such approval—and only since then—the road has been deemed and held to be completed. This action of the Government was highly important in several respects. It settled, finally, authoritatively and definitely, the question of the road's completion; it removed the inhibition to the issuance of patents for the lands granted to the company, and they are now being issued as rapidly as required by the company; and it fixed the date from which the Government is entitled to receive from the company five per cent. of its net earnings, under the 6th section of the Act of July 1, 1862, which provides that "after said road is completed, until said bonds and interest are paid, at least five per centum of the net earnings of said road shall also be annually applied to the payment thereof." Upon the several questions just referred to, the Government and the Company are now (except as hereinafter stated) in accord; and it cannot be doubted that, so far as any of them are involved in judicial proceedings, the Courts will affirm the concord thus existing.

The law having provided that the Government shall be entitled to receive five per cent. of the net earnings of the road after its completion, and the Government having, as above stated, determined that the road was completed on the 1st day of October, 1874, the question arises—What constitutes net earnings?

The Supreme Court of the United States has answered this question. In St. John *vs.* The Erie Railway Company, that Court held that net earning are such as are left to the stockholders after the payment of all just and lawful charges against the company. It is stated in the opinion of the Court that—"The logical definition of NET is 'clear of all charges and deductions'—*Webster*. 'That which remains after the deductions of all charges or outlay as net profits.'—*Worcester*. The popular acceptation of the term is the same." This reduces the question of net earnings to absolute certainty. Whatever this company has left of its earnings after payment of all its just and lawful obligations is "net earnings;" and of this amount the Government claims that it is entitled to five per cent. since the completion of the road—a date fixed by the Government's own action as the first day of October, 1874. Hence, there is no longer any ground of disagreement between the Government and the company as to what constitutes net earnings and the date from which the former is entitled to demand five per cent. of the same, if at all. Whether or not the five per cent. liability is now obligatory on the company, it is not deemed essential to discuss. It is sufficient to say that eminent counsel are of opinion that this part of the Act of 1862 is repealed; and the decision of Judge Hunt, that the legal construction of our charter must, on doubtful points, be construed in favor of the company, seems to give great force to the opinion that no such obligation now exists.

The construction placed upon the Acts of Congress under which the road was constructed by this company have, so far as they have been tested, been sustained by the courts, and the decision of the Supreme Court of the United States, relative to the taxation of lands granted to the company, tends to make certain and definite the obligations of the company in these several respects, and to defeat many of the exorbitant and unjust claims which have been made upon it. It is a source of gratification that the perplexities which have come upon the company in the past, from the causes indicated, are so rapidly and satisfactorily passing away.

The relation existing between the Government and the company are important and delicate; but there has never been any misunderstanding concerning them, except those arising from a construction of the Acts of Congress under which the road was built. The most important question now in dispute between the Government and the company is one which has its origin in the latter's transportation for the former. Section 5, of the Act of July 2, 1864, declares that "only one half of the compensation for services rendered for the Government by said companies shall be required to be applied to the payment of the bonds issued by the Government in aid of the construction of said roads." Congress, by an amendment, directed the Secretary of the Treasury to retain all of the earnings on government account. A suit, specially authorized by Congress, is now pending in the Court of Claims, to determine whether or not the Government is entitled to retain more than one half of said earnings. There can be but one end to this controversy. The law under which the road was built must determine the rights involved, and this will place in the treasury of the company about $1,000,000.

Feeling the importance of harmony in the relations of the Government and the company, and with a view to its establishment on a basis firm and enduring, a proposition was made by the latter to the former, a copy of which is appended.

This proposition was not only favorably received by the President and his Cabinet, but was very generally approved by the public; and there is no doubt that, had sufficient time remained after its submission and before the adjournment of Congress, that body would have given it the sanction of a definite law. The proposition will be brought to the attention of Congress, at its next session, by the Government, and will lead to a definite and final settlement of all controversy between the Government and the company. The offer of the company is more liberal than a strict construction of the Acts of 1862 and 1864 would seem to require; but it defines with exactness the relations of the Government and the company—an end most desirable. When approved by Congress and carried into effect, it will result in removing a mortgage from the property of the company, and in paying nearly eighty million dollars of the public debt.

In the opinion of Judge Hunt, in the case of The United States *vs.* The Union Pacific Railroad Company *et al.*, it is stated that "It is apparent to the most superficial reader of the statute, that the great object of Congress was to bestow advantages, and from to time time increase gratuities, to a corporation which should undertake the completion of a railroad to the Pacific. Conditions, restraints or trusts were little thought of." But the company has no disposition to take advantage of any unguarded liberality of the Government. It has constructed a great national work—in fact international—of which it is justly proud. The importance of this great work to the Government is almost incalculable. The reports of the Government directors show that the company has acted in the utmost good faith in caring for and maintaining the property; and the last report of said directors shows, from Government data, that, without a direct payment by the company of the principal and interest of the subsidy bonds issued to it, the Government will be fully re-embursed by the indirect benefits which accrue to it from the construction of the road. A copy of said report is herewith submitted.

It is deemed important that the stockholders should take some affirmative action at this meeting, concerning the proposition submitted to the Government, in order that the same may be placed before Congress, at its next session, with the full approval of the company.

Since the commencement of the construction of the Union Pacific Railroad, its affairs have been administered by the stockholders, without any remuneration for the large amount of capital they have invested. The Government and the public have alone received the great benefit of a line connecting the two oceans, the Government saving in cost of transportation up to this date being over eleven millions of dollars, a sum in excess of the interest advanced by the Government for the road. The reports of your officers, of the Government directors, and of the different commissions appointed by the Government to examine the road, testify how faithfully the stockholders have fulfilled their charge. The large expenditures for new construction, and to comply with the demands of the Government, which have been paid from surplus earnings, and which upon any other road would be justly due and would have been paid to the stockholders, are now made no longer necessary by the completion of the road. By any other company these expenditures would have been charged to construction and added to the capital of the company. The traffic of the road is one of permanent and unlimited growth. There is but little uncertainty as to its earnings, and there is no road in the United States that can carry an equal amount of traffic at the cost of so small a percentage of its revenue. The past winter, the most severe since the road was completed, has demonstrated that the road is no longer liable to serious obstruction by snow. This result has been reached by permanent improvements, thus avoiding future expenditures.

The report of the superintendent shows that not one train has been seriously delayed by snow, while roads connecting us with the east, and also parallel with us, have been snow bound for several continuous days. The decision of the Supreme Court of the United States, relating to the taxation of the unpatented lands, is a great benefit to the company, by relieving it from a large expenditure of money.

Questions pending in the executive departments, relative to its lands, depot sites, rights of way, reservations, and amounts due for Government transportation, have been finally settled, generally in favor of the company.

A decision determining the amount due the company for the half of the earnings on Government transportation will place in the treasury of the company nearly one million of dollars.

The establishment of a rolling mill on the line and contracts made relative to iron, will save to the company over $100,000 per annum, and reforms in the fuel department will reduce its cost about $150,000 per annum.

The amicable arrangement made with both steamship lines on the Pacific will bring remunerative prices for all the Pacific and China trade, and add largely to the surplus earnings.

It is evident from the foregoing facts, and the consideration that, as shown by the treasurer's statement, the surplus earnings for 1874 were nearly six millions of dollars, and that the company, for the year 1875, will be relieved from many of the extraordinary expenditures heretofore made, while the non action of the government on the proposition of the company will also relieve it from holding any money in the treasury for the purpose of meeting the payment proposed for 1875, that there will be in the treasury a large sum of money as net profits from the operation of the road during that year.

Your board therefore submits to the stockholders the question, what disposition shall be made of these profits? it being their opinion that a dividend of six per cent. for the year 1875, payable in quarterly installments, the first payable July 1st, could be made without detriment to the company, as it is certainly fairly due to the stockholders.

The directors cannot conclude their report without warmly commending their general superintendent Mr. S. H. H. Clark and the local officers of the company engaged in operating the road. To their fidelity, capacity and energy the extremely favorable results which have been accomplished are largely due.

By order of the Board,

SIDNEY DILLON,
President.

E. H. ROLLINS,
Secretary.

☞ The New York Legislature has passed a bill providing that all taxes levied in the State after January 1, 1879, shall be collected in United States coin, or notes redeemable in gold, and that every contract made or implied and payable after that date in dollars, not of a specified kind, shall be payable in United States coin of the standard fixed at the time the contract is made.

Detroit and Milwaukee Railway.

The Detroit and Milwaukee Railway Company were compelled to default the interest on the November, 1873, and May and November, 1874, coupons owing to depreciation of their equipment and decrease of earnings, the result of ruinous competition with new lines. The floating debt of the company amounts to $587,-291, including $103,000 mortgage on the land in Detroit on which the station and machine shops are built. The bonded debt aggregates $7,017,000, of which $2,500,000 is first mortgage, $1,000,000 second mortgage, and $1,-005,000 coupon bonds. The Great Western Railway Company of Canada propose to the bondholders of the Detroit and Milwaukee Railway Company to advance $1,787,291, of which $587,291 is to pay off the floating debt, and $1,200,000 to renew the line with steel rails and put on new equipment. This advance is to be paid for in new bonds of the Detroit and Milwaukee Railway Company, at par, provided the bondholders agree as follows: 1. The first, second and funded coupon bondholders (holding $4,505,640) to surrender their bonds with interest, at ninety per cent of par, for new bonds—five per cent the first year and six per cent the following years—amounting to $4,055,076. 2. The bonds of 1866 ($110,000) to be surrendered at fifty per cent of par for new bonds, $55,000. 3. The Stuart-Douglass bonds ($1,702,000) to be surrendered for ten per cent of par in new bonds, $170,200. 4. The balance of the issue, $1,719,724, to be delivered to the Great Western in consideration of the proposed advance of money: this new mortgage of $6,000,000 to run forty years from Feb. 1, 1875, no foreclosure or other legal proceeding to be taken for any default or delay in paying the interest for the first three years, such arrears, however, if any, remaining a charge upon the earnings. The arrangement being made, the Great Western agrees to lease the Detroit and Milwaukee road and work it at seventy per cent of the gross earnings, leaving thirty per cent of the traffic receipts to the bondholders.

The proposed renewal of the road and rolling stock will require the whole of the present year, for which reason the interest on the new debt is put at five per cent the first year. This total of $6,700,000 of bonded debt, requiring an annual interest payment after 1875 of $410,-000, is believed to be the utmost under which the road can live, as to earn this amount, a gross traffic of $1,350,000 per year will be required; and this the road cannot possibly secure or do unless the proposed improvements are at once made.

Should opposition and delay be encountered, a foreclosure and receivership will be necessary, in which event many years must elapse before the property can be repaired and the floating debt paid off, even under the most favorable circumstances conceivable out of the profits of the business of the road; and, in the end, there would be a forced sale of the road, and a *pro rata* division of the proceeds. It is understood that the English (majority) bondholders have agreed to this plan.

Iron Manufacture.

The following information is given by the Secretary of the American Iron and Steel Association, in his annual report:

Of 696 completed furnace stacks in the country, 472 had reported to the Association up to the 10th of February inst. their condition on the 1st of January last. Of these 472 stacks, 260 were then in blast and 212 out of blast. In addition to these 212 out of blast, 37 of the 260 then in blast were announced to be blown out in January. This would give on the first of February 249 furnaces out of blast, 223 in blast, and 224 to be heard from. Of the 224 not reporting, it is entirely safe to assume that one-half of them were out of blast on the 1st of February. Fully one-half of all the furnaces in the country were therefore out of blast on the first of February, a degree of depression not previously reached since the beginning of the panic. The 472 reporting stacks are classified as follows:

Anthracite.—In blast January 1, 105; out of blast, 70; to be blown out, 8; total, 175 stacks.

Bituminous.—In blast January 1, 59; out of blast, 69; to be blown out, 9; total, 128 stacks.

Charcoal.—In blast January 1, 93; out of blast, 71; to be blown out, 20; total, 164 stacks.

Mixed Fuels.—In blast January 1, 3; out of blast, 2; total, 5 stacks.

The 472 reporting stacks return an aggregate of 560,871 net tons of pig iron as unsold on the 1st of January last; of which 184,930 tons were anthracite, 160,999 tons were bituminous coal and coke, 150,197 tons were ordinary charcoal, and 64,745 tons were car wheel charcoal. We omit any estimate of the probable quantity of pig iron unsold on the 1st of January by the 224 non reporting furnaces, but will add that of these furnaces 40 were anthracite, 53 were bituminous coal and coke, 128 were charcoal, and 3 were mixed fuels.

☞ The Butler (Penn.) Herald, of 11th inst., says that the Baltimore and Ohio Railroad Company will proceed at once to make a road from Allegheny City or Pittsburg, following the Breakneck creek to Harmony, and thence form a connection with the New Castle and Franklin railroad. The information, it says, "seems to be perfectly reliable, and we are assured, the assertion coming from the contractor, Mr. Fawcett, that the road will be made to Harmony in six months."

THE UNITED STATES

Rolling Stock Company

Is now prepared to lease all of its NARROW GAUGE EQUIPMENT recently withdrawn from the ATLANTIC & GREAT WESTERN RAILROAD, and now stored and deliverable at Cleveland, O., and Pittsburgh, Pa.
